Hello sir

My name is s 9(2)

I am a manager in one of the Indian restaurant. I live in new Zealand since last 7 year.i have my family which includes wife and 1 and haft year old son.my son has born here. I am on work visa. I love new zealand and want to settle in new Zealand. Sir I don't know why immigration is playing with our future. After spending such a long time in new Zealand. I can't even go back and start my new life in any other country. Can't even in my home country. Immigration has already tighten the rules in terms of IELTS. Working full time. I don't even have time to study for to clear IELTS. After spending long time in new Zealand. Now immigration asking me provide certificate which tell you that yes I can speak,write and listen English. I have worked in new Zealand since I come and obvious I am speaking English. Government should know that as u have been in new Zealand I would be speaking English then why to ask people like me who have spend their life'svaluable time.sir u have no time to study. It is hard for people like me to go back home after their job and study. We have family. We have to give time to family. We can't just go home and start studying. It seems that IELTS exam provider are earning money from us. Sir it's my humble request among all the migrants please don't play with our future. Rules can be for new students not for who are in new Zealand since long time. I guess they should be given opportunity to get settled in new Zealand. Pease consider my request. We will be very great full to you.

Regards

s 9(2)(g)(i)
