Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Disagree

Why?

Its disconnection with future re global warming

What is your vision for the minerals and petroleum sector in New Zealand?

Much greater consideration of long term effects

How can New Zealand sustainably derive value from its petroleum and minerals resources?

stop or at least minimise drilling for petroleum

Objectives for the minerals and petroleum sector

Objective for a sector that: “Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy”.

Strongly agree

Why?

The future matters and present pollution reaches point where ill-effects cannot be reversed

Objective for a sector that: “Is productive and innovative”.

Agree

Why?

To view the WIDER picture and consequences for future generations

Objective for a sector that: “Is effectively regulated”.

Strongly agree

Why?

Because it is a sector with massive consequences for NZ and future

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?

Yes, to research its impact on global warming and take steps to be a positive force not a negative force

Guiding principles

Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.

Strongly agree

Why?

Principle: Māori cultural interests are understood and respected.

Strongly agree

Why?

Principle: Support the transition to a carbon neutral economy by 2050.

Strongly agree

Why?

essential for our survival

Principle: The impact on people, communities and regions are managed in a just and inclusive way.

Strongly agree

Why?

Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.

Strongly agree

Why?

Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.

Strongly agree

Why?

to be effective by building a wide and needed strategy

Do you agree or disagree with each of the following principles for the Crown?

Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.

Strongly agree

Why?

Principle: The Crown receives a fair financial return for its minerals and petroleum.

Neither agree nor disagree

Why?

The finances are not the main factor: climate change is

Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.

Disagree

Why?

It should be stronger if it has the values of action to stop climate change

Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.

Disagree

Why?

The permits all needed reevaluating

Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.

Disagree

Why?

It does NOT seem to consider the best evidence - wish it would - for now and future generations

Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.

Disagree

Why?

It must do far more consultation and far clearer communication

Do you agree or disagree with each of the following principles for Industry?

Principle: Pursue continuous improvements in health and safety.

Strongly agree

Why?

Principle: Strive to implement industry best practice in operations.

Strongly agree

Why?

Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.

Strongly agree

Why?

It definitely MUST do these. And if negative impacts cannot be stopped or even minimised, then we must pull out.

Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.

Strongly agree

Why?

Yes, be part of the community and the future

Are there any other principles you would like us to consider in the strategy?

PRINCIPLE OF ASSESSMENT OF LONG TERM AND WIDE IMPLICATIONS
AND ACT ACCORDINGLY

Action areas intro

Action Area: Modernising the Crown Minerals Act

Agree

Why?

More research shows changes need to happen

What future actions would you like us to consider under this Action Area?

Wise research - internationally
