Business name or organisation (if applicable):

Position title (if applicable):

Is this an individual submission or on behalf of a group or organisation?

Individual

Please indicate which group you most identify with or are involved in?

General public

Please specify the group that you most identify with

Please indicate which type of group your submission represents

Please specify the group or organisation that your submission is on behalf of.

Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Disagree

Why?

There are other fuel sources that are less destructive to the environment and climate

What is your vision for the minerals and petroleum sector in New Zealand?

To be phased out

How can New Zealand sustainably derive value from its petroleum and minerals resources?

It can't. Petroleum resources in particular are a carbon sink, and extracting them has to affect climate change unless we don't use what we have extracted

Objectives for the minerals and petroleum sector

Objective for a sector that: "Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy".

Strongly disagree

Why?

It is an oxymoron to have more petroleum products when trying to achieve carbon neutrality.

Objective for a sector that: "Is productive and innovative".

Strongly disagree

Why?

We need to working towards stopping extracting and using petroleum

Objective for a sector that: “Is effectively regulated”.

Strongly agree

Why?

So we can transition away from petroleum products as energy sources

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?

Guiding principles

Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.

Strongly agree

Why?

Otherwise humans will no longer be able to survive in the world

Principle: Māori cultural interests are understood and respected.

Strongly agree

Why?

Because they are often stronger guardians of our environment

Principle: Support the transition to a carbon neutral economy by 2050.

Neither agree nor disagree

Why?

It needs to be sooner

Principle: The impact on people, communities and regions are managed in a just and inclusive way.

Strongly agree

Why?

Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.

Neither agree nor disagree

Why?

The principle needs to include reduction, there are no systems that can perfectly reuse material or energy.

Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.

Neither agree nor disagree

Why?

I don't know enough about what those other strategies are

Do you agree or disagree with each of the following principles for the Crown?

Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.

Strongly agree

Why?

Because it's the right thing to do

Principle: The Crown receives a fair financial return for its minerals and petroleum.

Strongly disagree

Why?

Shouldn't be extracting petroleum

Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.

Strongly agree

Why?

Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.

Strongly disagree

Why?

They were made before we understood the irreversible impact they are having, or before we were aware of economically viable alternatives

Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.

Strongly disagree

Why?

Needs of future generations will be irrelevant if fossil fuels aren't phased out as quickly as possible

Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.

Strongly agree

Why?

Especially to the public

Do you agree or disagree with each of the following principles for Industry?

Principle: Pursue continuous improvements in health and safety.

Strongly agree

Why?

Principle: Strive to implement industry best practice in operations.

Strongly disagree

Why?

We need to be phasing out the industry

Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.

Strongly disagree

Why?

We need to phase out the petroleum industry

Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.

Strongly agree

Why?

A lesson from history

Are there any other principles you would like us to consider in the strategy?

Phasing out petroleum products as fuel or other items

Action areas intro

Action Area: Modernising the Crown Minerals Act

Strongly agree

Why?

We need to phase out petroleum

What future actions would you like us to consider under this Action Area?

Action Area: Securing affordable resources to meet our minerals and energy needs

Strongly disagree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving Treaty partnership

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving stakeholder and community engagement

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving industry compliance

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Research and investment in better mining and resource use

Strongly disagree

Why?

What future actions would you like us to consider under this Action Area?

Are there any other action areas you would like us to consider as part of advancing this Strategy?

Other

Are there any other comments you would like to make about the “Minerals and Petroleum Strategy for Aotearoa New Zealand: 2019-2029”?

If you wish to, attach a document to this submission.

Use and release of information

We intend to upload submissions to our website at www.mbie.govt.nz. Can we include your submission on the website?

Yes

Can we include your name?

No

Can we include your email address?

No

Can we include your business name or organisation?

No

Can we include your position title?

No

Can we include the group you most identify with (if submitting as an individual)?

Yes

Can we include the group your submission represents (if submitting on behalf of a group or organisation)?

If there are any other parts to your submission that you do not want public on the website please note them below:

OIA publishing warning

If there is information in your submission that you wish to remain confidential, please note them below:
