Business name or organisation (if applicable):

Position title (if applicable):

Is this an individual submission or on behalf of a group or organisation?

Individual

Please indicate which group you most identify with or are involved in?

Other group most identified with (individual submission)

Please specify the group that you most identify with

Education

Please indicate which type of group your submission represents.

Please specify the group or organisation that your submission is on behalf of.

Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Strongly disagree

Why?

I do not see a future where mining or using petroleum could possibly be sustainable, as both industries do great harm to our environment.

What is your vision for the minerals and petroleum sector in New Zealand?

The workers in this sector should receive training and employment in sustainable and carbon-reducing industries, in clean energy, and in the technology sector supporting green initiatives.

How can New Zealand sustainably derive value from its petroleum and minerals resources?

By showing the world how to safely shut down mines and oil explorations, while repurposing and changing that technology. New Zealand can derive value from these resources by taking the experts and hardworking workforce from that sector and employing them in sustainable and environmentally friendly searches for green solutions.

Objectives for the minerals and petroleum sector

Objective for a sector that: “Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy”.

Strongly disagree

Why?

Its not enough to be carbon neutral. We have to do better already, and become carbon negqtive, actively work on reducing climate temperatures and world habits of waste and pollution.

Objective for a sector that: “Is productive and innovative”.

Neither agree nor disagree

Why?

This is unclear

Objective for a sector that: “Is effectively regulated”.

Neither agree nor disagree

Why?

Again this is unclear

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?

Shut it down.

Guiding principles

Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.

Why?

Open cast mines have a terrible impact on the environment for the wealth of a few.
Petroleum is fucking us all

Principle: Māori cultural interests are understood and respected.

Strongly disagree

Why?

Māori are the kaitiaki of this land. As people, it is our place to protect the land for future generations. Petroleum and mining are a direct threat to Māori land and values.

Principle: Support the transition to a carbon neutral economy by 2050.

Strongly disagree

Why?

It is not good enough.

Principle: The impact on people, communities and regions are managed in a just and inclusive way.

Neither agree nor disagree

Why?

Unclear what this means

Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.

Strongly agree

Why?

Clearly we need to do this

Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.

Neither agree nor disagree

Why?

I dont know what those sectors are doing.

Do you agree or disagree with each of the following principles for the Crown?

Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.

Agree

Why?

I'd like to see this in practice more

Principle: The Crown receives a fair financial return for its minerals and petroleum.

Neither agree nor disagree

Why?

Probably. But it should revert back to tangata whenua

Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.

Disagree

Why?

Land has been stolen and taken in dubious ways.

Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.

Strongly disagree

Why?

The crown should halt such activities in the interest of protecting the health of the people and preserving the planet

Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.

Neither agree nor disagree

Why?

Do they?

Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.

Neither agree nor disagree

Why?

Who are the relevant stakeholders? Can you consult my children as stakeholders in the future of this planet?

Do you agree or disagree with each of the following principles for Industry?

Principle: Pursue continuous improvements in health and safety.

Strongly agree

Why?

Principle: Strive to implement industry best practice in operations.

Strongly agree

Why?

Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.

Strongly agree

Why?

Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.

Strongly agree

Why?

Are there any other principles you would like us to consider in the strategy?

Action areas intro

Action Area: Modernising the Crown Minerals Act

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Securing affordable resources to meet our minerals and energy needs

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving Treaty partnership

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving stakeholder and community engagement

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving industry compliance

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Research and investment in better mining and resource use

Agree

Why?

What future actions would you like us to consider under this Action Area?

Are there any other action areas you would like us to consider as part of advancing this Strategy?

Other

Are there any other comments you would like to make about the “Minerals and Petroleum Strategy for Aotearoa New Zealand: 2019-2029”?

If you wish to, attach a document to this submission.

Use and release of information

We intend to upload submissions to our website at www.mbie.govt.nz. Can we include your submission on the website?

Yes

Can we include your name?

No

Can we include your email address?

No

Can we include your business name or organisation?

No

Can we include your position title?

Yes

Can we include the group you most identify with (if submitting as an individual)?

Yes

Can we include the group your submission represents (if submitting on behalf of a group or organisation)?

If there are any other parts to your submission that you do not want public on the website please note them below:

OIA publishing warning

If there is information in your submission that you wish to remain confidential, please note them below:
