Kānoa – Regional Economic Development & Investment Unit

Kānoa – Regional Economic Development & Investment Unit (Kānoa) delivers government funding to grow the economies of regional Aotearoa New Zealand.

Kānoa works with other government organisations, industry, communities, iwi and local government to manage and deliver funds tailored to build our regional economies. As part of the delivery of the Regional Strategic Partnership Fund, Kānoa is working with Regional Economic Development partnerships in each region to develop regionally-specific projects.

In te reo Māori, the literal translation of kā is fire, and noa without restraint, used in proverbs and lore, it also provides a broader meaning in te ao Māori. Kānoa was the guardian of Hawaiki's Rua-kumara, or kumara store house. By distributing kumara to others, he helped his people thrive and develop both their whenua (land) and their capability.

The name Kānoa was selected for the unit in recognition of Kānoa as kaitiaki, a guardian who helped grow prosperity through investment. The phrase 'kei te kā noa te ahi?' (is the fire burning?) is used by tangata whenua (people of the land) to ask if their home fire is alight and all is well. This meaning encapsulates the core principle of Kānoa: to enable the development of people and their communities to ensure their well-being and prosperity.

Purpose of this update

This document is a quarterly update that shows the progress of, and impact made by, government investments managed by Kānoa across Aotearoa New Zealand.

The report outlines funding levels paid against the 2,722 projects under Kānoa's direct and indirect management. It covers investments made through the following funds:

- Provincial Growth Fund (PGF)
- COVID-19 Response and Recovery Fund - Infrastructure Reference Group (IRG)
- Regional Investment Opportunities (RIO) - NZ Upgrade Programme
- Regional Strategic Partnership Fund (RSPF)
- Strategic Tourism Assets Protection Programme (STAPP)
- COVID-19 Response - Worker Redeployment Package
- Queenstown Economic Transformation and Resilience Fund
- Regional Growth Initiatives (RGI)

Where payments have not been made or where contracts have not been signed, commentary has been provided. This information is commercially sensitive and should not be distributed further.

Data in this report is for the financial quarter January to March 2023 and commentary is up to date at the time of completion, excluding the data for the status report on page 23 and highlighted projects on pages 12 to 17, which is taken from 13 August 2023.

Job numbers in this report are based on a head count of people employed on a project. Further breakdowns are available for job creation programs based on education, employment or training guidance.

*The contracted figures for the Provincial Growth Fund, Regional Growth Initiatives and Regional Investment Opportunities (NZ Upgrade Programme) have decreased due to the withdrawal of three projects and contract variations.

**One partner agency managed project moved to an inactive status during this reporting period. It has since moved back and has been completed.

Progress since last report

Regional Economic Development (RED) Ministers considered proposals seeking funding through the RSPF once in this reporting period. On 13 March 2023, RED Ministers discussed eight proposals: Maraetai Intermodal Business Park (Waikato), Commercial Information (Waikato), Commercial Information (Taranaki), Commercial Information (Te Taihupo), Scapegrace Distillery Expansion (Otago) and three proposals relating to the Commercial Information (Southland). Of these eight proposals:

- Two were approved – Maraetai Intermodal Business Park and Scapegrace Distillery Expansion.
- Three were declined – each of the three Commercial Information proposals.
- Three were deferred to a later decision date – Commercial Information, Commercial Information and Commercial Information.

RED Ministers also approved two proposals out-of-cycle: Fraser Park Redevelopment (Canterbury) and Eastland Coastal Shipping Route (Tairāwhiti).

\$75.06 million was allocated to RSPF projects by the end of March 2023. Kānoa continues to progress a pipeline of potential investments, working closely with government agencies and directing proposals towards alternative funding avenues where they are not eligible for RSPF investment. Kānoa is on track to fully allocate the RSPF by 30 September 2023.

In response to Cyclone Gabrielle, Kānoa was asked to contract and manage the disbursement of \$75 million to eight Local Delivery Partners in February 2023. The primary purpose of the programme was to support business continuity by helping firms maintain cashflow, and, where possible, position firms for a successful recovery. Across eight regions, 4,956 grants were approved to businesses impacted by Cyclone Gabrielle (\$12,420 average grant amount allocated).

The Crown Regional Holdings Limited (CRHL) Board of Directors (The Board) met three times in the reporting period and provided advice to decision makers on 11 projects.

The Board continues to meet regularly to provide advice to Kānoa and Ministers on proposals and undertake their role in the oversight of loan and equity investments. As at 31 March 2023, CRHL holds 149 loans (\$545.75 million), 12 equity investments (\$117.40 million), one asset project under construction (\$115.30 million), and one completed asset project (\$8.00 million), with a combined total of \$786.45 million. The company had nine loans repaid, seven of which were STAPP loans.

On 31 January 2023, Rodger Finlay retired from The Board. The Board acknowledged Rodger's exceptional and deeply committed contribution to the development initiatives and aspirations of Aotearoa New Zealand's regions, both in his time as Chair of the Independent Advisory Panel (a panel established for during the administration of the PGF) and the inaugural Chair of The Board. The framework and systems through which CRHL performs its role owe much of their design and success to Rodger's significant governance experience and commercial acumen.

Māori Economic Development Ministers met once in the reporting period on 6 March 2023 and discussed RSPF proposals going to RED Ministers.

Regional Skills Leadership Groups

The Regional Skills Leadership Groups (RSLGs) secretariat function joined Kānoa on 1 May 2023. The secretariat function supports RSLGs, which are independent advisory groups that are locally based and regionally led. RSLGs identify and support better ways to meet future skills and workforce needs and provide advice regarding actions to address these. There are 15 RSLGs and the boundaries are largely aligned with regional councils. The RSLG function reports to the Minister of Social Development and Employment, Hon Carmel Sepuloni.

Each RSLG has 12 to 15 members, including two co-chairs, one identified through a public expression of interest process and the other nominated by local iwi/Māori. Co-chairs are appointed by Cabinet through the appropriate process and remaining members are appointed by the Chief Executive of MBIE following an annual public expression of interest process.

Membership of the groups typically reflects the makeup of the region and generally includes:

- business/industry representatives to reflect the views from the ‘demand’ side of the labour market
- worker representatives to reflect the ‘supply’ side of the labour market
- a local government/regional economic development representative
- iwi/Māori representatives
- community representatives
- the regional public service commissioner.

Each RSLG has a dedicated regional lead a team of analysts, advisors and workforce specialists.

RSLG Secretariats support Co-Chairs working together towards a shared goal

On 30 March 2023, the RSLG Secretariat convened an in-person hui in Wellington. In attendance were 21 of the 29 co-chairs, the Minister for Social Development and Employment Hon Carmel Sepuloni, Peter Winder (Chief Executive Te Pūkenga), Tim Fowler (Chief Executive Tertiary Education Commission) and Phil Alexander-Crawford (Chief Executive Hanga-Aro-Rau Workforce Development Council).

The purpose of the hui was to:

- Embrace kotahitanga, whanaungatanga, and māramatanga (unity and working together towards a shared goal).
- Explore ways to inspire and mobilise the Reform of Vocational Education community through partnerships and sharing experiences in business and other areas.
- Encourage open discussions about challenges and obstacles to cultivate a culture of transparency and foster problem-solving.
- Evaluate the group's achievements and recognise the value of RSLGs.
- Developing and implementing effective strategies to bring about positive change in regional communities.
- Update Hon Sepuloni on shared priorities, challenges, and aspirations for the future.

The hui was a great success and Hon Sepuloni will attend future meetings. Co-Chairs appreciated the opportunity to meet in person for the first time and enjoyed sharing both successes and struggles, then strategising together how to get the best outcome from their respective RSLG region.

Tourism plays a significant role in generating export revenue, supporting employment opportunities, boosting local revenue generation, developing local infrastructure, and enabling local people to realise their aspirations.

The government has invested in a range of tourism projects through Kānoa to enable community wellbeing, drive economic development and create work and training opportunities. This funding has supported the tourism industry through the impacts of the COVID-19 pandemic, and enabled projects to focus on ensuring long term sustainability in the sector. Many investments support Māori economic development and work with local iwi.

With Aotearoa New Zealand's borders now open to international visitors following the pandemic, these projects significantly contribute to regional economies. This report highlights the \$172.59 million investment made by government in tourism projects in the following three areas:

- **Hot Pools**
- **Cycleways**
- **Walkways**

Many investments made in these areas have created the opportunity for supporting infrastructure such as cafés, bars and local businesses to capitalise on domestic and international tourists.

The table on the right shows the investment in tourism projects by region.

HOT POOLS, CYCLEWAYS AND WALKWAYS

The government has supported local economies through Kānoa investments in cycleways and family-friendly walks that help promote the exploration of Aotearoa New Zealand’s unique scenery.

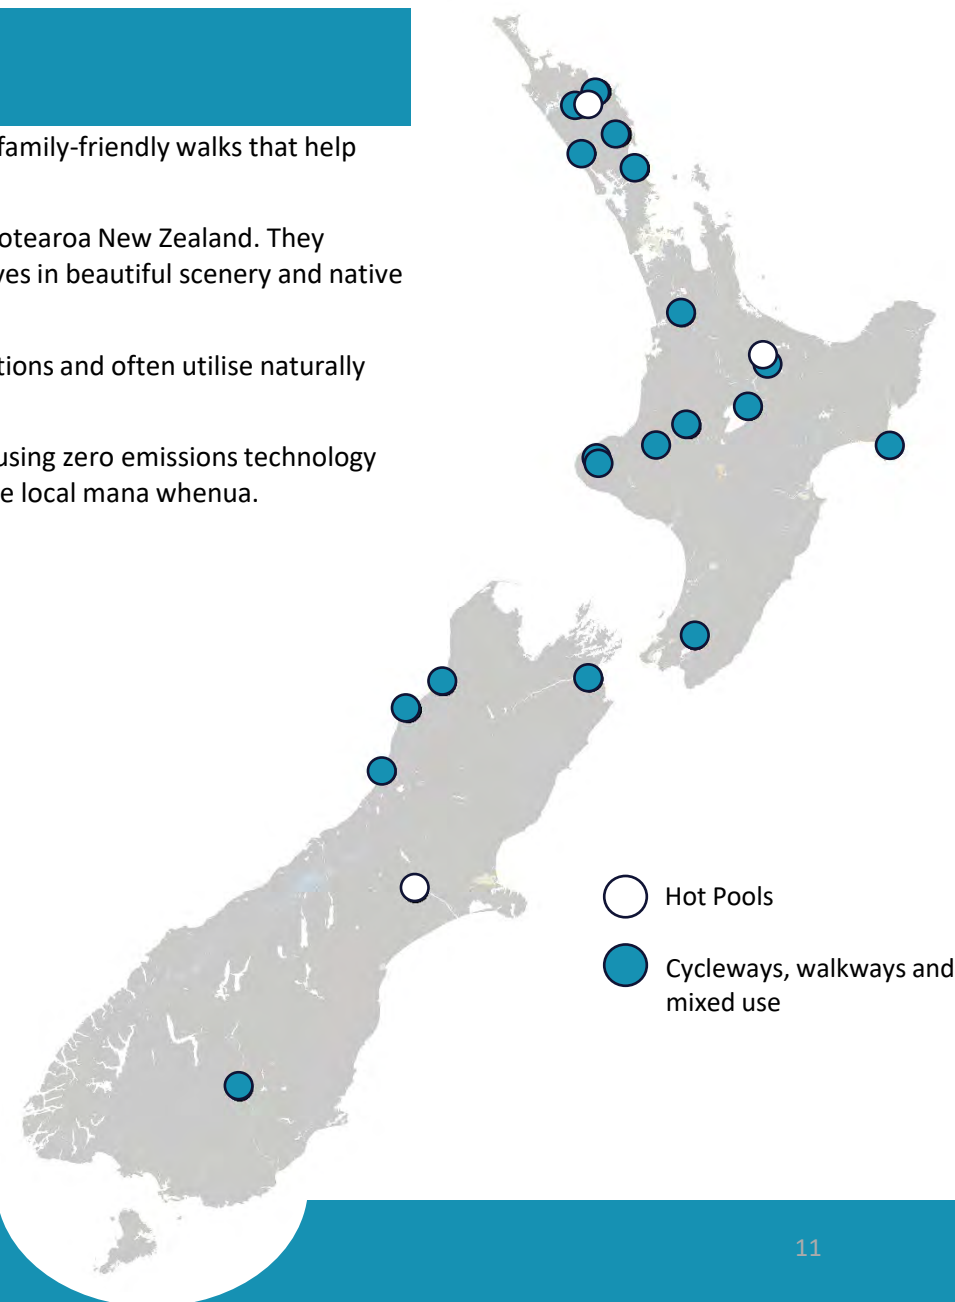

Cycleways and walkways connect many tourism sites and visitor centres across the length of Aotearoa New Zealand. They provide access to remote areas, and provide tourists with an opportunity to immerse themselves in beautiful scenery and native forest.

Hot pools and spa experiences strengthen the regions’ position as health and wellness destinations and often utilise naturally occurring thermal springs.

The three hot pool projects highlighted in this report each showcase unique designs including using zero emissions technology and the application of te ao Māori principles in treatments, and instil cultural significance to the local mana whenua.

TE WAIARIKI NGĀWHĀ SPRINGS ENHANCEMENT AND REDEVELOPMENT

Grant	\$1.79 million
Paid	\$1.79 million

Parahirahi Ngāwhā Waiariki Trust (the Trust) received \$1.79 million in government funding from the PGF to redevelop an existing geothermal hot springs complex in Tai Tokerau / Northland. The redevelopment included renovating the existing pools, expanding walkways, upgrading the office area and changing rooms, and building a new perimeter wall to act as a flood barrier. The funding has enabled the Trust to build space for a café and a retail store, and to offer health-related services such as mirimiri (massage).

Te Waiariki Ngāwhā Springs has long been treasured for the benefits of its thermal waters by the hapū of Ngāpuhi. With visitor numbers on the rise and the last major works completed in the 1970's, the spring's facilities required refurbishing to ensure it could continue to safely host visitors and uphold the Trust's kaitiakitanga (guardianship) and wairuatanga (spirituality).

The redeveloped springs opened in April 2021 and further builds Tai Tokerau / Northland's tourism market, while delivering benefits to the local community through enhancing an important local landmark. Visitor numbers increased from 3,500 per month to more than 7,000 per month after the springs were renovated.

The 16 mineral-rich pools have healing properties, with the people of Ngāpuhi using them for hundreds of years – each pool has unique characteristics with different temperatures, colours and minerals.

In 2021, TIME magazine named Tai Tokerau / Northland in its list of The World's 100 Greatest Places and Te Waiariki Ngāwhā Springs was specifically mentioned as a key place to visit. TIME describes the list as a way to identify unique travel, tourism and hospitality spots.

WAI ARIKI HOT SPRINGS AND SPA

Loan	\$45.00 million
Paid	\$44.51 million

Pukeroa Lakefront Holdings Limited (PLHL) received \$45.00 million in government funding from IRG to design and construct a 5,000 square metre luxury wellness facility and day spa offering holistic well-being treatments with a te ao Māori focus. This development is located on land owned by Ngāti Whakaue.

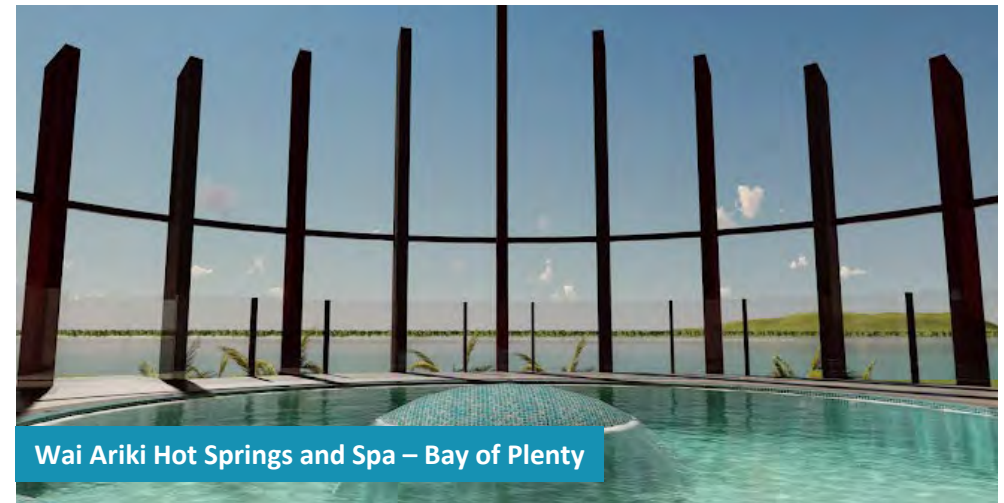

The Wai Ariki Hot Springs and Spa is one of the biggest developments in Rotorua in 20 years and is the first and only mana whenua owned spa. The centre is guarded by six statues of tipuna (ancestors) of Ngāti Whakaue, a blessing stone sourced from Mount Tarawera sits at the entrance, giving safe passage to visitors.

The centre features two main spa areas: Te Āhuru Mōwai (Sanctuary) and Wai Whakaora (Restorative Journey). Te Āhuru Mōwai features a stargazing pool (pictured on the top right) which allows visitors to gaze upon the star that first guided Ngāti Whakaue, providing a connection to the Ngāti Whakaue people and places that have come to define them through time.

Opening in June 2023, Wai Ariki Hot Springs and Spa has created approximately 35 full time jobs and employed 200-250 people during the construction phase.

The authentic wellness and spa experience combines the region's healing geothermal waters with the centuries-old legacy of Ngāti Whakaue culture, healing practices, and manaakitanga (caring hospitality), strengthening Rotorua's position as a health and wellness destination. The centre is located next to QE Health, a clinical health and rehabilitation facility which utilises the region's geothermal waters. QE Health received \$9.4 million in government funding from the PGF to construct a new health and wellness facility which opened in February 2023. Both complex's have a long term goal to draw domestic and international tourists to Rotorua.

Wai Ariki Hot Springs and Spa is expected to attract thousands of visitors to the Bay of Plenty region each year and will boost the local economy through wellness tourism.

ŌPUKE THERMAL POOLS AND SPA

Loan	\$7.50 million
Paid	\$7.50 million

Ōpuke Thermal Pools and Spa – Canterbury

Ōpuke Thermal Pools and Spa – Canterbury

Methven Adventures Limited received a \$7.50 million PGF loan to develop a hot pools and spa complex in Methven, Canterbury to complement the neighbouring Mount Hutt Ski Field.

Ōpuke Thermal Pools and Spa sources water from the Rangitata River that is fed by glacial melt water from the Southern Alps. The spa complex uses solar energy to heat the water and produces zero emissions, the first of its kind in Aotearoa New Zealand.

An array of approximately 500 solar thermal collectors (pictured on the top left) occupies a quarter of the site and serves as the primary pool water heating system. Pool water is transferred to insulated tanks outside of operating hours to minimise heat losses. Excess solar energy is stored in buffer tanks and used in combination with energy efficient heat pumps to make up shortfalls in solar energy during cloudy periods. As a renewable source of power, solar energy has an important role in reducing greenhouse gas emissions and mitigating climate change.

Opening in November 2021, the complex has employed 68 people. In January 2023, the spa complex had 8,400 guests, a 29 per cent increase from January 2022.

In November 2022, Ōpuke Thermal Pools and Spa was awarded a New Zealand Architecture Award in the Commercial Architecture category by Te Kāhui Whaihanga New Zealand Institute of Architects. The complex was praised for its architectural form, material selection and readily apparent sustainability principals.

In June 2023, Ōpuke Thermal Pools and Spa was awarded the 2023 Gold Award in Tourism and Leisure category and the 2023 Value Award by New Zealand Commercial Project Award partners. The project leads were commended for pushing the boundaries of design and sustainability, as well as recognising the deep-rooted community support and local workforce contributing to this project.

THE WHALE TRAIL

Grant	\$26.00 million
Paid	\$6.51 million

Marlborough Kaikōura Trail Trust, received a \$26.00 million IRG grant to develop the Whale Trail, a 194 kilometre cycling and walking trail from Picton to Kaikōura.

Located in Te Taihu / Top of the South, the trail was an idea formed by locals after the 7.8 magnitude Kaikōura earthquake destroyed infrastructure, homes and local economies along Kaikōura and Marlborough's east coast in 2016. Sections of State Highway One and the rail corridor were destroyed in the earthquake, leaving communities isolated.

The Whale Trail will run alongside the railway line and will provide a new way to access the region's unique local attractions and facilities, and will connect the communities of Picton, Blenheim, Seddon, Ward, Kekerengu, Clarence and Kaikōura.

Due to be completed mid 2025, the construction of the path has created 32 full time jobs and is currently underway in three sections:

1. The Elevation to Lindens Rd (to be complete August 2023).
2. Redwood Pass to Northern end of Awatere Bridge (to be complete by November 2023).
3. Awatere Bridge (to be complete by December 2023).

A community led initiative, this project gathered public support from people living in earthquake-affected areas who saw the opportunity for sustainable economic restoration to rebuild their region.

Part of the trail passes through rohe (territories) belonging to Te Rūnanga o Kaikōura, who have shown support for the trail, its stories and intent. Iwi are supporting archaeological surveys and engaging with the Department of Conservation to ensure the trail follows boundary lines.

TE AWA CYCLEWAY: HAMILTON TO CAMBRIDGE SECTION

Grant	\$8.33 million
Paid	\$6.56 million

Hamilton City Council received a \$8.33 million IRG grant to construct a 20 kilometre shared cycle and walking path, separated from traffic, from Hamilton to the Velodrome in Cambridge. This forms part of the existing Te Awa River Ride, a 65 kilometre shared path that follows the banks of the Waikato River from Ngāruawāhia to Horahora. The route is a three metre wide path, constructed from concrete, boardwalk and bridges depending on the terrain.

The path features riverside views, picnic spots, and access to the Hamilton Gardens and the historic fortified Mangaharakeke Pa site along the way. Throughout the path are panels for riders and walkers to read and learn more about the river ride, local history, ecology and culture.

This project created fifty jobs during the construction phase and three full time jobs post-construction. Fifty per cent of the direct contracts and sub-contracts were awarded to businesses owned and operated by people in the region.

The Te Awa Rive Ride opened in Cambridge in 2009 and the additional 20 kilometre track was opened to the public in January 2023. The trail can be walked or cycled in small sections, making it suitable for recreation and commuting.

The below practices were undertaken to protect the local ecosystem and its indigenous biodiversity, and minimise the carbon impact of project delivery:

- Minimising waste and re-using materials.
- Using water resources efficiently.
- Using low-impact, sustainably and locally sourced materials and products.

KAWATIRI COASTAL TRAIL

Grant	\$9.36 million
Paid	\$8.47 million

Charleston – Westport Coastal Trail Trust received a \$9.36 million PGF grant to construct a family friendly 55 kilometre walking and cycling trail between Charleston and Westport in the West Coast.

The trail highlights the unique flora, and fauna of the region and users can enter and exit the trail at multiple sites. Along the trail, visitors will see coastal views combined with unique geology and landforms such as the Cape Foulwind headland, exceptional ecological diversity such as kahikatea and wetlands, and wildlife including seals, penguins, weka and kiwi.

The trail passes through areas of high significance to local iwi, allowing Ngāi Tahu to share their stories. It also passes through gold rush heritage sites, making the rich history of the area available to locals and visitors alike. The trail can easily be combined with other local adventure activities, and additional cycling and walking trails.

The construction of the trail has created over 60 employment opportunities.

The first of eight sections of the trail opened in 2020 and four consecutive sections of the trail are currently open, offering users 22 kilometres of trail between Westport and Ōkari Lagoon. A fifth section is open in Charleston. Three sections are still to be completed. Currently under construction is the seven kilometre section from Ōkari Lagoon to Virgin Flat Road, which will lead to the next section, connecting to Tōtara River.

The entire trail is due to be completed in early 2024. Once complete, all sections of the trail will be able to be ridden in either direction, with the option to split the route into shorter rides, taking in major highlights along the way.

Impact of investments

SUMMARY OF TOURISM INVESTMENT

The following pages explore the impacts of investment in the tourism sector from Kānoa managed-funds.

There are two key parts to the investment in tourism sector:

- Pre-COVID-19 investment from the PGF.
- Investment as part of the COVID-19 response through STAPP and the IRG.

Tourism investment through the PGF totalled \$441.46 million for 344 projects across the country, creating a total of 4,175 jobs. The West Coast region has had the most tourism funding approved through the PGF, totalling \$93.48 million.

Tourism expenditure increased after the establishment of the PGF, with Otago and West Coast being the most reliant on tourism. Since the establishment of the PGF in 2018, and prior to the COVID-19 border closure in March 2020, tourism expenditure in Aotearoa New Zealand increased. Otago and West Coast were the regions with the most reliance on tourism at the time of the border closure, with the highest tourism expenditure as a proportion of their regional Gross Domestic Product (GDP).

Investment in tourism as part of the COVID-19 response totalled \$153.40 million through STAPP and IRG. In response to COVID-19, STAPP was established in May 2020 to help protect assets in the tourism landscape that form the core of Aotearoa New Zealand's essential tourism offerings to ensure their survival through the disruption caused by COVID-19. In total, 74 organisations were supported through STAPP (from 130 organisations which were offered support). Part of STAPP appropriation was ring-fenced as the Queenstown Economic Transformation and Resilience Fund, to increase economic resilience and support diversification beyond tourism in the Otago region.

The IRG was also established to support the country's response to and recovery from the pandemic. There were three projects funded in the tourism sector, creating a total of 103 jobs.

Domestic tourism spending dropped at the start of the pandemic, but recovered through the COVID-19 response. With the country going into lockdown due to the pandemic, monthly domestic tourism expenditure reduced by 81 per cent between February and April 2020. After the COVID-19 response funding was established through STAPP / IRG, and as lockdown restrictions were relaxed, domestic tourism spending started to increase again from May 2020.

By March 2021 domestic tourism spending had returned to pre-COVID-19 levels. There has been continued growth in domestic tourism spending since, with annual spending now up 20 per cent nationally on pre-COVID-19 levels.

PRE-COVID-19 TOURISM INVESTMENT – PGF

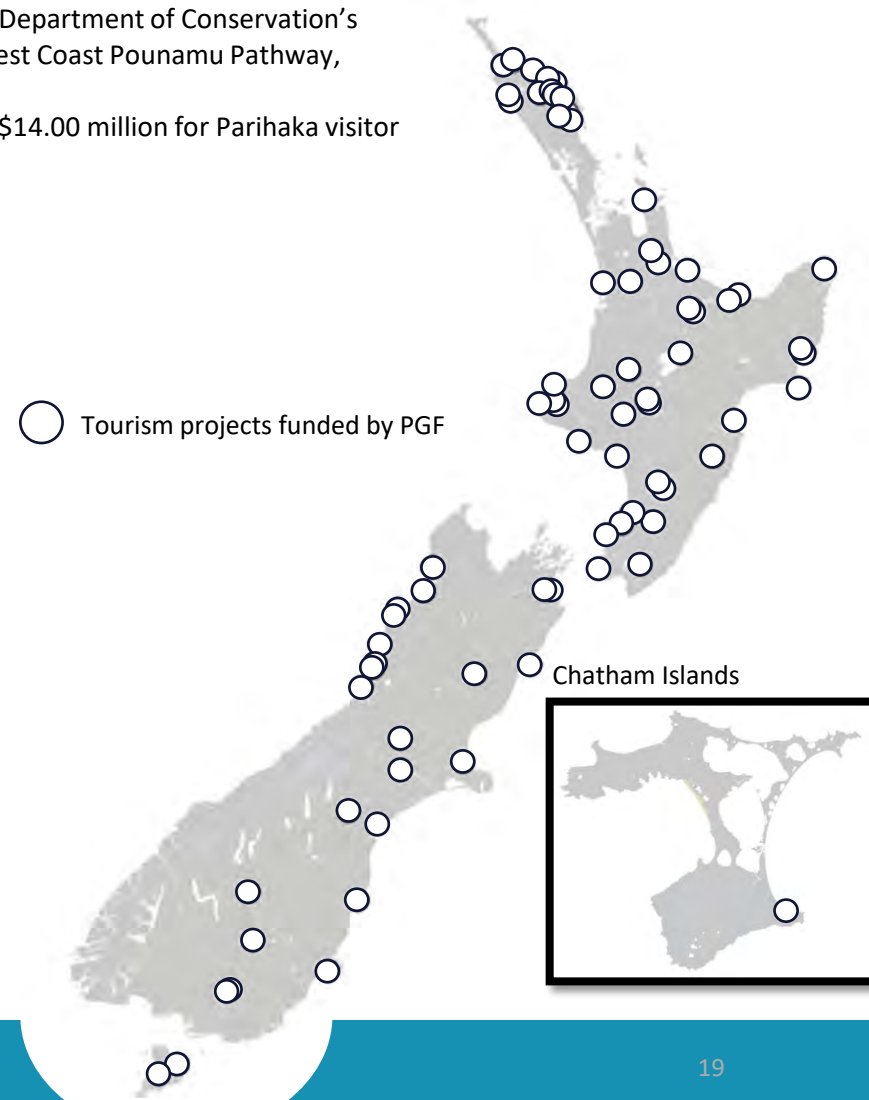

Through the PGF the tourism sector has had over \$441.47 million invested into 344 projects across the country, creating a total of 4,175 jobs.

The West Coast region has had the most funding approved, \$93.48 million. Major projects include the Department of Conservation's redevelopment project at Punakaiki, \$28.00 million, and four new visitor experience centres on the West Coast Pounamu Pathway, \$18.00 million.

Large tourism projects in other regions include \$20.00 million for the Rotorua lakefront development, \$14.00 million for Parihaka visitor facilities in Taranaki, and \$14.00 million for Te Rau Aroha, the Māori Battalion Museum, at Waitangi.

PRE-COVID-19 TOURISM EXPENDITURE

Since the establishment of the PGF in 2018, and prior to the COVID-19 border closure in March 2020, tourism expenditure in Aotearoa New Zealand increased. Nationally, annual domestic tourism expenditure increased by 3.4 per cent over this period, and international tourism expenditure increased by 5 per cent.

Domestic tourism expenditure in Aotearoa New Zealand – Pre-COVID-19

Tourism expenditure as a proportion of regional GDP – year ending March 2020

The Otago and West Coast regions had the most reliance on tourism at the time of the border closure, with the highest tourism expenditure as a proportion of their regional GDP in 2020.

COVID-19 RESPONSE TOURISM INVESTMENT (STAPP/ IRG)

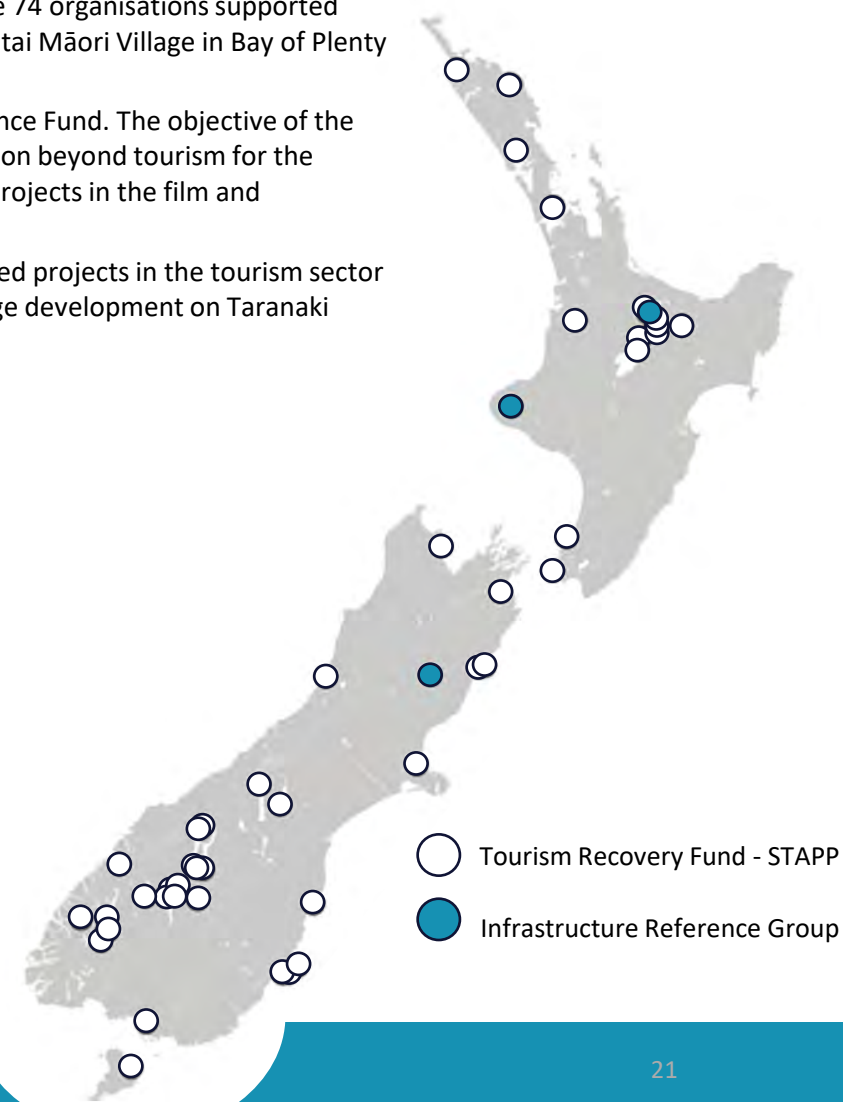

In response to COVID-19, STAPP was established in May 2020 to help protect assets in the tourism landscape that form the core of our essential tourism offerings to ensure their survival through the disruption caused by COVID-19. There were 74 organisations supported through STAPP. Milford and Doubtful Sounds in Southland, TSS Earnslaw and Walter Peak in Otago, and Mitai Māori Village in Bay of Plenty are some of the projects supported by STAPP.

Part of the STAPP appropriation was ring-fenced as the Queenstown Economic Transformation and Resilience Fund. The objective of the fund is to increase economic resilience and develop higher paying jobs in the area and support diversification beyond tourism for the Queenstown economy. With a total fund of \$18 million, \$7.80 million has so far been approved for three projects in the film and technology sectors.

The IRG was also established to support the country's response to and recovery from the pandemic. Funded projects in the tourism sector are Wai Ariki Hot Springs and Spa in Rotorua, Conical Hill Fly-Line at Hanmer Springs and Dawson Falls lodge development on Taranaki Maunga. These three projects created a total of 103 jobs.

COVID-19 RESPONSE DOMESTIC TOURISM EXPENDITURE

Nationally, monthly domestic tourism expenditure reduced by 81 per cent between February and April 2020, with the country going into lockdown due to the pandemic. International tourism effectively stopped due to the border closure.

Following the establishment of the COVID-19 response funding through STAPP / IRG, and as lockdown restrictions were relaxed, domestic tourism spending started to increase again from May 2020.

By March 2021 annual domestic tourism spending had returned to pre-COVID-19 levels.

There has been continued growth in domestic tourism spending since, with annual spending now up 20 per cent nationally on pre-COVID-19 levels.

The project lists are also available on www.growregions.govt.nz/established-funds/what-we-have-funded/ and are updated monthly.

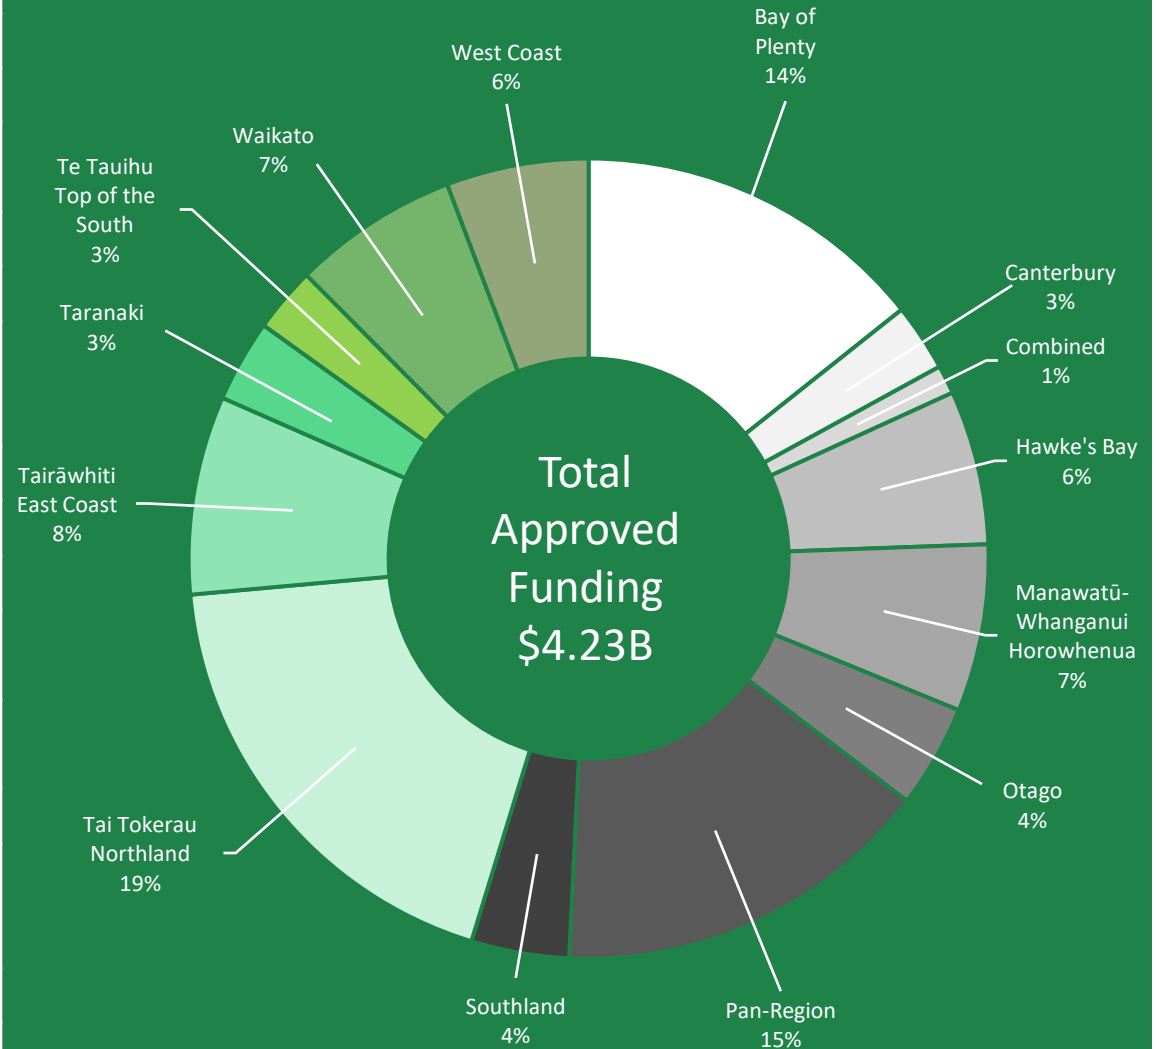

All contracted active projects	
Total active projects	589
Percentage of active projects that have received funding	99%
Total closed projects	1106

Please Note:

1. For the purpose of this report, active projects have been defined as those which are contracted.
2. The 'Combined' section of the donut chart represents regions which received less than 1% of the total approved funding. These regions are: Kāpiti, Chatham Islands and Wairarapa.
3. Kānoa uses a parent/child structure to record and monitor project types where there are inter-related contracts. This structure is used when dealing with the following situations:
 - Where there is one application for multiple projects. This will ensure the correct funding amount is captured.
 - If there is one project or contract reliant on funding from multiple allocations. This will ensure we can accurately report on each funding stream.
 - When there is one project or contract relying on multiple funding types. This will ensure we can accurately report on each funding type.
 - In the case where a single contract covers multiple projects, for example, clusters of separate marae.
