### Vision

### Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Strongly disagree

### Why?

We need to rapidly phase out the extraction of fossil fuels in order to meet our targets under the Paris agreement and keep the planet habitable for our children and grandchildren. This needs to be the most important consideration when determining the vision of the petroleum sector

### What is your vision for the minerals and petroleum sector in New Zealand?

One where fossil fuels are no longer extracted, and all other minerals are extracted with minimal environmental and human health impact

### How can New Zealand sustainably derive value from its petroleum and minerals resources?

Immediate cancellation of all permits for fossil fuel extraction

### Objectives for the minerals and petroleum sector

### Objective for a sector that: “Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy”.
