Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Agree

Why?

We should be world-leading but it would be fantastic if this meant totally limited use of non-sustainable, non-eco-friendly fuels

What is your vision for the minerals and petroleum sector in New Zealand?

As sustainable, environmentally friendly and people friendly as possible

How can New Zealand sustainably derive value from its petroleum and minerals resources?

Public transport, get people out of cars, put pressure on businesses and big companies to make changes to how they run

Objectives for the minerals and petroleum sector

Objective for a sector that: “Responsible delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy”.

Agree

Why?

Objective for a sector that: “Is productive and innovative”.

Strongly agree

Why?

If this is in terms of environmental gain and limiting resource use. That will require innovation, but will be less productive in terms of current output

Objective for a sector that: “Is effectively regulated”.

Strongly agree

Why?

If there aren't regulations, they are not followed. There needs to be strong motivation to follow the policy and action-able consequences for not doing so

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?

Guiding principles

Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.

Disagree

Why?

It needs to be more than respect - cared for and looked after.

Principle: Māori cultural interests are understood and respected.

Strongly agree

Why?

This is crucial to New Zealand and should be a given in absolutely everything we do.

Principle: Support the transition to a carbon neutral economy by 2050.

Agree

Why?

The sooner the better

Principle: The impact on people, communities and regions are managed in a just and inclusive way.

Strongly agree

Why?

Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.

Strongly agree

Why?

Number one, and most important is reduce - then reuse, then recycle

Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.

Agree

Why?

Do you agree or disagree with each of the following principles for the Crown?

Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.

Strongly agree

Why?

As above, it's a given in NZ

Principle: The Crown receives a fair financial return for its minerals and petroleum.

Agree

Why?

This should not be a motivator above people, planet and change

Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.

Agree

Why?

Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.

Neither agree nor disagree

Why?

That depends on what they are doing and if it aligns with climate, environment and people values

Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.

Agree

Why?

Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.

Strongly agree

Why?

Communication is ultra important

Do you agree or disagree with each of the following principles for Industry?

Principle: Pursue continuous improvements in health and safety.

Agree

Why?

Sometimes health and safety is considerably over the top

Principle: Strive to implement industry best practice in operations.

Strongly agree

Why?

Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.

Strongly agree

Why?

They won't have a role to play in society soon if everyone acts to a better future

Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.

Agree

Why?

Are there any other principles you would like us to consider in the strategy?

Action areas intro

Action Area: Modernising the Crown Minerals Act

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Securing affordable resources to meet our minerals and energy needs

Disagree

Why?

Reduce first, then see if what we need

What future actions would you like us to consider under this Action Area?

Action Area: Improving Treaty partnership

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving stakeholder and community engagement

Agree
