### Position title (if applicable):

Privacy of natural persons

### Is this an individual submission or on behalf of a group or organisation?

Privacy of natural persons

### Please indicate which group you most identify with or are involved in?

Privacy of natural persons

### Please specify the group that you most identify with

### Please indicate which type of group your submission represents.

### Please specify the group or organisation that your submission is on behalf of.

### Vision

### Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Strongly disagree

### Why?

The Economic and social benefits of mining and Oil/gas sector will be destroyed.

### What is your vision for the minerals and petroleum sector in New Zealand?

under these provisions we won't have an industry

### How can New Zealand sustainably derive value from its petroleum and minerals resources?

Revert to the mining act 1971.

### Objectives for the minerals and petroleum sector

### Objective for a sector that: "Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy".

Strongly disagree

### Why?

"If its not grown it must be mined". The industry cannot be carbon neutral except that it provides enormous capital and social capacity to make the changes in other areas.

### Objective for a sector that: "Is productive and innovative".

Strongly disagree

**Why?**

That is a lie. There will be no industry.

**Objective for a sector that: “Is effectively regulated”.**

Strongly disagree

**Why?**

the industry is over regulated now

**Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?**

Dump this strategy and define conservation land.

**Guiding principles**

**Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.**

Strongly agree

**Why?**

Mining under the RMA is now compatible with these objectives. No changes are required.

**Principle: Māori cultural interests are understood and respected.**

Strongly agree

**Why?**

Provided under current provisions

**Principle: Support the transition to a carbon neutral economy by 2050.**

Disagree

**Why?**

Without economic and social development there is no capacity for a carbon neutrality

**Principle: The impact on people, communities and regions are managed in a just and inclusive way.**

Strongly disagree

**Why?**

They are now.! Excessively so. only the anti miners are unsatisfied and they are liars or nimby's

**Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.**

Disagree

**Why?**

We don't need to eliminate mining by legislation to achieve this objective. Establish the capability first..

**Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.**

Strongly disagree

**Why?**

Our economic, social and political capital effects, will be counter productive.

**Do you agree or disagree with each of the following principles for the Crown?**

**Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.**

Strongly agree

**Why?**

Because we are not thieves.

**Principle: The Crown receives a fair financial return for its minerals and petroleum.**

Agree

**Why?**

For the benefit of all.

**Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.**

Strongly agree

**Why?**

Irrelevant if you eliminate the industry.

**Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.**

Strongly agree

**Why?**

Because we are not Thieves

**Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.**

Strongly agree

**Why?**

If only it was true. Clearly with this proposal it is not. There is no support or consideration for the growth of the industry.

**Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.**

Agree

**Why?**

Mining has and needs community support

**Do you agree or disagree with each of the following principles for Industry?**

**Principle: Pursue continuous improvements in health and safety.**

Disagree

**Why?**

Current provisions are adequate

**Principle: Strive to implement industry best practice in operations.**

Disagree

**Why?**

That is an economic decision for operators.

**Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.**

Neither agree nor disagree

**Why?**

Depends on the operation.

**Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.**

Disagree

**Why?**

It will become another bureaucratic cash cow at the expense of the industry.

**Are there any other principles you would like us to consider in the strategy?**

if we don't mine we will have to import. Conservation objectives can be financed and enhanced by mining small areas of conservation land. Define conservation land or is it all land administered by DOC.

**Action areas intro**

**Action Area: Modernising the Crown Minerals Act**

Strongly disagree

**Why?**

Because we need a mining industry

**What future actions would you like us to consider under this Action Area?**

Revert to the provisions of the mining act 1971. to encourage mining activity.

**Action Area: Securing affordable resources to meet our minerals and energy needs**

Strongly agree

**Why?**

We need the resources and the economic and social benefits.

**What future actions would you like us to consider under this Action Area?**

Resources are where they are not where you want them to be. Mining needs land access and government support.

**Action Area: Improving Treaty partnership**

Neither agree nor disagree

**Why?**

It is adequate under current provisions.

**What future actions would you like us to consider under this Action Area?**

none

**Action Area: Improving stakeholder and community engagement**

Disagree

**Why?**

currently adequate

**What future actions would you like us to consider under this Action Area?**

Reduce RMA process costs

**Action Area: Improving industry compliance**

Disagree

**Why?**

Currently excessive.

**What future actions would you like us to consider under this Action Area?**

none

**Action Area: Research and investment in better mining and resource use**

Disagree

**Why?**

Use international best practise.

**What future actions would you like us to consider under this Action Area?**

More funding for geological research

**Are there any other action areas you would like us to consider as part of advancing this Strategy?**

Minimise bureaucratic costs.

**Other**

**Are there any other comments you would like to make about the “Minerals and Petroleum Strategy for Aotearoa New Zealand: 2019-2029”?**

This strategy considers every outside interest and ignores industry requirements for growth and prosperity. It is a 'claytons' strategy designed to eliminate mining in NZ.

**If you wish to, attach a document to this submission.**

**Use and release of information**

**We intend to upload submissions to our website at [www.mbie.govt.nz](http://www.mbie.govt.nz). Can we include your submission on the website?**

Yes

**Can we include your name?**

Yes

**Can we include your email address?**

No

**Can we include your business name or organisation?**

No

**Can we include your position title?**

No

**Can we include the group you most identify with (if submitting as an individual)?**

No

**Can we include the group your submission represents (if submitting on behalf of a group or organisation)?**

**If there are any other parts to your submission that you do not want public on the website please note them below:**

**OIA publishing warning**

**If there is information in your submission that you wish to remain confidential, please note them below:**
