Business name or organisation (if applicable):

Position title (if applicable):

Is this an individual submission or on behalf of a group or organisation?

Individual

Please indicate which group you most identify with or are involved in?

General public

Please specify the group that you most identify with

Please indicate which type of group your submission represents

Please specify the group or organisation that your submission is on behalf of.

Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Strongly disagree

Why?

because if we dont leave fossil fuels in the ground the future of humanity is threatened by catastrophic global warming

What is your vision for the minerals and petroleum sector in New Zealand?

leave it in the ground

How can New Zealand sustainably derive value from its petroleum and minerals resources?

it cant, we need to look at alternative energy sources immediately

Objectives for the minerals and petroleum sector

Objective for a sector that: "Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy".

Strongly disagree

Why?

this mealy mouthed talk about "responsibly delivers value for New Zealand" ignores the reality of global warming

Objective for a sector that: "Is productive and innovative".

Strongly disagree

Why?

dont you understand fossil fuels are out, look for alternative energy

Objective for a sector that: “Is effectively regulated”.

Strongly disagree

Why?

effectively regulate fossil fuels out of existence

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?

yes hold them to account for the lies they have been telling us for years

Guiding principles

Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.

Strongly disagree

Why?

"respected " what does that mean

Principle: Māori cultural interests are understood and respected.

Strongly disagree

Why?

the interests of the people are the same whatever race. catastrophe respects no one

Principle: Support the transition to a carbon neutral economy by 2050.

Strongly disagree

Why?

too late people are dying now

Principle: The impact on people, communities and regions are managed in a just and inclusive way.

Why?

great talk but yeah right

Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.

Why?

its too late we need drastic action

Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.

Strongly disagree

Why?

the people who own oil also own the military industrial complex if we dont confront them now we are waisting our timedomnt

Do you agree or disagree with each of the following principles for the Crown?

Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.
Why?

yeah right ,you cant even give back their stolen land

Principle: The Crown receives a fair financial return for its minerals and petroleum.

Strongly disagree

Why?

leave them in the ground

Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.

Strongly agree

Why?

yeah right

Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.

Strongly disagree

Why?

fuck off, what part of no dont you understand

Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.

Strongly agree

Why?

yes the evidence says leave them in the ground

Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.

Strongly disagree

Why?

the crown should be holding to account the corporations that got us into this mess

Do you agree or disagree with each of the following principles for Industry?

Principle: Pursue continuous improvements in health and safety.

Strongly agree

Why?

wtf

Principle: Strive to implement industry best practice in operations.

Strongly agree

Why?

what industry solar energy?

Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.

Strongly disagree

Why?

no

Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.

Strongly disagree

Why?

hold them accountable for crimes against humaniy

Are there any other principles you would like us to consider in the strategy?

yes the principles of truth and justice as opposed to profit and lies

Action areas intro

Action Area: Modernising the Crown Minerals Act

Strongly agree

Why?

to stop climate gchange

What future actions would you like us to consider under this Action Area?

we must stop burning fossil fuels which entails confronting power,nothing short of revolution will do

Action Area: Securing affordable resources to meet our minerals and energy needs

Stiongly disagree

Why?

"affordable resources to meet our minerals and" remove and replace with "sustainable

What future actions would you like us to consider under this Action Area?

as above

Action Area: Improving Treaty partnership

Why?

?

What future actions would you like us to consider under this Action Area?

prepare to step down a hand power to the people

Action Area: Improving stakeholder and community engagement

Why?

prepare to step down a hand power to the people

What future actions would you like us to consider under this Action Area?

prepare to step down a hand power to the people

Action Area: Improving industry compliance

Strongly disagree

Why?

prepare to step down a hand power to the people

What future actions would you like us to consider under this Action Area?

prepare to step down a hand power to the people

Action Area: Research and investment in better mining and resource use

Strongly disagree

Why?

forget mining

What future actions would you like us to consider under this Action Area?

prepare to step down and hand power to the people

Are there any other action areas you would like us to consider as part of advancing this Strategy?

revolution

Other

Are there any other comments you would like to make about the “Minerals and Petroleum Strategy for Aotearoa New Zealand: 2019-2029”?

you must understand the urgency of global warming and realize that to stop it you have to confront power and that they will not roll over this is going to take a war like we have never seen before it is unlikely that humanity will survive and our chances are getting less with every day that goes by
