INCIDENT REPORTS AND KEY MESSAGES

This section reports on any incidents in the last 24 hours that present a potential or actual risk to public health and any key messages about MIQ.

28 JUL 2021 – No incidents to report.

Please note: Forecasting data does not include travellers from New South Wales who will be required to go into MIQ.

As part of managing the changing risk profile of MIQ following the implementation of quarantine-free travel with Australia, an additional 500 rooms per fortnight (on top of MIQ's usual operating contingency) are being held back. This means a reduction in operational capacity to 4,000 rooms per fortnight.

* The Mias Rooms Allocated (Orange line) reflects vouchers currently issued to people, including those travelling from very high risk countries who have not cancelled their vouchers. All vouchers for travellers coming from Australia have now been cancelled.

Offline Rooms represents the number of rooms that are temporarily offline. Currently, some rooms are offline due to scheduled planned maintenance at the Waipuna Auckland and Naumi Auckland. Vouchers set aside for Emergency Allocation and currently allocated vouchers are not impacted by these decisions.
