Subject: Hydrogen green paper - submission

Submission on Hydrogen green paper received:

Introduction

Name

Ron Dykman

Email

ron@bespokenzltd.com

Business name or organisation (if applicable):

Klien Technologies

Position title (if applicable):

[REDACTED]

Is this an individual submission or on behalf of a group or organisation?

Individual

Please give the name of the group or organisation this submission is on behalf of.

What is the role of Government in developing hydrogen for storage and distribution?

Government is planning to use more electric kw by maybe 10 times to produce 1 kw hydrogen . The government has no right to be involved in mass wastage of gas or power for hydrogen production or distribution falsely sold as green energy.

What are the challenges for using hydrogen for storage and distribution?

Hydrogen is volatile and dangerous .The challenge to store and distribute is immense and brainless. Hydrogen can be generated and used at source immediately .storage and distribution is a joke .

What are the opportunities for using hydrogen for storage and distribution?

Cash for corporates and back handers to those who set it up.theft of the nations wealth

What is the role of Government in developing the complementary role of electricity and hydrogen?

The government has no role except as facilitators of a criminal scheme

What are the challenges for achieving this complementary role of electricity and hydrogen?

Government will redirect hydro power from efficient use to wastage .this is a scam worse than meridians windmills .the challenge is in conning nz ders into believing in this scam because fish can swim in the exhaust

What are the opportunities for this complementary role of electricity and hydrogen?

There is nothing complimentary in wasting electric energy by 10 times to make hydrogen

What is the role of Government in supporting hydrogen use for the transport sector?

Like always this will simply feed rich big trucking people more cash and make child poverty greater

What are the challenges when using hydrogen for mobility and transport?

The idea is absurd as planned these headings are absurd .the challenge is to split hydrogen out of water and use it straight away

What are the opportunities for using hydrogen for mobility and transport?

Compared to using power ,,none except cash grab and government collusion with the players
Hyundy

What is the role of Government in encouraging the use of hydrogen for industrial processes including process heat supply?

Its grossly inefficient,government has no role here

What are the challenges for using hydrogen in industrial processes?

Inefficiency ,high volatility,

What are the opportunities for the use of hydrogen in industrial processes?

None

What is the role of Government in encouraging hydrogen uptake for decarbonisation of our natural gas uses?

None its a scam that waste clean electricity and will cause massive price hikes on hydro power

What are the challenges for hydrogen to decarbonise the applications using natural gas?

None

What are the opportunities for hydrogen to decarbonise our gas demand?

JokeJoke

What is the role of Government in producing hydrogen in sufficient volume for export?

Bigger joke con man comment

What are the challenges for hydrogen if produced for export?

Joke

In addition, we welcome your feedback about the opportunities of hydrogen to Māori and how this will support their aspirations for social and economic development.

Joke of all jokes

What are the opportunities for hydrogen if produced for export?

Joking
