Page 3: Submitter Information

Q2**No**

Are you making this submission on behalf of a business or organisation?

Page 4: New Zealand's interests in space

Q7**General interest in space,**

What are your interests and relationship to space? Pick as many as apply below:

Other (please specify):
 HOw it effects the area I live in

Q8

Please note any other interests and relationship to space below that you would like to share.

none

Page 5: New Zealand's values in space

Q9

To what extent do you agree or disagree that these values should apply to New Zealand's space activities and engagements?

Innovation	Strongly agree
Responsibility	Strongly agree
Stewardship	Strongly agree
Partnership	Strongly agree

Q10

Are there any other values, or aspects of kaitiakitanga (guardianship), that you think should apply to New Zealand's space activities and engagements? For example, cultural values regarding space.

INFRASTRUCTURE! Public infrastructure is being used by Rocketlabs with no consequences to them financially for the upkeep of the infrastructure. There is NO benefit to the local community that host Rocketlab.

Page 6: New Zealand's space policy objectives

Q11

Rank these key policy objectives in order of importance to you: Click and drag to reorder the objectives from 1 (most important) to 5 (least important)

- | | |
|-----------------------------------------------------------------------|---|
| Modelling sustainable space and Earth environments | 1 |
| Promoting the responsible uses of space internationally | 3 |
| Protecting and advancing our national security and economic interests | 2 |
| Regulating to ensure space activities are safe and secure | 4 |
-

Page 7: Growing an innovative and inclusive space sector

Q12

To what extent do you agree or disagree that these policy objectives will help the New Zealand government to grow an innovative and inclusive space sector?

- | | |
|------------------------------------------------------------------------------------------------------------------------------------------------|-------|
| Promoting New Zealand's natural advantage for conducting space activities, and research and development expertise across the space value chain | Agree |
| Partnering within New Zealand and internationally to increase research and development capabilities | Agree |
| Identifying opportunities to increase diversity in the space sector | Agree |
| Using cutting-edge space technology and space sourced data to support New Zealand's values and interests | Agree |
-

Q13

Do you have any comments on these policy objectives? (e.g. any suggested change to how they are framed? Is there anything missing?)

use cutting edge space technology to fix the one road in and the same road out of Mahia; the launch pads have been built with double trailer trucks hauling unreal weights over our fragile roads for years on an hourly basis and our roads are crumbling

Q14

Are there any other policy objectives that you think would help the New Zealand government to grow an innovative and inclusive space sector?

some local employment would be nice; we have been told at meetings to be in touch with Rocketlabs HR, emails are forwarded to the USA by the Rocketlab server and nothing is ever heard

Q15

Do you have any questions or comments about what these objectives would mean in practice?

provide wifi for the community on the peninsula

Page 8: Promoting the responsible uses of space internationally

Q16

To what extent do you agree or disagree that these policy objectives will help the New Zealand government to promote the responsible uses of space internationally?

Advocating for effective international rules, norms and standards in space **Agree**

Partnering with like-minded launch states to adopt peaceful, responsible and sustainable space practices **Agree**

Collaborating internationally to increase New Zealand's influence and capabilities in the global space sector **Agree**

Q17

Do you have any comments on these policy objectives (e.g. any suggested change to how they are framed? Is there anything missing?)

yes, partner with the community on infrastructure maintenance. Everything else (all of your questions) are meaningless if there are no viable roads.

Q18

Are there any other policy objectives that you think would help the New Zealand government to promote the responsible uses of space internationally?

no, you will ultimately launch what you wish

Q19

Do you have any questions or comments about what these objectives would mean in practice?

stop destroying local infrastructure and pay taxes/rates that are the same as residents

Page 9: Protecting and advancing our national security and economic interests

Q20

To what extent do you agree or disagree that these policy objectives will help the New Zealand government to protect and advance our national security and economic interests?

Use space assets to protect and advance New Zealand's national security and economic interests **Agree**

Manage the broad range of security risks in space to protect New Zealand's space industry **Agree**

Collaborate with international space and security partners to pursue New Zealand's national security and economic interests **Agree**

Q21

Do you have any comments on these policy objectives (e.g. any suggested change to how they are framed? Is there anything missing?)

nothing means anything unless you look after the community

Q22

Are there any other policy objectives that you think would help the New Zealand government to protect and advance our national security and economic interests?

undertaking to stop destroying our coastline

Q23

Do you have any questions or comments about what these objectives would mean in practice?

release the rates paid by rocket labs to the community

Page 10: Modelling sustainable space and Earth environments

Q24

To what extent do you agree or disagree that these policy objectives will help the New Zealand government to model sustainable space and Earth environments?

- | | |
|----------------------------------------------------------------------------------------------------------------------------------------|--------------|
| Encouraging inclusive, sustainable space collaborations within New Zealand | Agree |
| Assessing the cumulative impact of space activities on the Earth environment | Agree |
| Assisting with solving sustainability challenges through space data, including to better monitor or understand the Earth's environment | Agree |
| Investing in New Zealand's capability to retain, grow, access and use sustainable space technologies | Agree |
-

Q25

Do you have any comments on these policy objectives (e.g. any suggested change to how they are framed? Is there anything missing?)

my concern is about our infrastructure

Q26

Are there any other policy objectives that you think would help the New Zealand government to model sustainable space and Earth environments?

must employ a community liaison

Q27

Do you have any questions or comments about what these objectives would mean in practice?

fix the roads you have destroyed here

Page 11: Regulating to ensure space activities are safe and secure

Q28

To what extent do you agree or disagree that these policy objectives will help the New Zealand government to promote the responsible uses of space internationally?

Facilitating the safe and secure use of emerging space technologies from New Zealand **Agree**

Clarifying what New Zealand space activities are inconsistent with the national interest **Agree**

Promoting and protecting New Zealand's interests through permitting space technologies **Agree**

Q29

Do you have any comments on these policy objectives (e.g. any suggested change to how they are framed? Is there anything missing?)

nothing matters until you undertake to not destroy our fragile coastline with extremely heavy vehicles as we have endured for years while number one and number two pad were being constructed

Q30

Are there any other policy objectives that you think would help the New Zealand government to ensure space activities are safe and secure?

A liaison officer for the community is a must.

Q31

Do you have any questions or comments about what these objectives would mean in practice?

Fixing what you have destroyed would make for a more accepting community.

Page 12: Regulating in line with our national interests

Q32

Are there any comments you would like to make about these criteria that inform consideration of the national interest?

no

Q33

What questions do you have about how the national interest is considered in practice?

no
