Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Agree

Why?

The answer is in " in an environmentally and socially responsible way." But I am a bit confused..... I didn't think that was possible, to burn fossil fuels without harming the planet. But good if it is.

What is your vision for the minerals and petroleum sector in New Zealand?

Don't have one, I leave that to the experts, in the Green party etc.

How can New Zealand sustainably derive value from its petroleum and minerals resources?

Don't see that it can

Objectives for the minerals and petroleum sector

Objective for a sector that: "Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy".

Strongly agree

Why?

We can't continue burning fossil fuels.

Objective for a sector that: "Is productive and innovative".

Strongly agree

Why?

I presume this is talking about the transition. Confusing questions so far...

Objective for a sector that: “Is effectively regulated”.

Strongly agree

Why?

Obviously. Wouldn't anyone agree to it being "Ineffectively regulated" ? Stupid question.

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?

Why?

Silly worded statements. Who would disagree to that.

Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.

Strongly agree

Why?

Obviously. (Who designed this?)

Do you agree or disagree with each of the following principles for the Crown?

Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.

Strongly agree

Why?

I give up. Again, who could disagree?

Principle: The Crown receives a fair financial return for its minerals and petroleum.

Strongly agree

Why?

Not answering anymore

Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.

Strongly agree

Why?

Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.

Other

Are there any other comments you would like to make about the “Minerals and Petroleum Strategy for Aotearoa New Zealand: 2019-2029”?

This questionnaire is childish. Who put this together, asking rhetorical questions virtually.... wouldn't be surprised if it turns out to be an embarrassment for the Green Party, sadly.
