Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Disagree

Why?

World leading in what way?

What is your vision for the minerals and petroleum sector in New Zealand?

To have more carbon friendly options available. To work alongside eco and electric car manufacturers

How can New Zealand sustainably derive value from its petroleum and minerals resources?

No deep sea oil drills. Start looking into other cleaner options.

Objectives for the minerals and petroleum sector

Objective for a sector that: "Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy".

Strongly agree

Why?

I agree with statement B as that's where we are headed if we want a safe clean future.

Objective for a sector that: "Is productive and innovative".

Agree

Why?

Innovative suggests thoughts think outside the box

Objective for a sector that: "Is effectively regulated".

Strongly agree

Why?

There needs to be stringent regulations in order to help our environment

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?

To move towards a green approach

Guiding principles

Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.

Strongly agree

Why?

It is the most important thing to consider.

Principle: Māori cultural interests are understood and respected.

Neither agree nor disagree

Why?

Have no knowledge of whether this is true or not.

Principle: Support the transition to a carbon neutral economy by 2050.

Strongly agree

Why?

Yay!!!

Principle: The impact on people, communities and regions are managed in a just and inclusive way.

Strongly agree

Why?

People matter.

Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.

Strongly agree

Why?

This leads to a lesser carbon footprint.

Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.

Agree

Why?

As best as they can.

Do you agree or disagree with each of the following principles for the Crown?

Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.

Strongly agree

Why?

They were here first.

Principle: The Crown receives a fair financial return for its minerals and petroleum.

Strongly agree

Why?

In accordance with current market rates.

Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.

Strongly agree

Why?

Treat people the way you want to be treated.

Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.

Strongly disagree

Why?

No to deep sea oil drilling!!!

Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.

Neither agree nor disagree

Why?

As long as there is a clear and strong focus for less carbon emissions.

Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.

Strongly agree

Why?

Sounds great. Our opinions should matter.

Do you agree or disagree with each of the following principles for Industry?

Principle: Pursue continuous improvements in health and safety.

Neither agree nor disagree

Why?

Sometimes too much red tape to do tasks. More common sense required.

Principle: Strive to implement industry best practice in operations.

Agree

Why?

Best practice according to who?

Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.

Strongly agree

Why?

As long as negative impacts take into account harm to the environment.

Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.

Strongly agree

Why?

Change is good.

Are there any other principles you would like us to consider in the strategy?

How environmentally friendly the approach is.
