**Q1**

Personal Information

Name **Rosemary Neave**  
Email Address **rosemary@womentravel.co.nz**

---

**Q2****No**

Are you making this submission on behalf of a business or organisation?

---

**Q3****Yes**

Would you like to be kept informed of the outcome of the Space Policy Review?

---

**Q4****Yes**

Are you happy for MBIE to contact you if we have questions about your submission?

---

**Q5****Respondent skipped this question**

Privacy

**Q6**

Release of Information

**I understand that if there is other information in this submission that I do not wish to be released, I will email this to [spacepolicyreview@mbie.govt.nz](mailto:spacepolicyreview@mbie.govt.nz) with the subject line "Release of information", together with my reasons for withholding the information and grounds under the Official Information Act 1982, for consideration by MBIE**

---

Page 4: New Zealand's interests in space

**Q7**

**General interest in space**

What are your interests and relationship to space? Pick as many as apply below:

---

**Q8**

**Respondent skipped this question**

Please note any other interests and relationship to space below that you would like to share.

---

Page 5: New Zealand's values in space

**Q9**

To what extent do you agree or disagree that these values should apply to New Zealand's space activities and engagements?

Innovation	<b>Neither agree nor disagree</b>
Responsibility	<b>Strongly disagree</b>
Stewardship	<b>Strongly disagree</b>
Partnership	<b>Neither agree nor disagree</b>

---

**Q10**

Are there any other values, or aspects of kaitiakitanga (guardianship), that you think should apply to New Zealand's space activities and engagements? For example, cultural values regarding space.

Space is a taonga, not something to be mined for personal or sectoral interests. It is part of us, not other to us. It is critical that we do not let it be 'owned' by private or national interests.

---

Page 6: New Zealand's space policy objectives

**Q11**

Rank these key policy objectives in order of importance to you: Click and drag to reorder the objectives from 1 (most important) to 5 (least important)

Modelling sustainable space and Earth environments	<b>1</b>
Promoting the responsible uses of space internationally	<b>2</b>
Protecting and advancing our national security and economic interests	<b>5</b>

---

Page 7: Growing an innovative and inclusive space sector

**Q12**

Respondent skipped this question

To what extent do you agree or disagree that these policy objectives will help the New Zealand government to grow an innovative and inclusive space sector?

**Q13**

Do you have any comments on these policy objectives? (e.g. any suggested change to how they are framed? Is there anything missing?)

Every one of these questions are framed as if space is ours to use. Sustainable land practice regulations have not worked, why would they work in space? Our framing must be as much about why we should not interfere in space as much as why we should. It must not be driven by individual profit motive, but the good of the people and planet (and those of other planets)

**Q14**

Respondent skipped this question

Are there any other policy objectives that you think would help the New Zealand government to grow an innovative and inclusive space sector?

**Q15**

Respondent skipped this question

Do you have any questions or comments about what these objectives would mean in practice?

Page 8: Promoting the responsible uses of space internationally

**Q16**

To what extent do you agree or disagree that these policy objectives will help the New Zealand government to promote the responsible uses of space internationally?

Advocating for effective international rules, norms and standards in space **Strongly disagree**

Partnering with like-minded launch states to adopt peaceful, responsible and sustainable space practices **Strongly disagree**

Collaborating internationally to increase New Zealand's influence and capabilities in the global space sector **Strongly disagree**

**Q17**

Do you have any comments on these policy objectives (e.g. any suggested change to how they are framed? Is there anything missing?)

We must not repeat mistakes made on earth and duplicate them in space. Note of these things have helped us develop equitable and sustainable actions on earth. We are on track to climate catastrophe. We should not replicate this in space

**Q18**

Respondent skipped this question

Are there any other policy objectives that you think would help the New Zealand government to promote the responsible uses of space internationally?

---

**Q19**

Respondent skipped this question

Do you have any questions or comments about what these objectives would mean in practice?

---

---

Page 9: Protecting and advancing our national security and economic interests

**Q20**

To what extent do you agree or disagree that these policy objectives will help the New Zealand government to protect and advance our national security and economic interests?

Use space assets to protect and advance New Zealand's national security and economic interests **Strongly disagree**

Manage the broad range of security risks in space to protect New Zealand's space industry **Strongly disagree**

Collaborate with international space and security partners to pursue New Zealand's national security and economic interests **Strongly disagree**

---

**Q21**

Do you have any comments on these policy objectives (e.g. any suggested change to how they are framed? Is there anything missing?)

none of these objectives will bring us security

---

**Q22**

Respondent skipped this question

Are there any other policy objectives that you think would help the New Zealand government to protect and advance our national security and economic interests?

Page 10: Modelling sustainable space and Earth environments

**Q24**

To what extent do you agree or disagree that these policy objectives will help the New Zealand government to model sustainable space and Earth environments?

Encouraging inclusive, sustainable space collaborations within New Zealand **Strongly disagree**

Assessing the cumulative impact of space activities on the Earth environment **Strongly disagree**

Assisting with solving sustainability challenges through space data, including to better monitor or understand the Earth's environment **Strongly disagree**

Investing in New Zealand's capability to retain, grow, access and use sustainable space technologies **Strongly disagree**

**Q25**

**Respondent skipped this question**

Do you have any comments on these policy objectives (e.g. any suggested change to how they are framed? Is there anything missing?)

**Q26**

**Respondent skipped this question**

Are there any other policy objectives that you think would help the New Zealand government to model sustainable space and Earth environments?

**Q27**

**Respondent skipped this question**

Do you have any questions or comments about what these objectives would mean in practice?

Page 11: Regulating to ensure space activities are safe and secure

**Q28**

To what extent do you agree or disagree that these policy objectives will help the New Zealand government to promote the responsible uses of space internationally?

Facilitating the safe and secure use of emerging space technologies from New Zealand **Strongly disagree**

Clarifying what New Zealand space activities are inconsistent with the national interest **Strongly disagree**

Promoting and protecting New Zealand's interests through permitting space technologies **Strongly disagree**

**Q29**

Respondent skipped this question

Do you have any comments on these policy objectives (e.g. any suggested change to how they are framed? Is there anything missing?)

---

**Q30**

Respondent skipped this question

Are there any other policy objectives that you think would help the New Zealand government to ensure space activities are safe and secure?

---
