Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Disagree

Why?

there is no future for petroleum

What is your vision for the minerals and petroleum sector in New Zealand?

fade out within the next 5 years

How can New Zealand sustainably derive value from its petroleum and minerals resources?

you can't. All fossil fuel should stop.

Objectives for the minerals and petroleum sector

Objective for a sector that: "Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy".

Disagree

Why?

petroleum sector should be stopped altogether.

Objective for a sector that: "Is productive and innovative".

Disagree

Why?

no production from this sector

Objective for a sector that: "Is effectively regulated".

Disagree

Why?

the sector should be stopped altogether

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?

close the sector down

Guiding principles

Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.

Strongly agree

Why?

environment, biodiversity are vital for our survival

Principle: Māori cultural interests are understood and respected.

Strongly agree

Why?

goes without saying

Principle: Support the transition to a carbon neutral economy by 2050.

Disagree

Why?

Only agree if date is brought down to 2030

Principle: The impact on people, communities and regions are managed in a just and inclusive way.

Agree

Why?

It's all about people.

Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.

Disagree

Why?

resource needs should not be the driving force

Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.

Disagree

Why?

petroleum sector should be stopped

Do you agree or disagree with each of the following principles for the Crown?

Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.

Strongly agree

Why?

see the treaty of waiting

Principle: The Crown receives a fair financial return for its minerals and petroleum.

Disagree

Why?

petroleum industry should be stopped

Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.

Agree

Why?

the opposite would be silly

Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.

Disagree

Why?

Take heed of the scientific warnings!!!!

Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.

Disagree

Why?

There is no petroleum need for future generations

Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.

Disagree

Why?

Do not bend to the stakeholders.

Do you agree or disagree with each of the following principles for Industry?

Principle: Pursue continuous improvements in health and safety.

Neither agree nor disagree

Why?

For whom?

Principle: Strive to implement industry best practice in operations.

Disagree

Why?

"Best practice" got us where we are now.....

Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.

Disagree

Why?

Stop extraction of fossil fuel

Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.

Disagree

Why?

Don't "manage" impacts, stop these "systems"!!!!

Are there any other principles you would like us to consider in the strategy?

Listen to the scientific evidence. You got, at most, 10 more years to turn 100% away from fossil fuels.....
