Page 4: New Zealand's interests in space

**Q7** **General interest in space,**  
**Work in the New Zealand space sector**

What are your interests and relationship to space? Pick as many as apply below:

**Q8**

Please note any other interests and relationship to space below that you would like to share.

My entire career has been in the space industry and developing the space industry in New Zealand. I grew up with a large interest in space and space related activities to the point of obtaining a Masters degree in that field. I've helped Rocket Lab grow from grass roots to where it is today, playing a key management function of a department in the company. I am most interested in the development of systems that access and operate in space.

Page 5: New Zealand's values in space

**Q9**

To what extent do you agree or disagree that these values should apply to New Zealand's space activities and engagements?

Innovation	<b>Strongly agree</b>
Responsibility	<b>Strongly agree</b>
Stewardship	<b>Strongly agree</b>
Partnership	<b>Strongly agree</b>

**Q10**

Are there any other values, or aspects of kaitiakitanga (guardianship), that you think should apply to New Zealand's space activities and engagements? For example, cultural values regarding space.

Leadership – New Zealand should lead the values on why space is important to everyone on the earth. Leadership to goals of the international community are most important.

Page 7: Growing an innovative and inclusive space sector

**Q12**

To what extent do you agree or disagree that these policy objectives will help the New Zealand government to grow an innovative and inclusive space sector?

- |  |                       |
|--|-----------------------|
| Promoting New Zealand's natural advantage for conducting space activities, and research and development expertise across the space value chain | <b>Strongly agree</b> |
| Partnering within New Zealand and internationally to increase research and development capabilities  | <b>Strongly agree</b> |
| Identifying opportunities to increase diversity in the space sector  | <b>Strongly agree</b> |
| Using cutting-edge space technology and space sourced data to support New Zealand's values and interests                                       | <b>Strongly agree</b> |
- 

**Q13**

Do you have any comments on these policy objectives? (e.g. any suggested change to how they are framed? Is there anything missing?)

Financial and commercial objectives in the growth phase might be beneficial. It is the largest driver to success in the industry and policy objectives that bring offshore funding to NZ or grow the NZ companies through support of international stakeholders is critical.  
They are OK otherwise.

---

**Q14**

Are there any other policy objectives that you think would help the New Zealand government to grow an innovative and inclusive space sector?

No feedback

---

**Q15**

Do you have any questions or comments about what these objectives would mean in practice?

How would these influence the way a space sector business can operate in New Zealand?

---

Page 8: Promoting the responsible uses of space internationally

**Q16**

To what extent do you agree or disagree that these policy objectives will help the New Zealand government to promote the responsible uses of space internationally?

Advocating for effective international rules, norms and standards in space **Strongly agree**

Partnering with like-minded launch states to adopt peaceful, responsible and sustainable space practices **Strongly agree**

Collaborating internationally to increase New Zealand's influence and capabilities in the global space sector **Strongly agree**

---

**Q17**

Do you have any comments on these policy objectives (e.g. any suggested change to how they are framed? Is there anything missing?)

No feedback

---

**Q18**

Are there any other policy objectives that you think would help the New Zealand government to promote the responsible uses of space internationally?

No feedback

---

**Q19**

Do you have any questions or comments about what these objectives would mean in practice?

No feedback

---

Page 9: Protecting and advancing our national security and economic interests

**Q20**

To what extent do you agree or disagree that these policy objectives will help the New Zealand government to protect and advance our national security and economic interests?

Use space assets to protect and advance New Zealand's national security and economic interests **Strongly agree**

Manage the broad range of security risks in space to protect New Zealand's space industry **Strongly agree**

Collaborate with international space and security partners to pursue New Zealand's national security and economic interests **Strongly agree**

---

**Q21**

Do you have any comments on these policy objectives (e.g. any suggested change to how they are framed? Is there anything missing?)

These are OK in principle, but the New Zealand Government hasn't identified its position on these topics, how it will act now and going into the future.

---

**Q22**

Are there any other policy objectives that you think would help the New Zealand government to protect and advance our national security and economic interests?

New Zealand will grow more through growing other countries capabilities as well. A policy objective to support financial growth of the industry through local and international commercial and friendly government initiatives rather than only focussing on collaboration.

---

**Q23**

Do you have any questions or comments about what these objectives would mean in practice?

No feedback

---

Page 10: Modelling sustainable space and Earth environments

**Q24**

To what extent do you agree or disagree that these policy objectives will help the New Zealand government to model sustainable space and Earth environments?

Encouraging inclusive, sustainable space collaborations within New Zealand	<b>Strongly agree</b>
Assessing the cumulative impact of space activities on the Earth environment	<b>Agree</b>
Assisting with solving sustainability challenges through space data, including to better monitor or understand the Earth's environment	<b>Strongly agree</b>
Investing in New Zealand's capability to retain, grow, access and use sustainable space technologies	<b>Strongly agree</b>

---

**Q25**

Do you have any comments on these policy objectives (e.g. any suggested change to how they are framed? Is there anything missing?)

These are largely international objectives anyway, so are happening regardless.

---

**Q26**

Are there any other policy objectives that you think would help the New Zealand government to model sustainable space and Earth environments?

No feedback

---

**Q27**

Do you have any questions or comments about what these objectives would mean in practice?

How would these influence the way a space sector business can operate in New Zealand?

---

---

Page 11: Regulating to ensure space activities are safe and secure

**Q28**

To what extent do you agree or disagree that these policy objectives will help the New Zealand government to promote the responsible uses of space internationally?

Facilitating the safe and secure use of emerging space technologies from New Zealand **Strongly agree**

Clarifying what New Zealand space activities are inconsistent with the national interest **Strongly agree**

Promoting and protecting New Zealand's interests through permitting space technologies **Strongly agree**

---

**Q29**

Do you have any comments on these policy objectives (e.g. any suggested change to how they are framed? Is there anything missing?)

No comments

---

**Q30**

Are there any other policy objectives that you think would help the New Zealand government to ensure space activities are safe and secure?

No comments

---

**Q31**

Do you have any questions or comments about what these objectives would mean in practice?

No comments

---

---

Page 12: Regulating in line with our national interests

**Q32**

Are there any comments you would like to make about these criteria that inform consideration of the national interest?

No comments

---

**Q33**

What questions do you have about how the national interest is considered in practice?

No comments

---
