Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Strongly disagree

Why?

More emphasis needed on environment..this is so wishy washy neoliberalism globalization nodding dog statement

What is your vision for the minerals and petroleum sector in New Zealand?

Protect the environment..we have an incredible environment destroyed by the right and left

How can New Zealand sustainably derive value from its petroleum and minerals resources?

say NO WAY to anything that damages fragile environment and habitats..think about the stock

Objectives for the minerals and petroleum sector

Objective for a sector that: "Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy".

Strongly disagree

Why?

This sector is destructive

Objective for a sector that: "Is productive and innovative".

Strongly disagree

Why?

destruction of environment and habitat is NOT productive to wildlife

Objective for a sector that: “Is effectively regulated”.

Strongly disagree

Why?

regulated by who?..this is a joke..

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?

no destruction of environment or habitat..remember the snails in Stockton?

Guiding principles

Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.

Strongly disagree

Why?

Stockton snails..remember them?

Principle: Māori cultural interests are understood and respected.

Strongly disagree

Why?

no supporting history of this. We can not trust you.

Principle: Support the transition to a carbon neutral economy by 2050.

Strongly agree

Why?

Its great as long as money dosent get in the way.

Principle: The impact on people, communities and regions are managed in a just and inclusive way.

Strongly disagree

Why?

No history of this. Seriously this Industry CAN NOT be trusted

Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.

Strongly agree

Why?

Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.

Strongly disagree

Why?

Cant trust this industry, very destructive in research and practice.

Do you agree or disagree with each of the following principles for the Crown?

Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.

Disagree

Why?

History is against this.

Principle: The Crown receives a fair financial return for its minerals and petroleum.

Strongly disagree

Why?

We do not charge enough royalties..Didnt Shonkey say 5% is fair? should be at least 50%.

Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.

Strongly disagree

Why?

No transparency in previous Government decisions.

Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.

Strongly disagree

Why?

A rip off agreement that is not fair or reasonable..renegotiate or expel them

Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.

Strongly disagree

Why?

Currently oil needs more than enough..we need green power generation not this crock of **Personal safety**

Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.

Strongly disagree

Why?

no one asked me about all the shonkey deals currently in place!

Do you agree or disagree with each of the following principles for Industry?

Principle: Pursue continuous improvements in health and safety.

Strongly agree

Why?

Need to lift their game

Principle: Strive to implement industry best practice in operations.

Strongly agree

Why?

Sadly no evidence of this in the past

Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.

Strongly disagree

Why?

No need for extraction operations..they can only have NEGATIVE impacts

Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.

Strongly disagree

Why?

Extraction equals negative impacts..stop them now

Are there any other principles you would like us to consider in the strategy?

Green renewable resources are the only way forward.Bin the rest
