CodeMark mark of conformity transition period

The *Building (Building Products and Methods, Modular Components, and Other Matters) Amendment Act 2021* (the Amendment Act) introduced a new certification scheme for modular component manufacturers (BuiltReady) and also made changes to strengthen the existing CodeMark product certification scheme.

The introduction of BuiltReady along with the revision of the CodeMark scheme, provided an opportunity to review and propose a new brand visual identity for CodeMark. As CodeMark has scheme rules which specify requirements on how the CodeMark brand – the mark of conformity - must be used on certified products, MBIE is proposing a transition period to allow product certification bodies, certificate holders, manufacturers, and suppliers sufficient time to change over to the new CodeMark brand.

The purpose of this consultation is to seek feedback from affected parties on whether the proposed transition is a suitable timeframe to implement the new mark of conformity.

Questions for the consultation

1-1. Do you agree that the proposed transition period is sufficient time for scheme participants to implement the new CodeMark mark of conformity requirements for any product produced and packaged after 1 Sept 2024?

1-2. Do you consider 1 September 2025 a reasonable deadline for certificate holders to have changed all product packaging over to the new mark of conformity including all existing product at the various points of supply chain?

General questions

- 1-3. If you have any other feedback regarding where the mark of conformity is currently being used, and what the impact of the new mark of conformity is for each of those uses, please add to the free text box below:
