Q1

Name

Respondent skipped this question

Q2

Email address

Respondent skipped this question

Q3

Can MBIE publish your name and contact information with your submission?Confidentiality notice: Responding "no" to this question does not guarantee that we will not release the name and contact information your provided, if any, as we may be required to do so by law. It does mean that we will contact you if we are considering releasing submitter contact information that you have asked that we keep in confidence, and we will take your request for confidentiality into account when making a decision on whether to release it.

Respondent skipped this question

Q4

Can MBIE contact you in relation to your submission?

No

Page 3: Section 2: Submitter information

Q5

Are you submitting as an individual or on behalf of an organisation?

Individual

Page 4: Section 2: Submitter information - individual

Q6

Are you a researcher or scientist?

No

Privacy - 9(2)(a)

Q8

Gender

Would prefer not to say

Privacy - 9(2)(a)

2 / 6

Privacy - 9(2)(a)

Page 5: Section 2: Submitter information - individual

Q11

What is your iwi affiliation?

Respondent skipped this question

Page 6: Section 2: Submitter information - individual

Q12

If you wish, please specify to which Pacific ethnicity you identify

Respondent skipped this question

Page 7: Section 2: Submitter information - individual

Q13

What type of organisation do you work for?

Other (please specify):
Private sector

Q14

Is it a Māori-led organisation?

No

Q15

Which disciplines are most relevant to your work?

Information and computing sciences

Q16

What best describes the use of Mātauranga Māori (Māori knowledge) in your work?

It does not contain Mātauranga Māori

Page 8: Section 2: Submitter information - organisation

Q17

Organisation name

Respondent skipped this question

Q18

Organisation type

Respondent skipped this question

Q19

Is it a Māori-led organisation?

Respondent skipped this question

Q20

Where is the headquarters of the organisation?

Respondent skipped this question

Q21

What best describes the use of Mātauranga Māori (Māori knowledge) in your organisation?

Respondent skipped this question

Page 9: Section 3: Research Priorities

Q22

Priorities design: What principles could be used to determine the scope and focus of research Priorities? (See page 27 of the Green Paper for additional information related to this question)

Respondent skipped this question

Q23

Priority-setting process: What principles should guide a national research Priority-setting process, and how can the process best give effect to Te Tiriti?(See pages 28-29 of the Green Paper for additional information related to this question)

The general public was not even consulted on any of this. Maori & Pacifica are already prioritised for study funding. New Zealand needs to focus on making housing affordable and growing jobs. The merging of Maori culture into science is wrong.

Q24

Operationalising Priorities: How should the strategy for each national research Priority be set and how do we operationalise them?(See pages 30-33 of the Green Paper for additional information related to this question)

This should not change.
Upping the priority of Maori research above existing medical etc is wrong. It is out of step with the rest of the world. And you will probably have no accountability for anything coming out of this area, unlike the other disciplines.

Page 10: Section 4: Te Tiriti, mātauranga Māori, and Māori aspirations

Q25

Engagement: How should we engage with Māori and Treaty Partners?(See page 38 of the Green Paper for additional information related to this question)

You should think about your current Taxpayer base, many of whom are migrants with no connection to the originators of the Treaty. They are not parties to this open ended guilt extortion process.

Q26

Mātauranga Māori: What are your thoughts on how to enable and protect mātauranga Māori in the research system? (See pages 38-39 of the Green Paper for additional information related to this question)

Put it as a separate subject, to take form separately, as other disciplines have evolved over time.

Q27

Regionally based Māori knowledge hubs: What are your thoughts on regionally based Māori knowledge hubs?(See page 39 of the Green Paper for additional information related to this question)

New Zealand is not a wealthy country. Right now we are in flux. Where will the money come from to do all these things? If the ideas are so valid, then they should be self funding and self sustainable. Come on.

Page 11: Section 5: Funding

Q28

Core Functions: How should we decide what constitutes a core function, and how do we fund them?(See pages 44-46 of the Green Paper for additional information related to this question)

It should be self funding.
It doesn't deserve special entitlements. Especially not at this time.

Q29   **No**

Establishing a base grant and base grant design: Do you think a base grant funding model will improve stability and resilience for research organisations?(See pages 46-49 of the Green Paper for additional information related to this question)

Q30

Establishing a base grant and base grant design: How should we go about designing and implementing such a funding model?(See pages 46-49 of the Green Paper for additional information related to this question)

Self funding.

Page 12: Section 6: Institutions

Q31

Institution design: How do we design collaborative, adaptive and agile research institutions that will serve current and future needs?(See pages 57-58 of the Green Paper for additional information related to this question)

You should be consulting the general public fully on all of this. The general public aren't even aware of this subterfuge.

Q32

Role of institutions in workforce development: How can institutions be designed to better support capability, skill and workforce development?(See page 58 of the Green Paper for additional information related to this question)

Self funded initiatives.

Q33

Better coordinated property and capital investment: How should we make decisions on large property and capital investments under a more coordinated approach?(See pages 58-59 of the Green Paper for additional information related to this question)

Self funded initiatives.

Q34

Institution design and Te Tiriti: How do we design Tiriti-enabled institutions? (See page 59 of the Green Paper for additional information related to this question)

How indeed. Not even relevant to the majority, but hey, let's reinvent the wheel.
New Zealand is not a wealthy country and you are promoting separatism through all of this. And the public are waking up to this.

Q35

Knowledge exchange: How do we better support knowledge exchange and impact generation? What should be the role of research institutions in transferring knowledge into operational environments and technologies?(See pages 60-63 of the Green Paper for additional information related to this question)

If you redesign your institutions too much, you will probably discourage overseas students from coming. Relevance.

Page 13: Section 7: Research workforce

Q36

Workforce and research Priorities: How should we include workforce considerations in the design of national research Priorities?(See pages 69-70 of the Green Paper for additional information related to this question)

Leave them out. They aren't there for that.

Q37

Base grant and workforce: What impact would a base grant have on the research workforce?(See pages 70-71 of the Green Paper for additional information related to this question)

Self funding initiatives.

Q38

Better designed funding mechanisms: How do we design new funding mechanisms that strongly focus on workforce outcomes? (See page 72 of the Green Paper for additional information related to this question)

Self funded initiatives.
Think of the next generation's needs, with the limited money New Zealand has. Infrastructure education. Come on.

Page 14: Section 8: Research infrastructure

Q39

Funding research infrastructure: How do we support sustainable, efficient and enabling investment in research infrastructure?(See pages 77-78 of the Green Paper for additional information related to this question)

Self funded initiatives.
