Business name or organisation (if applicable):

Position title (if applicable):

Is this an individual submission or on behalf of a group or organisation?

Individual

Please indicate which group you most identify with or are involved in?

General public

Please specify the group that you most identify with

Please indicate which type of group your submission represents

Please specify the group or organisation that your submission is on behalf of.

Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Strongly disagree

Why?

Climate change. We need to stop burning fossil fuels.

What is your vision for the minerals and petroleum sector in New Zealand?

The industry that was shut down to protect people and the climate.

How can New Zealand sustainably derive value from its petroleum and minerals resources?

It can't. Using a non-recyclable, finite resource cannot be "sustainable".

Objectives for the minerals and petroleum sector

Objective for a sector that: "Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy".

Strongly disagree

Why?

This industry cannot support the transition if investment is flowing to it - you simply have to buy it and shut it down.

Objective for a sector that: "Is productive and innovative".

Strongly disagree

Why?

Because you are basically just burning the bulk of it leading to climate change.

Objective for a sector that: "Is effectively regulated".

Strongly agree

Why?

Effective would mean highly taxing and preventing the burning of fossil fuels.

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?

The dates at which fossil fuel production will end.

Guiding principles

Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.

Strongly agree

Why?

But this cannot be so by continuing to burn fossil fuels.

Principle: Māori cultural interests are understood and respected.

Strongly agree

Why?

Principle: Support the transition to a carbon neutral economy by 2050.

Strongly agree

Why?

It needs to go further - We need to be a carbon negative economy. We need to remove the fossil fuel carbon that we have added to the atmosphere.

Principle: The impact on people, communities and regions are managed in a just and inclusive way.

Strongly agree

Why?

Because people losing their jobs in the fossil fuel industry need to be trained in green tech.

Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.

Strongly agree

Why?

This would mean the banning of single use fossil fuels - otherwise it's not circular..

Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.

Strongly agree

Why?

Especially the Climate Change Commission.

Do you agree or disagree with each of the following principles for the Crown?

Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.

Strongly agree

Why?

Principle: The Crown receives a fair financial return for its minerals and petroleum.

Strongly agree

Why?

And these need to be increased and needs to be used to transition away from petroleum products..

Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.

Strongly agree

Why?

Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.

Why?

As a world, we need to stop burning fossil fuels, so we should buy the permits out and shut the fossil fuel industry down.

Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.

Strongly agree

Why?

If we are looking after our planet, our future generations won't be needing fossil fuels.

Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.

Strongly agree

Why?

Do you agree or disagree with each of the following principles for Industry?

Principle: Pursue continuous improvements in health and safety.

Strongly agree

Why?

Principle: Strive to implement industry best practice in operations.

Strongly agree

Why?

Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.

Strongly agree

Why?

Shutting the fossil fuel extraction industry down makes the job very easy.

Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.

Strongly agree

Why?

Are there any other principles you would like us to consider in the strategy?

Action areas intro

Action Area: Modernising the Crown Minerals Act

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Shutting down the fossil fuel extraction industry.

Action Area: Securing affordable resources to meet our minerals and energy needs

Strongly disagree

Why?

Move to green energy and we don't need fossil fuels.

What future actions would you like us to consider under this Action Area?

Action Area: Improving Treaty partnership

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving stakeholder and community engagement

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving industry compliance

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Research and investment in better mining and resource use

Strongly disagree

Why?

No tax payer "investment" in research for the fossil fuel industry.

What future actions would you like us to consider under this Action Area?

Invest in Clean Tech instead.

Are there any other action areas you would like us to consider as part of advancing this Strategy?

Other

Are there any other comments you would like to make about the “Minerals and Petroleum Strategy for Aotearoa New Zealand: 2019-2029”?

If you wish to, attach a document to this submission.

Use and release of information

We intend to upload submissions to our website at www.mbie.govt.nz. Can we include your submission on the website?

Yes

Can we include your name?

No

Can we include your email address?

No

Can we include your business name or organisation?

No

Can we include your position title?

No

Can we include the group you most identify with (if submitting as an individual)?

Yes

Can we include the group your submission represents (if submitting on behalf of a group or organisation)?

If there are any other parts to your submission that you do not want public on the website please note them below:
