

## Introduction

### Name:

warren lockie

### Email:

[warrenlockie@yahoo.com](mailto:warrenlockie@yahoo.com)

### Business name or organisation (if applicable):

Privacy of natural persons

### Position title (if applicable):

### Is this an individual submission or on behalf of a group or organisation?

Individual

### Please indicate which group you most identify with or are involved in?

General public

### Please specify the group that you most identify with

### Please indicate which type of group your submission represents.

### Please specify the group or organisation that your submission is on behalf of.

### Vision

### Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Agree

### Why?

Fossil fuels will needed during the transition to non fossil energy and should be environmentally and socially beneficial to all not just investors

### What is your vision for the minerals and petroleum sector in New Zealand?

Needs agreed shared vision with Kiwi values of a fair go, for people and our environment. Also acknowledgement of future children and generations right to the best possible environment.

### How can New Zealand sustainably derive value from its petroleum and minerals resources?

Consult with Maori and environmental agencies and groups, commit to recycling and research into alternative energy production.n

### Objectives for the minerals and petroleum sector

### Objective for a sector that: "Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy".

Strongly agree

### Why?

We have to work together and inclusively for social cohesion and justice.

### Objective for a sector that: "Is productive and innovative".

Agree

**Why?**

Job creation and effective use of resources environmentally positive.

**Objective for a sector that: “Is effectively regulated”.**

Strongly agree

**Why?**

Voluntary regulation has mixed results when money is king. Government oversight and regulation is need at this late stage of our climate crisis.

**Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?**

If extraction must continue for some time then extra royalties, tax, etc must be set aside for possible oil spill disaster and other clean up costs.

**Guiding principles**

**Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.**

Strongly agree

**Why?**

We dont survive if our habitat is destroyed

**Principle: Māori cultural interests are understood and respected.**

Strongly agree

**Why?**

The wholistic , nature respected , people respected aspects of Maori culture will be need to help resist pressure from investment driven growth at all costs.

**Principle: Support the transition to a carbon neutral economy by 2050.**

Strongly agree

**Why?**

Business as usual will contribute to rising temeratures, food crop failures

**Principle: The impact on people, communities and regions are managed in a just and inclusive way.**

Strongly agree

**Why?**

A divided and unjust society equals social upheaval and chaos

**Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.**

Strongly agree

**Why?**

Reusing,recycling will create jobs, new resources and more independence from overseas resources.

**Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.**

Strongly agree

**Why?**

Environment. Our habitat that we need for survival. Assistance to those needing physical and psychological support as things get worse under business as usual.

**Do you agree or disagree with each of the following principles for the Crown?**

**Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.**

Strongly agree

**Why?**

They are Tangata Whenua. They hold values deeper than exploitative out of control capitalism

**Principle: The Crown receives a fair financial return for its minerals and petroleum.**

Strongly agree

**Why?**

To ensure all NZers benefit from fair royalties.

**Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.**

Strongly agree

**Why?**

Transparency will help defeat "Fake News" and secret deals with the powerful and money only interests.

**Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.**

Strongly disagree

**Why?**

Permission to destroy our country and contribute to global warming and pollution can not be legal or moral.

**Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.**

Disagree

**Why?**

Not if a government puts money before our habitat.

**Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.**

Strongly agree

**Why?**

Co operation will give better results and competition .

**Do you agree or disagree with each of the following principles for Industry?**

**Principle: Pursue continuous improvements in health and safety.**

Strongly agree

**Why?**

Human and animal life must be protected from industrial activity.

**Principle: Strive to implement industry best practice in operations.**

Neither agree nor disagree

**Why?**

Dont know what best practice is. Might be to extract as much as possible with out environmental protection.

**Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.**

Agree

**Why?**

Going to need fossils as we transition away from them

**Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.**

Strongly agree

**Why?**

The responsibilities of industry to protect life and social cohesion.

**Are there any other principles you would like us to consider in the strategy?**

Prepare Deep Adaption strategies for the possibilities of short term environmental and social collapse.

**Action areas intro**

**Action Area: Modernising the Crown Minerals Act**

Strongly agree

**Why?**

Update in light of latest reserch and predictions

**What future actions would you like us to consider under this Action Area?**

Strategies on how we might Adapt if/as near term social and environmental collapse occurs.

**Action Area: Securing affordable resources to meet our minerals and energy needs**

Neither agree nor disagree

**Why?**

What is meant by affordable when the house is burning. A crisis needs urgent resources even at great cost.

**What future actions would you like us to consider under this Action Area?**

Look at how we might adapt to a very fractured and chaotic world. what values and structures and support will be in place to help adapt ( food security, refugees, financial collapse, medical, health, education etc?)

**Action Area: Improving Treaty partnership**

Strongly agree

**Why?**

Justice and support from Maori world view ( Mauri) Our connection with nature etc

**What future actions would you like us to consider under this Action Area?**

Research and education re Maori values and principles of relationships with nature and co operation between peoples.

**Action Area: Improving stakeholder and community engagement**

Strongly agree

**Why?**

We are all in this together.

**What future actions would you like us to consider under this Action Area?**

Discuss Deep Adaptation principles and pathways into our looming predicament

**Action Area: Improving industry compliance**

Strongly agree

**Why?**

The record is not good re voluntary regulation.

**What future actions would you like us to consider under this Action Area?**

Governmental legislation on important principles, policy and support, legal and social

**Action Area: Research and investment in better mining and resource use**

Agree

**Why?**

Minimise damage to the environment

**What future actions would you like us to consider under this Action Area?**

Govt funding for such research

**Are there any other action areas you would like us to consider as part of advancing this Strategy?**

Tell the truth re Global warming and the upheaval thats coming.

**Other**

**Are there any other comments you would like to make about the “Minerals and Petroleum Strategy for Aotearoa New Zealand: 2019-2029”?**

Acknowledge what a, " business as usual" will look like ( the increasingly likely near term collapse of habitat/ environment)and how we may talk about and prepare to Adapt Deeply to the new realities in a much warmer world.

**If you wish to, attach a document to this submission.**

**Use and release of information**

**We intend to upload submissions to our website at [www.mbie.govt.nz](http://www.mbie.govt.nz). Can we include your submission on the website?**

Yes

**Can we include your name?**

Yes

**Can we include your email address?**

Yes

**Can we include your business name or organisation?**

No

**Can we include your position title?**

No

**Can we include the group you most identify with (if submitting as an individual)?**

Yes

**Can we include the group your submission represents (if submitting on behalf of a group or organisation)?**

**If there are any other parts to your submission that you do not want public on the website please note them below:**

**OIA publishing warning**

**If there is information in your submission that you wish to remain confidential, please note them below:**
