Business name or organisation (if applicable):

Position title (if applicable):

Is this an individual submission or on behalf of a group or organisation?

Individual

Please indicate which group you most identify with or are involved in?

General public

Please specify the group that you most identify with

Please indicate which type of group your submission represents

Please specify the group or organisation that your submission is on behalf of.

Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Disagree

Why?

There is nothing valuable in the continued destruction of our planet for more consumption, since we have become so wasteful about what we have already, and our planet can no longer replenish itself at our pace of consumption.

What is your vision for the minerals and petroleum sector in New Zealand?

We need to recycle, conserve and become more efficient with what we already have mined and extracted. Oil, coal and gas needs to be done. Phase out all extraction and rape of our planet.

How can New Zealand sustainably derive value from its petroleum and minerals resources?

We can't sustain value from petroleum when all harm done - co2, pollution, healthcare costs, etc. are considered externalities. Create real costs for carbon, water pollution, air pollution, and value the benefits provided by a healthy planet for our children.

Objectives for the minerals and petroleum sector

Objective for a sector that: "Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy".

Disagree

Why?

There is no room for burning fossil fuels.

Objective for a sector that: "Is productive and innovative".

Disagree

Why?

Mining and extraction has been lagging in innovation because there are no true costs to their destruction. Externalities should be up front and net zero emissions should become gross zero.

Objective for a sector that: “Is effectively regulated”.

Disagree

Why?

There is not sufficient regulation on the industry.

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?

Renewable energy and efficiency, conservation, recycling is the future!!!

Guiding principles

Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.

Disagree

Why?

We are killing our waterways, losing our soils, extinguishing our species.....clearly.

Principle: Māori cultural interests are understood and respected.

Disagree

Why?

Principle: Support the transition to a carbon neutral economy by 2050.

Disagree

Why?

We need to move towards a zero carbon economy - not net zero.y

Principle: The impact on people, communities and regions are managed in a just and inclusive way.

Strongly disagree

Why?

Poor and minority communities suffer the worst.

Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.

Strongly agree

Why?

It makes sense for every reason - environmental and social justice, national security and sovereignty, climate change, etc.

Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.

Neither agree nor disagree

Why?

Do you agree or disagree with each of the following principles for the Crown?

Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.

Strongly agree

Why?

It should anyway. It needs to do a far better job of it.

Principle: The Crown receives a fair financial return for its minerals and petroleum.

Strongly disagree

Why?

We give away our resources to corporate benefit and profit.

Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.

Strongly disagree

Why?

See above.

Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.

Neither agree nor disagree

Why?

We need to immediately terminate existing oil gas and coal permits and leases.

Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.

Disagree

Why?

We are killing our planet and increasing the suffering of our people.

Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.

Disagree

Why?

Do you agree or disagree with each of the following principles for Industry?

Principle: Pursue continuous improvements in health and safety.

Neither agree nor disagree

Why?

Principle: Strive to implement industry best practice in operations.

Strongly disagree

Why?

Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.

Strongly disagree

Why?

Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.

Strongly disagree

Why?

Are there any other principles you would like us to consider in the strategy?

Action areas intro

Action Area: Modernising the Crown Minerals Act

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

We need to become the green NZ in our marketing in actuality.

Action Area: Securing affordable resources to meet our minerals and energy needs

Neither agree nor disagree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving Treaty partnership

Agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving stakeholder and community engagement

Agree

Why?

We in Otago do not want OMV offshore, yet here they come. Stop them.

What future actions would you like us to consider under this Action Area?

Action Area: Improving industry compliance

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Research and investment in better mining and resource use

Neither agree nor disagree

Why?

What future actions would you like us to consider under this Action Area?

Are there any other action areas you would like us to consider as part of advancing this Strategy?

Other

Are there any other comments you would like to make about the “Minerals and Petroleum Strategy for Aotearoa New Zealand: 2019-2029”?

If you wish to, attach a document to this submission.

Use and release of information

We intend to upload submissions to our website at www.mbie.govt.nz. Can we include your submission on the website?

Yes

Can we include your name?

Yes

Can we include your email address?

No

Can we include your business name or organisation?

Yes

Can we include your position title?

Yes

Can we include the group you most identify with (if submitting as an individual)?

Yes

Can we include the group your submission represents (if submitting on behalf of a group or organisation)?

If there are any other parts to your submission that you do not want public on the website please note them below:

OIA publishing warning
