

PERMITTING DECISION SUMMARY

TRSI 2 & TRSI 3

ACME AtronOmatic LCC

1. ACME AtronOmatic LLC (ACME) is a company based in the United States that conducts business under the name 'MyRadar'. MyRadar is a smartphone app that provides users with animated live weather images and near-real-time weather updates.
2. TRSI 2 & TRSI 3 are identical technology demonstration payloads. They both measure 64mm x 50mm x 50mm and weigh 0.25kg.
3. The purpose of the TRSI payloads is to test low-resolution cameras developed by ACME.
4. Payloads are permitted in line with the [Outer Space and High-altitude Activities Act 2017](#) and the [Outer Space and High-altitude Activities \(Licences and Permits\) Regulations 2017](#).
5. Each payload has been approved by the Minister for Economic Development, on advice from officials across agencies. When approving payloads, the Minister needs to be satisfied that:
 - a. The applicant has taken and will continue to take all reasonable steps to safely manage the operation of the payload;
 - b. The proposed operation of the payload is consistent with New Zealand's international obligations; and
 - c. The applicant has an orbital debris mitigation plan that meets prescribed requirements.
 - d. Despite being satisfied of these matters, the Minister may nevertheless decline a permit if he is not satisfied that the proposed operation of the payload is in New Zealand's national interest.
