Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Agree

Why?

What is your vision for the minerals and petroleum sector in New Zealand?

How can New Zealand sustainably derive value from its petroleum and minerals resources?

Objectives for the minerals and petroleum sector

Objective for a sector that: “Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy”.

Agree

Why?

Objective for a sector that: “Is productive and innovative”.

Agree

Why?

Objective for a sector that: “Is effectively regulated”.

Strongly agree

Why?

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?

Guiding principles

Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.

Strongly agree

Why?

Principle: Māori cultural interests are understood and respected.

Neither agree nor disagree

Why?

Principle: Support the transition to a carbon neutral economy by 2050.

Strongly disagree

Why?

2050 is far too late for this to happen. Current research stresses we have ten years at most to be carbon neutral on a planetary basis.

Principle: The impact on people, communities and regions are managed in a just and inclusive way.

Agree

Why?

Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.

Agree

Why?

Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.

Neither agree nor disagree

Why?

Do you agree or disagree with each of the following principles for the Crown?

Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.

Neither agree nor disagree

Why?

Principle: The Crown receives a fair financial return for its minerals and petroleum.

Strongly disagree

Why?

Wanting a 'fair financial' return from this industry encourages lack of concern for the environment. You can't care for the environment properly if you are also looking for a financial return.

Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.

Neither agree nor disagree

Why?

Subjective

Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.

Strongly disagree

Why?

All exploration for oil must cease. Money needs to be put into seeking/developing alternative clean power. There is no planet B. Very short term gain equals very long term loss.

Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.

Strongly disagree

Why?

We have to let go of old dirty energy and develop efficient cost effective clean energy. Our planet and those on it have no need for petroleum in the future as it's use is killing us and our planet.

Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.

Strongly disagree

Why?

New Zealand has a unique position in the world and could stand up and lead the way to clean energy. Just as we did being anti-nuclear. The Crown needs to tell stakeholders that they can no longer extract fossil fuels and that they need to concentrate on developing clean energy for our future.

Do you agree or disagree with each of the following principles for Industry?

Principle: Pursue continuous improvements in health and safety.

Strongly agree

Why?

Principle: Strive to implement industry best practice in operations.

Strongly agree

Why?

Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.

Strongly agree

Why?

Because we are destroying our planet and therefore ourselves

Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.

Agree

Why?

Are there any other principles you would like us to consider in the strategy?

Action areas intro

Action Area: Modernising the Crown Minerals Act

Agree

Why?

What future actions would you like us to consider under this Action Area?

Shut down all fossil fuel extraction/development. Be a world leader in 'clean' energy!

Action Area: Securing affordable resources to meet our minerals and energy needs

Stiongly disagree

Why?

What future actions would you like us to consider under this Action Area?

We need to secure clean energy which like all things new will cost more in the short term but will save our lives and planet in the long term. There is no choice.

Action Area: Improving Treaty partnership

Neither agree nor disagree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving stakeholder and community engagement

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving industry compliance

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Research and investment in better mining and resource use

Neither agree nor disagree

Why?

What future actions would you like us to consider under this Action Area?

Shut down fossil fuels and put all research and development into developing new clean energy

Are there any other action areas you would like us to consider as part of advancing this Strategy?

Other

Are there any other comments you would like to make about the “Minerals and Petroleum Strategy for Aotearoa New Zealand: 2019-2029”?

If you wish to, attach a document to this submission.

Use and release of information

We intend to upload submissions to our website at www.mbie.govt.nz. Can we include your submission on the website?

Yes

Can we include your name?

Yes

Can we include your email address?

Yes

Can we include your business name or organisation?

No

Can we include your position title?

No

Can we include the group you most identify with (if submitting as an individual)?

Can we include the group your submission represents (if submitting on behalf of a group or organisation)?

If there are any other parts to your submission that you do not want public on the website please note them below:
