Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Strongly disagree

Why?

We can't afford to continue any fossil fuel usage, let alone encourage continued extraction and for it to be part of our future economy

What is your vision for the minerals and petroleum sector in New Zealand?

To phase it out

How can New Zealand sustainably derive value from its petroleum and minerals resources?

Possibly some mineral extraction if carbon neutral

Objectives for the minerals and petroleum sector

Objective for a sector that: "Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy".

Strongly disagree

Why?

Again we need a stronger faster move to a carbon negative economy

Objective for a sector that: "Is productive and innovative".

Strongly disagree

Why?

Climate crisis in the world should be put before profit

Objective for a sector that: “Is effectively regulated”.

Strongly agree

Why?

External, effective regulation is essential

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?

Do you agree or disagree with each of the following principles for the Crown?

Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.

Strongly agree

Why?

Our founding treaty document should be respected and adhered to

Strongly agree

Why?

IF extraction occurs, NZ should benefit and profits used to offset environmental impact

Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.

Strongly agree

Why?

Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.

Strongly disagree

Why?

These existing permits were agreed prior to 2018 when it wasn't as clear what little time is left to reduce carbon emissions. Permits need to be withdrawn.

Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.

Strongly agree

Why?

Best evidence is that the planet and our eco systems can't cope with further ongoing use of fossil fuels.

Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.

Strongly agree

Why?

This is only fair
