Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Strongly agree

Why?

This requires the phasing out of fossil fuel extraction and use.

What is your vision for the minerals and petroleum sector in New Zealand?

That it focus on sustainability and zero-carbon applications.

How can New Zealand sustainably derive value from its petroleum and minerals resources?

Phase out fossil fuel extraction and use and focus on sustainability and zero-carbon applications.

Objectives for the minerals and petroleum sector

Objective for a sector that: “Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy”.

Strongly agree

Why?

Objective for a sector that: “Is productive and innovative”.

Strongly agree

Why?

Objective for a sector that: “Is effectively regulated”.

Strongly agree

Why?

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?

need to differentiate between fossil fuels, which must be severely limited, and other minerals.

Guiding principles

Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.

Strongly agree

Why?

replace "respected" with "cherished, protected and enhanced"

Principle: Māori cultural interests are understood and respected.

Agree

Why?

Provided scientific knowledge takes precedence if/when conflict arises

Principle: Support the transition to a carbon neutral economy by 2050.

Strongly agree

Why?

Otherwise, climate chaos worsens and very bad things happen to our children and grandchildren, etc

Principle: The impact on people, communities and regions are managed in a just and inclusive way.

Strongly agree

Why?

Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.

Strongly agree

Why?

Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.

Strongly agree

Why?

Do you agree or disagree with each of the following principles for the Crown?

Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.

Strongly agree

Why?

Principle: The Crown receives a fair financial return for its minerals and petroleum.

Neither agree nor disagree

Why?

The zero-carbon strategy must take precedence over revenue opportunities

Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.

Strongly agree

Why?

Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.

Strongly disagree

Why?

need to curtail fossil fuel extraction, rather than permitting them to continue

Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.

Strongly agree

Why?

but the evidence is in that climate change will be catastrophic for all if fossil fuel extraction and use continues

Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.

Strongly agree

Why?

Do you agree or disagree with each of the following principles for Industry?

Principle: Pursue continuous improvements in health and safety.

Strongly agree

Why?

Pike River mine!!

Principle: Strive to implement industry best practice in operations.

Strongly agree

Why?

as above

Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.

Strongly agree

Why?

common sense

Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.

Strongly agree

Why?

as above

Are there any other principles you would like us to consider in the strategy?

Action areas intro

Action Area: Modernising the Crown Minerals Act

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Severely limit fossil fuel extraction and use

Action Area: Securing affordable resources to meet our minerals and energy needs

Disagree

Why?

resources must also be sustainable and not contribute to climate change

What future actions would you like us to consider under this Action Area?

Action Area: Improving Treaty partnership

Agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving stakeholder and community engagement

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving industry compliance

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Research and investment in better mining and resource use

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Are there any other action areas you would like us to consider as part of advancing this Strategy?

Other

Are there any other comments you would like to make about the “Minerals and Petroleum Strategy for Aotearoa New Zealand: 2019-2029”?

it's OK as far as it goes, but must recognise and conform to the goal of "Zero carbon by 2050". Resources necessary for this must be given priority. also need a timeframe to phase out fossil fuel extraction and use ASAP.
