Business name or organisation (if applicable):

Position title (if applicable):

Is this an individual submission or on behalf of a group or organisation?

Individual

Please indicate which group you most identify with or are involved in?

Environmental

Please specify the group that you most identify with

Please indicate which type of group your submission represents

Please specify the group or organisation that your submission is on behalf of.

Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Disagree

Why?

We need to drop Fossil fuels very quickly

What is your vision for the minerals and petroleum sector in New Zealand?

Replace fossil fuels and derivatives within 10 years. Switch to hydrogen/electric economy driven by green resources like hydro, wind and geothermal. by

How can New Zealand sustainably derive value from its petroleum and minerals resources?

I must not sell them over seas or use them in New Zealand

Objectives for the minerals and petroleum sector

Objective for a sector that: “Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy”.

Disagree

Why?

With so little time to curtail and reduce emissions we should not be digging up processing or onselling fossil fuels or derivatives of. There is no time to gently extract ourselves from these destructive practices. It will be painful and expensive but we must stop using fossil fuels now!

Objective for a sector that: “Is productive and innovative”.

Strongly disagree

Why?

While it may be an improvement in terms of business as usual, it is too harmful for the future of our civilization and the delicate biome that we live in. of

Objective for a sector that: “Is effectively regulated”.

Strongly disagree

Why?

It needs to be lead into its own demise by strong radical government. The oil companies need a firm guiding hand at this juncture and not left to selfregulate into continued existence.

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?

The delicate balance of our biome has been disrupted by human activity. Continued use of fossil fuels and their derivatives will one exasurbate an already dire situation. The IPCC sets out what we need to do as a race... we need strong leadership and to break the oil industry grip on modern life. Alternatives are the speedy implementation of a hydrogen and electric economy. This can be driven by green resources like hydro, wind and geothermal.

Guiding principles

Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.

Strongly disagree

Why?

They just aren't...

Principle: Māori cultural interests are understood and respected.

Disagree

Why?

Maori interests are not being respected.

Principle: Support the transition to a carbon neutral economy by 2050.

Neither agree nor disagree

Why?

This needs to be implemented by 2030, as per the IPCC report.

Principle: The impact on people, communities and regions are managed in a just and inclusive way.

Strongly disagree

Why?

Climate change is impacting our people, and will do more so in the future. These effects are not being managed in an inclusive way.

Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.

Disagree

Why?

I see no evidence of a circular economy. This is an oxymoron when mentioned in the same breath as the likes of OMV

Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.

Agree

Why?

Do you agree or disagree with each of the following principles for the Crown?

Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.

Neither agree nor disagree

Why?

Principle: The Crown receives a fair financial return for its minerals and petroleum.

Agree

Why?

Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.

Agree

Why?

Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.

Strongly agree

Why?

Though it should not to meet its obligations

Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.

Neither agree nor disagree

Why?

Green issue need to come to the fore in the near future

Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.

Agree

Why?

Do you agree or disagree with each of the following principles for Industry?

Principle: Pursue continuous improvements in health and safety.

Neither agree nor disagree

Why?

Principle: Strive to implement industry best practice in operations.

Neither agree nor disagree

Why?

Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.

Neither agree nor disagree

Why?

Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.

Neither agree nor disagree

Why?

Are there any other principles you would like us to consider in the strategy?

Action areas intro

Action Area: Modernising the Crown Minerals Act

Agree

Why?

What future actions would you like us to consider under this Action Area?

The greening of all mineral and petroleum policy

Action Area: Securing affordable resources to meet our minerals and energy needs

Neither agree nor disagree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving Treaty partnership

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving stakeholder and community engagement

Agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving industry compliance

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Research and investment in better mining and resource use

Why?

What future actions would you like us to consider under this Action Area?

Are there any other action areas you would like us to consider as part of advancing this Strategy?

Other

Are there any other comments you would like to make about the “Minerals and Petroleum Strategy for Aotearoa New Zealand: 2019-2029”?

If you wish to, attach a document to this submission.

Use and release of information

We intend to upload submissions to our website at www.mbie.govt.nz. Can we include your submission on the website?

Yes

Can we include your name?

Yes

Can we include your email address?

Yes

Can we include your business name or organisation?

Can we include your position title?

Can we include the group you most identify with (if submitting as an individual)?

Yes

Can we include the group your submission represents (if submitting on behalf of a group or organisation)?

If there are any other parts to your submission that you do not want public on the website please note them below:
