Page 4: Proposed Definition for energy wellbeing

Q7 **Strongly disagree**

To what extent do you agree or disagree that the proposed definition for energy wellbeing is right for Aotearoa?

Q8

Do you have comments on why have you chosen this answer?

Energy hardship/wellbeing need to include transport energy as private vehicles become increasingly electrified for higher income families, while low income families will be paying higher fuel costs as carbon price rises. The overlap of home and transport energy is already happening for some and the definition and resulting policies and interventions need to consider this!

Q9

Strongly disagree

To what extent do you agree or disagree with the inclusions in the proposed definition?

Q10

Do you have any comments on what is included in the definition?

As above, needs to include transport energy.

Q11

Strongly disagree

To what extent do you agree or disagree with what is excluded by the definition?

Q12

Do you have any comments on what is excluded by the definition?

As above, needs to include transport energy.

Q13

Respondent skipped this question

Do you have any further comments on the proposed definition of energy wellbeing? - Is it clear and easy to understand?- Do you think there is anything missing?- Is it relevant to you and your community?

Page 5: Proposed framework for energy wellbeing

Q14

Agree

To what extent do you agree or disagree that the framework represents the factors that influence energy wellbeing in Aotearoa?

Q15

Do you have comments on why have you chosen this answer?

Framework is okay, but may need expansion to include transport energy factors

Q16

Respondent skipped this question

Do you have any other comments on the proposed framework? You may want to consider: - The layout of the framework, and if it is easy to understand - If anything is missing, or should be added- Which factors you think are most significant in your community

Q17

Agree

To what extent do you agree or disagree with the proposed indicators for energy wellbeing?

Q18

Respondent skipped this question

Do you have comments on why have you chosen this answer? You may want to consider: - Are the indicators comprehensive?- Are there any other indicators of energy wellbeing that should be considered?

Page 7: Measuring energy hardship

Q19

Yes

We are proposing to use a set of primary and secondary measures for energy hardship. Do you support this proposal?

Q20

Respondent skipped this question

Do you have comments on why you have chosen this answer?

Q21

Neither agree nor disagree

To what extent do you agree or disagree with the proposed primary measures?

Q22

Agree

To what extent do you agree or disagree with the potential secondary measures?

Q23

Respondent skipped this question

Do you have any comments on the proposed primary and secondary measures? You may want to consider: - How many primary and secondary measures you think we should consider- Which measures you think should be primary or secondary (and why)

Q24

Respondent skipped this question

Do you have any comments on measuring the depth of hardship? You may want to consider: - If we should use these measurements in Aotearoa, in addition to the primary and secondary measures- Combining measures (i.e. a DEP-17 style approach) - Measuring the energy hardship gap
