**Business name or organisation (if applicable):**

**Position title (if applicable):**

**Is this an individual submission or on behalf of a group or organisation?**

Individual

**Please indicate which group you most identify with or are involved in?**

Environmental

**Please specify the group that you most identify with**

**Please indicate which type of group your submission represents**

**Please specify the group or organisation that your submission is on behalf of.**

**Vision**

**Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?**

Strongly disagree

**Why?**

The fossil fuels industry is a complete disaster for our environment. We need to halt permit extensions and deep sea drilling and fracking. Any extraction of minerals should only happen in conjunction with greater consultation with iwi and hapu and with minimal environmental impact.

**What is your vision for the minerals and petroleum sector in New Zealand?**

I'd like to see the use of petroleum completely phased out by conversion to sustainable energy systems with support for those communities whose transition into clean energies would be their greatest.

**How can New Zealand sustainably derive value from its petroleum and minerals resources?**

I'm not sure that it can do this in any real sustainable way.

**Objectives for the minerals and petroleum sector**

**Objective for a sector that: "Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy".**

Agree

**Why?**

**Objective for a sector that: "Is productive and innovative".**

Strongly disagree

**Why?**

i don't want to see petroluem being produced as it is contributing to the death of our ecosystems and global heating.

**Objective for a sector that: “Is effectively regulated”.**

Strongly disagree

**Why?**

I think it's already been shown that effective regulation of the fossil fuel industry is not possible.

**Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?**

**Guiding principles**

**Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.**

Strongly disagree

**Why?**

It's a good principle but it's not true in reality. The environment is NOT being respected, now or in the long term.

**Principle: Māori cultural interests are understood and respected.**

Disagree

**Why?**

I think more listening to the opinions of iwi and hapu is necessary.

**Principle: Support the transition to a carbon neutral economy by 2050.**

Strongly agree

**Why?**

Essential to our survival. Also has huge possiblities for jobs and economic interests.

**Principle: The impact on people, communities and regions are managed in a just and inclusive way.**

Strongly disagree

**Why?**

**Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.**

Strongly agree

**Why?**

This model is the only way to move forward sustainably and should be impletmented before new mining etc occurs.

**Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.**

Disagree

**Why?**

It's time that the environment came first, before other related sectors and Govt Strategies. We can't negotiate with science.

**Do you agree or disagree with each of the following principles for the Crown?**

**Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.**

Disagree

**Why?**

I think there are many cases where iwi are not being listened to or respected. I think the Govt, although it has come a long way, could do better.

**Principle: The Crown receives a fair financial return for its minerals and petroleum.**

Neither agree nor disagree

**Why?**

**Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.**

Neither agree nor disagree

**Why?**

**Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.**

Strongly disagree

**Why?**

The science is telling us that it's time to stop using fossil fuels. These current permits should not be extended. I think they should be annulled given the climate crisis.

**Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.**

Strongly disagree

**Why?**

**Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.**

Neither agree nor disagree

**Why?**

**Do you agree or disagree with each of the following principles for Industry?**

**Principle: Pursue continuous improvements in health and safety.**

Strongly agree

**Why?**

**Principle: Strive to implement industry best practice in operations.**

Strongly agree

**Why?**

**Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.**

Strongly agree

**Why?**

**Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.**

Strongly agree

**Why?**

**Are there any other principles you would like us to consider in the strategy?**

**Action areas intro**

**Action Area: Modernising the Crown Minerals Act**

Strongly agree

**Why?**

**What future actions would you like us to consider under this Action Area?**

More consultation with iwi and hapu, more consideration of the environment.

**Action Area: Securing affordable resources to meet our minerals and energy needs**

Strongly agree

**Why?**

**What future actions would you like us to consider under this Action Area?**

Conversion to sustainable energy sources. Creation of a circular economy.

**Action Area: Improving Treaty partnership**

Strongly agree

**Why?**

**What future actions would you like us to consider under this Action Area?**

**Action Area: Improving stakeholder and community engagement**

Strongly agree

**Why?**

**What future actions would you like us to consider under this Action Area?**

**Action Area: Improving industry compliance**

Strongly agree

**Why?**

**What future actions would you like us to consider under this Action Area?**

**Action Area: Research and investment in better mining and resource use**

Strongly agree

**Why?**

**What future actions would you like us to consider under this Action Area?**

**Are there any other action areas you would like us to consider as part of advancing this Strategy?**

**Other**

**Are there any other comments you would like to make about the “Minerals and Petroleum Strategy for Aotearoa New Zealand: 2019-2029”?**

**If you wish to, attach a document to this submission.**

**Use and release of information**

**We intend to upload submissions to our website at [www.mbie.govt.nz](http://www.mbie.govt.nz). Can we include your submission on the website?**

Yes

**Can we include your name?**

No

**Can we include your email address?**

No

**Can we include your business name or organisation?**

Yes

**Can we include your position title?**

No

**Can we include the group you most identify with (if submitting as an individual)?**

Yes

**Can we include the group your submission represents (if submitting on behalf of a group or organisation)?**

**If there are any other parts to your submission that you do not want public on the website please note them below:**

**OIA publishing warning**

**If there is information in your submission that you wish to remain confidential, please note them below:**
