

Introduction

Name:

John Irving

Email:

JRIrving@xtra.co.nz

Business name or organisation (if applicable):

Position title (if applicable):

Consultant - World Bank/ADB

Is this an individual submission or on behalf of a group or organisation?

Individual

Please indicate which group you most identify with or are involved in?

Other group most identified with (individual submission)

Please specify the group that you most identify with

Power market

Please indicate which type of group your submission represents.

Please specify the group or organisation that your submission is on behalf of.

Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Agree

Why?

If you drop the "World Leading" aspiration and I would be strongly agree

What is your vision for the minerals and petroleum sector in New Zealand?

It shouldn't be burned inefficiently but instead used for making sustainable products that can be exported

How can New Zealand sustainably derive value from its petroleum and minerals resources?

By developing local industries like Methanex for exporting our resources

Objectives for the minerals and petroleum sector

Objective for a sector that: "Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy".

Strongly agree

Why?

Because I'm 76 and ashamed that my peers are stuck in the past

Objective for a sector that: "Is productive and innovative".

Strongly agree

Why?

Because new technologies are going to help us reduce emissions.

Objective for a sector that: "Is effectively regulated".

Disagree

Why?

Regulators are too easily captured by industry

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?

They need to reports on their activities to support Govt objectives

Guiding principles

Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.

Strongly agree

Why?

Because the alternative of exploiting resources does not believe in sustainability

Principle: Māori cultural interests are understood and respected.

Strongly agree

Why?

Because that's what we signed up to in the treaty

Principle: Support the transition to a carbon neutral economy by 2050.

Strongly agree

Why?

Moreover it should be enshrined into law

Principle: The impact on people, communities and regions are managed in a just and inclusive way.

Strongly agree

Why?

Because there is no such thing as a trickle down effect by resource exploiters to the community,

Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.

Strongly agree

Why?

Who wouldn't

Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.

Strongly agree

Why?

Because the NZ public needs to take control of its resources

Do you agree or disagree with each of the following principles for the Crown?

Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.

Strongly agree

Why?

Why not?

Principle: The Crown receives a fair financial return for its minerals and petroleum.

Strongly agree

Why?

Off shore investors have no interest in sustainability

Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.

Strongly agree

Why?

The rules have to be clear

Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.

Strongly agree

Why?

If we want new rules we have to respect the old rules - even though they were probably a result of corruption

Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.

Strongly agree

Why?

Otherwise why should the Crown be involved

Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.

Strongly agree

Why?

As above

Do you agree or disagree with each of the following principles for Industry?

Principle: Pursue continuous improvements in health and safety.

Agree

Why?

So long as so called "safety" jobs are real

Principle: Strive to implement industry best practice in operations.

Strongly agree

Why?

As above

Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.

Strongly agree

Why?

As above

Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.

Strongly agree

Why?

Why not

Are there any other principles you would like us to consider in the strategy?

Perahsp you should have put in some neagtive thoughts to verify that respondents are reading thsi long winded document

Action areas intro

Action Area: Modernising the Crown Minerals Act

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Securing affordable resources to meet our minerals and energy needs

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving Treaty partnership

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving stakeholder and community engagement

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving industry compliance

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Research and investment in better mining and resource use

Why?

What future actions would you like us to consider under this Action Area?

Are there any other action areas you would like us to consider as part of advancing this Strategy?

Other

Are there any other comments you would like to make about the “Minerals and Petroleum Strategy for Aotearoa New Zealand: 2019-2029”?

If you wish to, attach a document to this submission.

Use and release of information

We intend to upload submissions to our website at www.mbie.govt.nz. Can we include your submission on the website?

Yes

Can we include your name?

Yes

Can we include your email address?

Yes

Can we include your business name or organisation?

Yes

Can we include your position title?

Yes

Can we include the group you most identify with (if submitting as an individual)?

Yes

Can we include the group your submission represents (if submitting on behalf of a group or organisation)?

If there are any other parts to your submission that you do not want public on the website please note them below:

None
