*Small businesses are defined here as those with fewer than 20 employees. There is no official definition of a small business in New Zealand, however 'businesses with fewer than 20 employees' has traditionally been used and referred to in some legislation. Australia also uses the same definition which enables comparisons to be made. Internationally there is no universally used definition for a small business: many economies use a limit higher than 20 employees.

18%

OF SELF-EMPLOYED PEOPLE WORK IN THE CONSTRUCTION INDUSTRY
(See Chart 5)

42%

OF ECONOMIC VALUE ADD IS ESTIMATED TO BE PRODUCED BY SMALL BUSINESSES
(See Chart 6)

40%
