Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Strongly agree

Why?

The world is significant as although NZ has a custodial role over its resources they are part of the world so we must be integrating NZ's policies with international policy.

What is your vision for the minerals and petroleum sector in New Zealand?

Firm management and oversight for sustainability, balancing ecology over business interests..

How can New Zealand sustainably derive value from its petroleum and minerals resources?

With reference to ongoing scientific research and social and environmental monitoring.

Objectives for the minerals and petroleum sector

Objective for a sector that: "Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy".

Strongly agree

Why?

We have till 2050 to get to our Zero carbon economy.

Objective for a sector that: "Is productive and innovative".

Agree

Why?

'Productive' needs clarification, in what ways? Not oil, coal, gas industries.
'Innovative' certainly.ve' certainly.

Objective for a sector that: “Is effectively regulated”.

Strongly agree

Why?

There are powerful business and financial entities that will make powerful cases in their own interests rather than wider national ecological and social interests.nal

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?

That National Parks and areas of special conservation significance are ringfenced for protection from petroleum and mineral exploitation.

Guiding principles

Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.

Strongly agree

Why?

They are essential to sustainability.

Principle: Māori cultural interests are understood and respected.

Strongly agree

Why?

Maori were early occupiers of New Zealand and developed an acute understanding of its natural aspects to which they continue to show wise respect and have valuable knowledge. to

Principle: Support the transition to a carbon neutral economy by 2050.

Strongly agree

Why?

We are committed and for survival.

Principle: The impact on people, communities and regions are managed in a just and inclusive way.

Strongly agree

Why?

Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.

Strongly agree

Why?

Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.

Strongly agree

Why?

Do you agree or disagree with each of the following principles for the Crown?

Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.

Strongly agree

Why?

Principle: The Crown receives a fair financial return for its minerals and petroleum.

Agree

Why?

Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.

Strongly agree

Why?

Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.

Neither agree nor disagree

Why?

I believe current permit holders should be given a clear cut-off date and an option to be reconsidered under new legislation and recent research finding and understandings. NO new coal, gas, oil permits. They don't make sense given our zero carbon by 2050!

Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.

Agree

Why?

Petroleum need must be reducing and I know little about our other potential for minerals.

Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.

Strongly agree

Why?

Do you agree or disagree with each of the following principles for Industry?

Principle: Pursue continuous improvements in health and safety.

Strongly agree

Why?

Principle: Strive to implement industry best practice in operations.

Strongly agree

Why?

Of course with Crown monitoring and regulation.

Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.

Agree

Why?

Again with efficient and effective Crown monitoring and transparency for the public, eg. I regard the use of fracking as completely out of bounds and refer to the experiences in Britain, Europe and US. useic

Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.

Strongly agree

Why?

Are there any other principles you would like us to consider in the strategy?

Action areas intro

Action Area: Modernising the Crown Minerals Act

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Securing affordable resources to meet our minerals and energy needs

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving Treaty partnership

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving stakeholder and community engagement

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving industry compliance

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Research and investment in better mining and resource use

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Are there any other action areas you would like us to consider as part of advancing this Strategy?

Other

Are there any other comments you would like to make about the “Minerals and Petroleum Strategy for Aotearoa New Zealand: 2019-2029”?

If you wish to, attach a document to this submission.

Use and release of information

We intend to upload submissions to our website at www.mbie.govt.nz. Can we include your submission on the website?

Yes

Can we include your name?

Yes

Can we include your email address?

No

Can we include your business name or organisation?

No

Can we include your position title?

No

Can we include the group you most identify with (if submitting as an individual)?

No

Can we include the group your submission represents (if submitting on behalf of a group or organisation)?

If there are any other parts to your submission that you do not want public on the website please note them below:
