NO

Any information redacted in this document is redacted in accordance with MBIE's policy on Proactive Release and is labelled with the reason for redaction. This may include information that would be redacted if this information was requested under Official Information Act 1982. Where this is the case, the reasons for withholding information are listed below. Where information has been withheld, no public interest has been identified that would outweigh the reasons for withholding it.

Cabinet Economic Development Committee

Minute of Decision

This document contains information for the New Zealand Cabinet. It must be treated in confidence and handled in accordance with any security classification, or other endorsement. The information can only be released, including under the Official Information Act 1982, by persons with the appropriate authority.

Lifting Connectivity in Aotearoa: Public Release

Portfolio **Digital Economy and Communications**

On 28 September 2022, the Cabinet Economic Development Committee:

- 1 **noted** that:
 - 1.1 despite considerable investment in digital connectivity infrastructure and progress to date, there remain connectivity challenges in rural and peri-urban parts of New Zealand;
 - 1.2 there is an ongoing role for government to ensure that New Zealand's connectivity infrastructure meets the government's needs and aspirations;
- 2 **noted** that the *Lifting Connectivity in Aotearoa* publication (the publication), attached as Appendix 1 to the paper under DEV-22-SUB-0231, is intended to set out the government's long-term vision for connectivity in New Zealand by building on the successful foundations of government connectivity programmes and setting out a Statement of Intent for 2022 to 2032;
- 3 **noted** that the design of the publication is still being finalised, but that the design sample attached as Appendix 2 to the paper under DEV-22-SUB-0231, is indicative of the intended style and the design will complement the design of the *Digital Strategy for Aotearoa* publication;
- 4 **agreed** to the release of the publication, subject to paragraphs 5 and 6 below;
- 5 **authorised** the Minister for the Digital Economy and Communications to make any final edits to the publication necessary to improve the readability or accuracy, and to incorporate any further amendments that may be authorised by Cabinet;
- 6 **authorised** the Minister for the Digital Economy and Communications to approve the final design of the publication, in keeping with the style as described in paragraph 3 above;
- 7 **noted** that the publication will be launched by the end of 2022 at a public-facing event;

- 8 **noted** that as part of the work on considering the government's ongoing role in connectivity, officials are looking into opportunities to extend high quality broadband to more New Zealanders in the future, particularly in rural and peri-urban areas.

Janine Harvey
Committee Secretary
