Q1 **Yes**

Have you read and understood the Privacy Statement?

Page 3: About you

Q2

What is your name?

Fiona Edwards

Q3

What is your email address? We may need to contact you for clarification on your submission, or regarding Official Information Act requests. Your email address will not be used for any other purpose.

Privacy of natural persons

Q4 **Organisation**

Are you submitting as an individual or on behalf of an organisation?

Q5

If on behalf of an organisation, what is its name?

OurPower

Q6 **Energy retailer**

If on behalf of an organisation, which of these best describes it?

Page 4: Proposed Definition for energy wellbeing

Q7

Disagree

To what extent do you agree or disagree that the proposed definition for energy wellbeing is right for Aotearoa?

Q8

Respondent skipped this question

Do you have comments on why have you chosen this answer?

Q9

Disagree

To what extent do you agree or disagree with the inclusions in the proposed definition?

Q10

Do you have any comments on what is included in the definition?

2 points. How is the word 'adequate' being defined? We spoke about this at great length as to what defines an adequate energy source.

Point 2. People's living situations as you have mentioned do not necessarily fit nicely into 4 walls. The definition absolutely needs to include all living environments, as how can we say this is for all of Aotearoa, if these people aren't included.

Q11

Disagree

To what extent do you agree or disagree with what is excluded by the definition?

Q12

Do you have any comments on what is excluded by the definition?

Homeless people have access to Night shelters and interim homes. These need to be included.

Q13

Do you have any further comments on the proposed definition of energy wellbeing? - Is it clear and easy to understand?- Do you think there is anything missing?- Is it relevant to you and your community?

Some of the wording such as 'adequate' need to be addressed. what does 'adequate' mean to the average Kiwi?

Page 5: Proposed framework for energy wellbeing

Q14

Disagree

To what extent do you agree or disagree that the framework represents the factors that influence energy wellbeing in Aotearoa?

Q15

Do you have comments on why have you chosen this answer?

The parts of the diagram is worthy of being discussed, however, they are by no means of equal proportions. that is for example if the price of energy is high it takes precedence over all else. On the flip side if pricing of energy is lower it gives people the ability to be able to make their homes healthier, with the use of superior appliances, ability to purchases better curtains etc

Q16

Do you have any other comments on the proposed framework?You may want to consider:- The layout of the framework, and if it is easy to understand - If anything is missing, or should be added- Which factors you think are most significant in your community

The most significant factor in all of these for our community is the price of the energy they are purchasing

Page 6: Proposed indicators for energy wellbeing

Q17

Agree

To what extent do you agree or disagree with the proposed indicators for energy wellbeing?

Q18

Respondent skipped this question

Do you have comments on why have you chosen this answer?You may want to consider: - Are the indicators comprehensive?- Are there any other indicators of energy wellbeing that should be considered?

Page 7: Measuring energy hardship

Q19

Yes

We are proposing to use a set of primary and secondary measures for energy hardship. Do you support this proposal?

Q20

Respondent skipped this question

Do you have comments on why you have chosen this answer?

Q21

Agree

To what extent do you agree or disagree with the proposed primary measures?

Q22

Agree

To what extent do you agree or disagree with the potential secondary measures?

Q23

Respondent skipped this question

Do you have any comments on the proposed primary and secondary measures? You may want to consider:- How many primary and secondary measures you think we should consider- Which measures you think should be primary or secondary (and why)

Q24

Respondent skipped this question

Do you have any comments on measuring the depth of hardship? You may want to consider: - If we should use these measurements in Aotearoa, in addition to the primary and secondary measures- Combining measures (i.e. a DEP-17 style approach) - Measuring the energy hardship gap

Page 8: Data gaps and proposed way forward

Q25

Rank the following proposals in order of most important (1) to least important (4).

Further analyse any currently available data	4
Work to fill existing data gaps/limitations	2
Model required energy use for households in Aotearoa	1
Research energy hardship-related indicators	3

Q26

Respondent skipped this question

Do you have any suggestions for alternatives or changes to the proposed way forward? You may want to consider:- Are there gaps in the measurement we haven't identified?- Are there data sets or measures you know of that should be included?- Do you have any other suggestions for future analysis?

Page 9: Final thoughts

Q27

Respondent skipped this question

Do you have anything else you would like to mention?

Q28

Yes

Can we publish your submission on the MBIE website? If your submission contains personally identifiable information that should not be made public, please make clear what can and cannot be made public. For example, information about other people that you are sharing without their consent or information about children. Your name, and that of your organisation will be visible. Email addresses will not be visible.
