Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Neither agree nor disagree

Why?

Our future depends on beginning the transition to a carbon neutral economy immediately.

What is your vision for the minerals and petroleum sector in New Zealand?

Growth in the sector must stop now before environmental changes become irreversible.

How can New Zealand sustainably derive value from its petroleum and minerals resources?

Reduce our dependence on this sector and transfer to a fossil fuel-free economy.

Objectives for the minerals and petroleum sector

Objective for a sector that: “Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy”.

Neither agree nor disagree

Why?

I agree with b) but not a). We must lead the world by becoming carbon neutral

Objective for a sector that: “Is productive and innovative”.

Strongly disagree

Why?

For the economy to be sustainable, oil production must cease and we must transfer to renewable sources of energy.

Objective for a sector that: “Is effectively regulated”.

Strongly agree

Why?

Oil companies are concerned with making money and will ruin the planet unless they are strongly regulated.

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?

Invest in solar energy and other renewable resources.

Guiding principles

Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.

Strongly agree

Why?

We have a global crisis caused by climate change and over population.

Principle: Māori cultural interests are understood and respected.

Neither agree nor disagree

Why?

Maori culture is not relevant. This is a global issue concerning all living creatures..

Principle: Support the transition to a carbon neutral economy by 2050.

Strongly agree

Why?

The planet is at a crossroads and urgent action is needed.

Principle: The impact on people, communities and regions are managed in a just and inclusive way.

Strongly agree

Why?

Big changes are required and this will mean some sacrifices by the wealthy.

Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.

Strongly agree

Why?

There are only limited resources on this planet and too many greedy people.

Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.

Strongly agree

Why?

Provided the strategies involve the sustainable use of resources.

Do you agree or disagree with each of the following principles for the Crown?

Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.

Strongly agree

Why?

Provided the principles include kaitiaki tanga.

Principle: The Crown receives a fair financial return for its minerals and petroleum.

Strongly agree

Why?

These resources are invaluable and should left for future generations

Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.

Strongly agree

Why?

The Crown must do what is best for the planet not the oil companies.

Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.

Strongly disagree

Why?

The Crown must act to cease our reliance on fossil fuels

Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.

Strongly agree

Why?

The best evidence should include evidence of the global crisis of climate change and over population

Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.

Neither agree nor disagree

Why?

We are all stakeholders in the future of the planet.

Do you agree or disagree with each of the following principles for Industry?

Principle: Pursue continuous improvements in health and safety.

Neither agree nor disagree

Why?

Long term this must include the effect of climate change on human health.

Principle: Strive to implement industry best practice in operations.

Neither agree nor disagree

Why?

The industry is already seriously harming the planet.

Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.

Neither agree nor disagree

Why?

Look at the long term effects of your industry on the earth.

Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.

Neither agree nor disagree

Why?

Huge resources will be required to redress the effects of climate change

Are there any other principles you would like us to consider in the strategy?

Think of the future of the planet as a whole not just short term profits.

Action areas intro

Action Area: Modernising the Crown Minerals Act

Neither agree nor disagree

Why?

It depends on what is meant by modernising

What future actions would you like us to consider under this Action Area?

We must redistribute resources into sustainable renewable energy.

Action Area: Securing affordable resources to meet our minerals and energy needs

Neither agree nor disagree

Why?

What future actions would you like us to consider under this Action Area?

May sure these resources are renewable.

Action Area: Improving Treaty partnership

Neither agree nor disagree

Why?

Irrelevant

What future actions would you like us to consider under this Action Area?

Action Area: Improving stakeholder and community engagement

Strongly agree

Why?

Most people want a safe future for their children.

What future actions would you like us to consider under this Action Area?

Educate NZers to reduce our dependence on fossil fuels.

Action Area: Improving industry compliance

Strongly agree

Why?

They are polluting the planet

What future actions would you like us to consider under this Action Area?

Educate the oil and mineral industry

Action Area: Research and investment in better mining and resource use

Strongly agree

Why?

Better use must mean less use

What future actions would you like us to consider under this Action Area?

Reduce our dependence on fossil fuels

Are there any other action areas you would like us to consider as part of advancing this Strategy?

Other

Are there any other comments you would like to make about the “Minerals and Petroleum Strategy for Aotearoa New Zealand: 2019-2029”?

If you wish to, attach a document to this submission.

Use and release of information

We intend to upload submissions to our website at www.mbie.govt.nz. Can we include your submission on the website?

Yes

Can we include your name?

Can we include your email address?

Can we include your business name or organisation?

Can we include your position title?

Can we include the group you most identify with (if submitting as an individual)?

Can we include the group your submission represents (if submitting on behalf of a group or organisation)?

If there are any other parts to your submission that you do not want public on the website please note them below:
