Information in these instructions relating to anti-dumping duties which is considered to be confidential in terms of Sections 9(2)(b)(ii) and 9(2)(a)(i) of the Official Information Act has been marked **xxxx**.

### Introduction

---

1. The Minister of Commerce decided on 8 October 2007 to impose anti-dumping duties on imports of diaries from China and Malaysia, effective on 1 February 2008. The duty is payable on and from **1 February 2008**.

### Description

2. The goods subject to anti-dumping duty are:

*Diaries with or without covers excluding: diaries with steel ring binders; and wallplanners.*

3. A diary with a steel ring binder such as those sometimes called a day-planner (or organiser) is excluded from the description of the goods. The steel rings open and shut and so the contents can be replaced with a refill and the cover can be used for a number of years. The cover is usually made of a durable material and can be expensive. A day-planner is normally bought as one item with the cover and the contents. Refills sold to fill a day-planner are not excluded from the description.
4. In addition, products called "Visual diaries" which have no dates and are likely to contain blank drawing paper, are not included in the above description of the goods for the purposes of this instruction.
5. The goods are currently classified under Tariff Items and Statistical Keys 4820.10.00.02J, 4820.90.09.01G and 4820.90.09.29G of the Tariff of New Zealand, which classification is provided for convenience and Customs' purposes only, the written description being dispositive.
6. There is no size requirement for the goods that fall under the above description.

## Counties of Origin

7. The countries of origin of the subject goods are China and Malaysia.

9. The companies for which a separate rate of duty has been established may not be shown as the supplier of the goods in the import entry because the goods have been exported to New Zealand by an intermediate exporter. Intermediate exporters who are known to export diaries supplied by companies listed in the tables above are shown below. These intermediate exporters may also source from other suppliers. If the supplier of any of the intermediate exporters shown below cannot be identified the relevant residual rate of duty should apply.

Manufacturer/exporter for which a separate rate of duty has been established as above	Intermediate Exporter
<b>China</b>	
XXXXXXXXXXXXXXXXXXXX	XXXXXXXXXXXXXXXXXXXX
XXXXXXXXXXXXXXXXXXXX	XXXXXXXXXXXXXXXXXXXX
XXXXXXXXXXXXXXXXXXXX	XXXXXXXXXXXXXXXXXXXX
XXXXXXXXXXXXXXXXXXXX	XXXXXXXXXXXXXXXXXXXX
XXXXXXXXXXXXXXXXXXXX	XXXXXXXXXXXXXXXXXXXX
<b>Malaysia</b>

**Example**

10. Assume that the export invoice relates to a quantity of diaries supplied by Dragon Boat Ltd (the goods originate in China), at a total FOB price of USD20,000. The exchange rate that applies on the date of import is 0.75, therefore the value for duty (VFD) is NZD26,666.66.
11. To calculate the anti-dumping duty payable on this shipment, apply the rate of 59 percent to NZD26,666.66, which equals duty to be paid of NZD15,733.33. The anti-dumping duty applying to Malaysian exporters is calculated in the same way.
12. Customs tariffs shall be calculated and applied as usual.
