Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Neither agree nor disagree

Why?

What is your vision for the minerals and petroleum sector in New Zealand?

Reduced impacts from minerals extraction and a wind-down of the petroleum industry and extraction to minimal levels necessary (i.e. for production of some plastics etc only).

How can New Zealand sustainably derive value from its petroleum and minerals resources?

It cannot, really, from petroleum. That's not sustainable, full stop.

Objectives for the minerals and petroleum sector

Objective for a sector that: "Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy".

Agree

Why?

Sounds great. But how can petroleum extraction ever support carbon neutrality?
Seems contradictory.

Objective for a sector that: "Is productive and innovative".

Neither agree nor disagree

Objective for a sector that: "Is effectively regulated".

Strongly agree

Without strong regulation, this is just spending money on useless talk.

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?
