It cant

Objectives for the minerals and petroleum sector

Objective for a sector that: "Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy".

Strongly disagree

Why?

Because we have not come up with ways of reducing carbon which is a biproduct of petroleum particularly in petrol and plastic products. Therefore it is not a sustainable industry

Agree

Why?

We need to think about the health of the planet in the long term and that should be our guiding principle

Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.

Strongly disagree

Why?

We need to stop producing and exploring for petroleum products now. So we should not honor current permit holders. We need to compensate for their loss
