General public

**Please specify the group that you most identify with**

**Please indicate which type of group your submission represents**

**Please specify the group or organisation that your submission is on behalf of.**

**Vision**

**Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?**

Strongly disagree

**Why?**

Because using oil, gas aUsing oil, gas or coal will raise the global temperature above a safe point will destroy the continuation of life on Earth. int for the survival of life on Earth..

**What is your vision for the minerals and petroleum sector in New Zealand?**

The rapid phasing out of fossil fuel extraction. Stopping all deep sea drilling and fracking.

**How can New Zealand sustainably derive value from its petroleum and minerals resources?**

Mineral resources will need to be mined wiht the least possible environmental impact.

**Objectives for the minerals and petroleum sector**

**Objective for a sector that: “Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy”.**

Strongly agree

**Why?**

We must become carbon neutral rapidly to save life on the planet, to give future generations a liveable planet. It must be a just transition with training for people who will have to re-train for new jobs in clean industries.le

**Objective for a sector that: “Is productive and innovative”.**

Strongly disagree

**Why?**

Fossil fuels must be phased out rapidly.

**Objective for a sector that: “Is effectively regulated”.**

Strongly agree

**Why?**

Government regulations to enforce the rapid phase out of fossil fuels.

**Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?**

**Guiding principles**

**Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.**

Strongly agree

**Why?**

We must maintain the balance with all living things

**Principle: Māori cultural interests are understood and respected.**

Strongly agree

**Why?**

Maori have a long history of caring for the environment and their concern is to be understood and respected.

**Principle: Support the transition to a carbon neutral economy by 2050.**

Strongly agree

**Why?**

Definitely by 2050, but ideally faster than that. Significant changes need to be made sooner than that, so results can be seen to carbon output and changes sped up if necessary.

**Principle: The impact on people, communities and regions are managed in a just and inclusive way.**

Strongly agree

**Why?**

Training for new jobs as required, and people learn to know and value what is being done, and the value of the changes that are being made.

**Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.**

Strongly agree

**Why?**

Using what we have, in new ways, before extracting anymore. Learning to reuse and recycle in new ways.

**Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.**

Strongly agree

**Why?**

The sector mineral must be controlled, extracting only when necessary. The petroleum sector to be phased out rapidly.

**Do you agree or disagree with each of the following principles for the Crown?**

**Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.**

Strongly agree

**Why?**

Justice to all.

**Principle: The Crown receives a fair financial return for its minerals and petroleum.**

Strongly agree

**Why?**

Yes the mineral resources are for NZ, not some company for profit.

**Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.**

Strongly agree

**Why?**

The Crown is working for all citizens.

**Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.**

Strongly disagree

**Why?**

The situation has changed. We know how dire the consequences of doing the same, so the rules must be changed too. e

**Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.**

Strongly agree

**Why?**

The Crown's motive should be the best for all citizens, so the Crown must decide.

**Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.**

Strongly agree

**Why?**

Communication with the citizens is essential for them to know the facts and understand the reasons for the necessary changes.

**Do you agree or disagree with each of the following principles for Industry?**

**Principle: Pursue continuous improvements in health and safety.**

Strongly agree

**Why?**

Workers need to be cared for adequately.

**Principle: Strive to implement industry best practice in operations.**

Strongly agree

**Why?**

Seems to be the sensible way.

**Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.**

Strongly agree

**Why?**

Only if the Crown has agreed to the extraction.

**Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.**

Neither agree nor disagree

**Why?**

No mistakes are to be made. The Crown is in control, not the stakeholders or management. The future of the planet is not for bargaining.

**Are there any other principles you would like us to consider in the strategy?**

**Action areas intro**

**Action Area: Modernising the Crown Minerals Act**

Strongly agree

**Why?**

To phase out the extraction of fossil fuels rapidly. To stop deep sea drilling and fracking rapidly.

**What future actions would you like us to consider under this Action Area?**

The Crown will make decisions for the best future for the planet.

**Action Area: Securing affordable resources to meet our minerals and energy needs**

Neither agree nor disagree

**Why?**

We need to secure sustainable resources to meet our minerals and energy needs.

**What future actions would you like us to consider under this Action Area?**

That carbon emissions are reduced rapidly.

**Action Area: Improving Treaty partnership**

Agree

**Why?**

If that aids a reduction in carbon emissions that will be good.

**What future actions would you like us to consider under this Action Area?**

**Action Area: Improving stakeholder and community engagement**

Strongly agree

**Why?**

The stakeholders in reducing carbon emissions are the citizens and excellent communication will be needed to get everyone understanding and supporting the needed initiatives.

**What future actions would you like us to consider under this Action Area?**

**Action Area: Improving industry compliance**

Strongly agree

**Why?**

The Crown must enforce compliance.

**What future actions would you like us to consider under this Action Area?**

**Action Area: Research and investment in better mining and resource use**

Neither agree nor disagree

**Why?**

Maybe we need to learn to reuse, use less, live more simply, be so much less wasteful. We need to reduce, reuse, recycle before extracting any more. ree

**What future actions would you like us to consider under this Action Area?**

We need to move to a sustainable, clean tech economy.

**Are there any other action areas you would like us to consider as part of advancing this Strategy?**

**Other**

**Are there any other comments you would like to make about the “Minerals and Petroleum Strategy for Aotearoa New Zealand: 2019-2029”?**
