Page 4: New Zealand's interests in space

**Q7** **General interest in space,**  
**Have cultural connections to space**  
 What are your interests and relationship to space? Pick as many as apply below:

---

**Q8** **Respondent skipped this question**  
 Please note any other interests and relationship to space below that you would like to share.

---

Page 5: New Zealand's values in space

**Q9**  
 To what extent do you agree or disagree that these values should apply to New Zealand's space activities and engagements?

Innovation	<b>Agree</b>
Responsibility	<b>Strongly agree</b>
Stewardship	<b>Strongly agree</b>
Partnership	<b>Strongly agree</b>

---

**Q10** **Respondent skipped this question**  
 Are there any other values, or aspects of kaitiakitanga (guardianship), that you think should apply to New Zealand's space activities and engagements? For example, cultural values regarding space.

Page 6: New Zealand's space policy objectives

**Q11**  
 Rank these key policy objectives in order of importance to you: Click and drag to reorder the objectives from 1 (most important) to 5 (least important)

Growing an innovative and inclusive space sector	<b>4</b>
Modelling sustainable space and Earth environments	<b>1</b>
Promoting the responsible uses of space internationally	<b>3</b>
Protecting and advancing our national security and economic interests	<b>5</b>
Regulating to ensure space activities are safe and secure	<b>2</b>

---

Page 7: Growing an innovative and inclusive space sector

**Q12**

To what extent do you agree or disagree that these policy objectives will help the New Zealand government to grow an innovative and inclusive space sector?

Promoting New Zealand's natural advantage for conducting space activities, and research and development expertise across the space value chain	<b>Disagree</b>
Partnering within New Zealand and internationally to increase research and development capabilities	<b>Disagree</b>
Identifying opportunities to increase diversity in the space sector	<b>Disagree</b>
Using cutting-edge space technology and space sourced data to support New Zealand's values and interests	<b>Strongly disagree</b>

---

**Q13**

Do you have any comments on these policy objectives? (e.g. any suggested change to how they are framed? Is there anything missing?)

There are obviously opportunities to partner with military bodies and madmen like Elon Musk. It would be best to not be involved with these highly destructive and morally abhorrent entities.

---

**Q14**

Are there any other policy objectives that you think would help the New Zealand government to grow an innovative and inclusive space sector?

Are you sugar-coating this whole piece by adding 'innovative' and 'inclusive'? It smacks of weasliness.

---

**Q15**

Do you have any questions or comments about what these objectives would mean in practice?

Do you mean that the space industry is going to grow regardless of any input and this whole consultation piece is about whether or not it should be 'innovative' and 'inclusive'?

Please don't let StarLink wipe out our night sky. Please.

---

**Q16**

To what extent do you agree or disagree that these policy objectives will help the New Zealand government to promote the responsible uses of space internationally?

- Advocating for effective international rules, norms and standards in space **Agree**
- Partnering with like-minded launch states to adopt peaceful, responsible and sustainable space practices **Neither agree nor disagree**
- Collaborating internationally to increase New Zealand's influence and capabilities in the global space sector **Neither agree nor disagree**

**Q17**

Do you have any comments on these policy objectives (e.g. any suggested change to how they are framed? Is there anything missing?)

Is the US a like-minded state or is it a dangerous propaganda machine that's about to implode and launch havoc on the planet? What happens if Trump gets back in or the GOP manage to install a white-supremacist totalitarian government?

To what extent do you agree or disagree that these policy objectives will help the New Zealand government to protect and advance our national security and economic interests?

- Use space assets to protect and advance New Zealand's national security and economic interests **Neither agree nor disagree**
- Manage the broad range of security risks in space to protect New Zealand's space industry **Neither agree nor disagree**
- Collaborate with international space and security partners to pursue New Zealand's national security and economic interests **Neither agree nor disagree**

**Q21**

Do you have any comments on these policy objectives (e.g. any suggested change to how they are framed? Is there anything missing?)

We're being used to launch military hardware into space aren't we? Yay.

Page 12: Regulating in line with our national interests

**Q32**

Are there any comments you would like to make about these criteria that inform consideration of the national interest?

The activities specified as NOT being in New Zealand's national interests are good, but do they go far enough? Perhaps we should have zero tolerance for all things military.

---

**Q33**

**Respondent skipped this question**

What questions do you have about how the national interest is considered in practice?
