Is this an individual submission or on behalf of a group or organisation?

Privacy of natural persons

Please indicate which group you most identify with or are involved in?

General public

Please specify the group that you most identify with

Please indicate which type of group your submission represents

Please specify the group or organisation that your submission is on behalf of.

Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Disagree

Why?

There is no distinction made between fossil fuels, which must go to zero as fast as possible because they are driving climate change, and other minerals which should be assessed on their environmental impact. There is no distinction made between aggregates, rock used for roading and concrete which are abundant and can be mined with very low impact, and minerals like gold which cause major environmental disruption. Metals essential for the transition to a zero carbon economy (eg lithium, cobalt) should be given priority over those which are merely "nice to have" (eg gold – there is enough gold already above ground for essential industrial uses.)

What is your vision for the minerals and petroleum sector in New Zealand?

How can New Zealand sustainably derive value from its petroleum and minerals resources?

Objectives for the minerals and petroleum sector

Objective for a sector that: "Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy".

Neither agree nor disagree

Why?

Gas is NOT a sustainable bridge to a low carbon (let alone zero carbon) economy. It's carbon dioxide emissions are more like 60% of coal rather than the 50% often quoted by industry, and we have to add to that significant methane releases from all parts of the production and use cycle

Objective for a sector that: "Is productive and innovative".

Neither agree nor disagree

Why?

Objective for a sector that: “Is effectively regulated”.

Agree

Why?

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?

Guiding principles

Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.

Agree

Why?

The environment, ecosystems, and biodiversity need to be protected not just respected

Principle: Māori cultural interests are understood and respected.

Agree

Why?

Principle: Support the transition to a carbon neutral economy by 2050.

Strongly agree

Why?

The Strategy should set a timeframe for the phase out of fossil fuels, starting with no new coal mines or oil and gas wells, and protecting essential uses of these fuels (eg steel making) for as long as possible, while closing down uses for which there are good substitutes, like electricity generation, promptly.

Principle: The impact on people, communities and regions are managed in a just and inclusive way.

Agree

Why?

Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.

Agree

Why?

Needs to expanded upon. Needs strategy of own beyond Mining and petroleum sector

Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.

Strongly agree

Why?

Needs to be consistent with the Government’s policy on climate change, which is to achieve zero carbon by 2050 under the Paris Accord.

Do you agree or disagree with each of the following principles for the Crown?

Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.

Strongly agree

Why?

Principle: The Crown receives a fair financial return for its minerals and petroleum.

Agree

Why?

Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.

Strongly agree

Why?

Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.

Strongly disagree

Why?

Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.

Neither agree nor disagree

Why?

Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.

Strongly agree

Why?

Do you agree or disagree with each of the following principles for Industry?

Principle: Pursue continuous improvements in health and safety.

Agree

Why?

Principle: Strive to implement industry best practice in operations.

Neither agree nor disagree

Why?

Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.

Agree

Why?

Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.

Agree

Why?

Are there any other principles you would like us to consider in the strategy?

Action areas intro

Action Area: Modernising the Crown Minerals Act

Agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Securing affordable resources to meet our minerals and energy needs

Neither agree nor disagree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving Treaty partnership

Agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving stakeholder and community engagement

Agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving industry compliance

Agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Research and investment in better mining and resource use

Neither agree nor disagree

Why?

What future actions would you like us to consider under this Action Area?

Are there any other action areas you would like us to consider as part of advancing this Strategy?

Other

Are there any other comments you would like to make about the “Minerals and Petroleum Strategy for Aotearoa New Zealand: 2019-2029”?

If you wish to, attach a document to this submission.

Use and release of information

We intend to upload submissions to our website at www.mbie.govt.nz. Can we include your submission on the website?

Yes

Can we include your name?

No

Can we include your email address?

No

Can we include your business name or organisation?

No

Can we include your position title?

No

Can we include the group you most identify with (if submitting as an individual)?

Yes

Can we include the group your submission represents (if submitting on behalf of a group or organisation)?

If there are any other parts to your submission that you do not want public on the website please note them below:
