**Availability of Services – Please let us know if your comments relate to a specific service**

1. What is your view of the current availability of the relay service (i.e. are you able to access the relay service when you need it?)

We need a 24/7 Video Interpreting Service. This is essential for Deaf who live in rural communities that need access around the clock to communications.

2. If you have encountered problems, what are these and what impact have they had?

Peak times – having to wait for a VIS to become available.

3. What changes could be made to relay services to improve their availability, and why?

Extend the NZ VIS to be 24/7

**Accessibility – Please let us know if your comments relate to a specific service**

4. What additional measures or initiatives could be introduced to increase awareness of the relay service and its benefits to users of the service and the wider community?

The booking system on the NZVIS website is terrible.

Do you get many bookings from North Korea?

5. If you had the choice between accessing a relay service from a fixed device at home or from your mobile, laptop or tablet, which would you prefer and why?

We should not have to choose between devices.

6. What specific relay services would you like to see available on your mobile, laptop or tablet and why?

Set up a NZ VIS app

7. For those relay services that are available on your mobile, laptop or tablet already, are there any improvements that could be made that would make them easier to use and why?

Set up a NZ VIS app

8. Are there any other issues related to ease of access and use with the current relay service that we should consider?

Fix that website booking system asap.

**Affordability – Please let us know if your comments relate to a specific service**

9. Are the costs of connectivity a barrier to you accessing and using the relay service?

Yes – I can't use my pre-paid mobile calling minutes to make calls to mobiles using the NZ VIS

10. If so, what are the specific problems you have encountered and what impact has this had?

Calling Cards

11. What changes could be made to the relay service to improve its affordability and why?

Have Mobile companies to unlock our calling minute use.

**Fit for Purpose – Please let us know if your comments relate to a specific service**

12. Are there any particular features or changes that you think should be made to the relay service to ensure it continues to offer a good experience to users and why?

A 24/7 NZ VIS would be great.

13. Are there any relay services or equipment that you consider are no longer relevant and could be phased out or discontinued? If so, what measures or support would need to be provided to transition users to other services or mainstream devices?

I now use NZ VIS the most due to my difficulty typing. I find it easier to use NZSL.

14. Have you ever discontinued use of any of the relay services? If so which service or services, and why?

I discontinued other services as soon as NZ VIS was opened.

**Any Other Comments – Please let us know if your comments relate to a specific service**

15. What other comments do you have about New Zealand Telecommunications Relay Services?

24/7 NZ VIS is a must.

**Thank you for taking the time to complete this submission. Your feedback is appreciated.**
