Q13 Yes

Do you broadly support the proposed strategy HH1?

Q14

Respondent skipped this question

Please share your comments on the proposed strategy HH1. For example, you could include your thoughts on any benefits, costs, risks or limitations associated with this strategy.

Q15

Do you have any alternative suggestions on how to address the challenge explained above? If so, please share these below.

Encourage solar panel installation on all rooftops. Good for the individual- good for the community (wider NZ electricity supply). Or alternatively solar hot water heating.

Q16

Yes

Do you broadly support the proposed strategy HH2?

Q17

Respondent skipped this question

Please share your comments on the proposed strategy HH2 . For example, you could include your thoughts on any benefits, costs, risks, limitations associated with this strategy.

Q32
Please share your comments on the proposed strategy KN2. For example, you could include your thoughts on any benefits, costs, risks, limitations associated with this strategy.

Every Maori I know can read and access information the same way I can. Waste of money hiring staff when there is a national shortage of labour. Instead focus on solar installation.

Q33 No

Do you broadly support the proposed strategy KN3?

Q34
Please share your comments on the proposed strategy KN3. For example, you could include your thoughts on any benefits, costs, risks, limitations associated with this strategy.

Again, waste of money which would be better spent on solar installation.

Q64

Are there any other key challenges and/or corresponding solutions relating to ENERGY ACCESSIBILITY AND CHOICE KETE that we have missed? If so, please outline these below.

Yes. You should be focusing on increasing supply through increasing solar installation on rooftops. Not solar farms. Rooftops are wasted space. Land can be better used for housing or farming - or anything else.
