**Update on application for Petroleum Prospecting Permit [49055-01](#)**

Tēnā koe

I would like to update you on the application for prospecting for petroleum by Tēnā Nōpe Geophysical Company, under application number [49055-01](#). You can find the permitting area attached in a map below.

The applicant has decided to withdraw this application as of [February 2016](#).

We thank you for your consideration during the consultation period and will continue to notify you of future permit applications within your route.

Māku nōpe

Josh Adams

**Protest at Evolution's NZ drill site**

SEPTEMBER 11, 2016 4:48PM

<http://www.news.com.au/world/breaking-news/protest-at-evolutions-nz-drill-site/news-story/6dbc4b667b0d1fe28a0cfaaab7a11a6a>

Australian Associated Press

Protesters surrounded an Australian company's gold exploration drilling site in Northland, New Zealand.

About 200 people knocked down the barriers and went onto Evolution Mining's drilling site on the slopes of Puhipuhi mountain north of Whangarei on Sunday.

"Evolution Mining has been telling their Australian investors they have the support of the local hapu and community. But look at this crowd from the whole of the region - it sets that record straight," says MineWatch Northland spokesman Tim Howard.

"Evolution Mining has no social licence to be here. They are not wanted here in any shape or form."

Marchers raised the Ngāi Hāu, United Tribes and Maori flags on drilling equipment, along with banners and placards.

Environmental campaigner Hori Chapman said mining was the opposite of what was needed for a prosperity in the region.

"Our focus is on healing the land, not poisoning it and our waterways with toxic mining waste. Heal the land and we'll heal the people."

There was also a protest at the drilling site in June.

Evolution acquired the Puhipuhi exploration permit in June 2015.

The company is in the early stages of an exploration program to find out whether there are gold and silver deposits at Puhipuhi that can be mined by underground methods.

"We are committed to engaging with tangata whenua, the community and key stakeholders throughout all stages of the exploration process," the company says on its website.

The company says it's uncertain if any deposits exist and establishing a mine at Puhipuhi is years away and may not occur at all.

Subject: MEJIG Meetings in October

Hi S 9(2)(a) [redacted] and S 9(2)(a) [redacted] – hey we have several offshore seismic operations likely to commence between the middle of October and early November

Can either of you guys propose 2 x timings to meet with the operators please – they are

S 9(2)(b)(ii) [redacted] who will be operating off of Taranaki and S 9(2)(b)(ii) [redacted] who will be operating off of the East Coast.

The S 9(2)(b)(ii) [redacted] survey could deploy to NZ as soon as the 14 October.

We would need separate meetings for S 9(2)(b)(ii) [redacted]

If you could come back by early next week with some suggested times please so I can get the guys in to provide you with an overview of their operations etc

Cheers

Hi s 9(2)(a)

Sorry I was hoping to have this (somewhat loose) agenda to you by lunchtime but it got caught up.

Could you forward this on to the relevant leads at s 9(2)(b)(ii) please?

- 1 Operation overview (Operator)
  - a) Survey purpose
  - b) Maps
  - c) Acquisition parameters
  - d) Duration
  - e) Logistics
  - f) Engagement to date
  - g) MMA outcomes
- 2 NIZ background/context (MBIE)
  - a) S101B(1) – general provisions
  - b) S101B(2) – NIZ provisions
  - c) Limitations
- 3 Security arrangements (Operator with input from all)
  - a) Vessel vulnerabilities & mitigation measures
  - b) Onshore vulnerabilities & mitigation measures
  - c) Response procedures and roles
  - d) NIZ arrangements for the survey
  - e) Any other risks identified

Thanks in advance

**Subject:** RE: Seismic Survey - mobilisation and Customs clearance

Team

s 9(2)(b)(ii), s 9(2)(ba)(i), s 9(2)(ba)(ii)

Since our meeting yesterday!!!! our local IMG Oil Free Wellington have posted below about undertaking a on water protest action in Wellington Harbour.

EVENT  Urgent climate S.O.S! Oil companies are comin

Join Oil Free Wellington for a flotilla and rally to UNwelcome oil companies Statoil and Chevron! Show them what Wellington thinks of their plans to explore for new oil and gas.

- WHAT: Unwelcoming Flotilla and Rally for Statoil & Chevron
- WHEN: 11am (but arrive at 10am to get a kayak).
- WHERE: outside Ferg's Kayaks, 6 Queens Wharf, Wellington

Statoil and Chevron have contracted the world's largest seismic blasting vessel to explore for deep sea oil off the Wellington coast. They will arrive any day now. We're going to give Statoil and Chevron the unwelcoming they deserve.

Join Oil Free on Sunday November 13th for an Unwelcoming Flotilla and Onshore Rally.

**Subject:** RE: Seismic Survey - mobilisation and Customs clearance

Thanks s 9(2)(a) s 9(2)(b)(ii), s 9(2)(ba)(i), s 9(2)(ba)(ii) I think I am correct here.

I believe it's imperative that the clearance take place on Sunday s 9(2)(b)(ii) an commence their crew change. They will find out early afternoon today if they can crew change via halo or if it will be work boat in any case this will be on Sunday.

s 9(2)(a) can you check why the Lady Liz isn't free on Sunday

It would be good to know by end of business today if

s 9(2)(b)(ii), s 9(2)(ba)(i), s 9(2)(ba)(ii)

Josh from your previous email are you making this happening with s 9(2)(a) being away?

Cheers

Hi s 9(2)(a)

Please see the attached annotated copy of chart NZ56. The area should be formally notified in the next Notice to Mariners (issue 7, 29th March). Until then, we would appreciate you limiting the distribution of the information as much as possible.

The two southernmost points are:

s 9(2)(b)(ii)

and

s 9(2)(b)(ii)

s 9(2)(a) may have mentioned that we'll be available on VHF radio (Ch 07) from our site on Mahia Peninsula during launch operations? If it looks like we'll both be trying to use the area simultaneously, it should be possible for us to coordinate directly on the day.

Kind regards,

s 9(2)(a)

Hi s 9(2)(a)

I'm a security advisor to s 9(2)(b)(ii)

I understood that your exclusion zone for Mahia peninsula is 15 nautical miles, is that correct?

Currently there Warrior is coming within 40 NM of Bare Island so well out of the way, I will check proximity for the next month with the captain and advise.

Kind Regards

s 9(2)(b)(ii)

Good morning, thanks for this update.

Are you able to advise the area that the Amazon Warrior is now operating in and will be operating in for the next month please?

Police are currently working with the Ministry of Business, Innovation and Employment and a number of other agencies including RocketLab as we together plan for launches in the near future from Mahia Peninsula.

Obviously the desire of the Government is to ensure everything possible is done to ensure successful launches.

I would like any and all intel that is crucial to the launches and would appreciate maps and schedules to ensure the rocket exclusion zone is not compromised by survey or protest action.  
Appreciate your updates as below!

Many thanks.

**Subject:** NZ Petroleum Conference - protest & direct action UPDATE #1

**Importance:** High

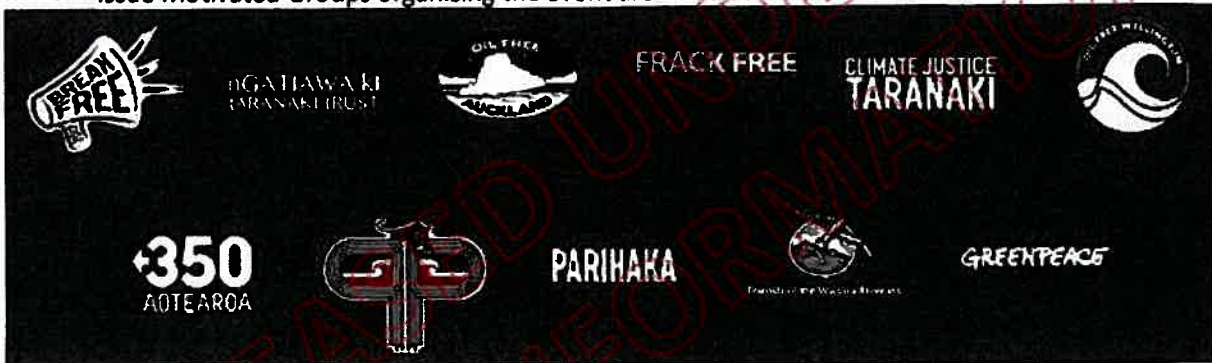

**Update @ Monday 20 March 2017, 13:00 hours**

Daily updates (from tomorrow) will be published throughout the conference in respect of open source information in relation to protest and direct action activities. A further update will also be published later this evening.

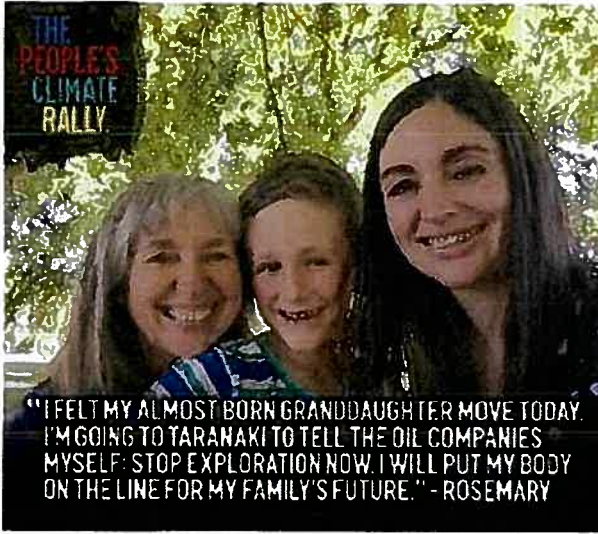

For ease of reference, items will be bullet pointed in a summarised format. Further details or clarification can be sought from s 9(2)(a) s 9(2)(a)@tcil.co.nz.

Please note that s 9(2)(a) will be in attendance at the Conference for assistance as required s 9(2)(a)

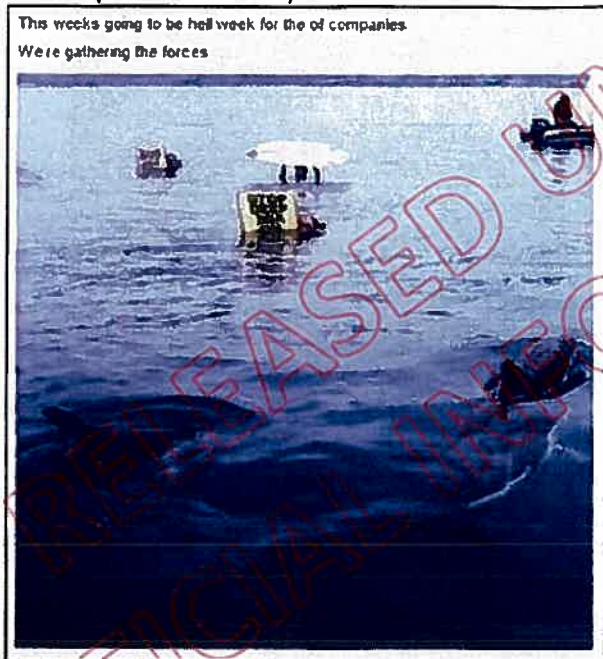

- Issue Motivated Groups organising the event are listed as follows:

- The Facebook event page currently indicates 224 people attending with a further 534 interested however this is a notoriously unreliable indicator of true numbers which are expected to be considerably higher.
- Unite Union are now promoting the event to their supporters
- A number of buses are organised to bring protesters to New Plymouth (from Auckland, Hamilton & Wellington)
- There is private transport / car-sharing being arranged from most towns around the North Island and from Nelson, Christchurch, Kaikoura & Dunedin in the South.
- Owae marae is the main accommodation centre for protesters from outside the region though many are also taking up offers of boarding with local activists/supporters.
- A number of posters have been issued by Greenpeace NZ over the past week promoting the rally each featuring well known NZ activists. The latest of these below featuring one of the leaders of Oil Free Otago:

- A leading GPNZ campaigner posted the following message overnight pertaining to the week ahead (the photo however is an archive pic from a previous campaign in Kaikoura). This particular campaigner is known to have been travelling the North Island rallying support from iwi and encouraging them to attend the Peoples Climate Rally:

- The Peoples Climate Rally programme is as follows:

# THE PEOPLE'S CLIMATE RALLY

NEW PLYMOUTH, TARANAKI 21ST - 23RD MARCH 2017

The oil industry has scarpered to Taranaki for their annual conference and it's our job to disrupt it. The 'People's Climate Rally' at the 2017 Petroleum Conference in Taranaki will include peaceful protest, workshops and entertainers of all ages and backgrounds who support a world powered by clean energy.

Hi s 9(2)(a)

I have couriered the evidence to you on a USB stick which you should receive tomorrow, it has been placed into an envelope and signed and sealed by s 9(2)(a) the FIO.

There are two folders on the memory stick AW Evidence 9 April 2017 and AW Evidence 10 April 2017.

Each folder contains photographs, voice recordings, video and scanned copies of ships logs relevant to each offence.

The best thing to do is to print out the PDF file in each folder one is called Exhibits- Breach of the NIZ and Exhibits – Interfering, these documents list each exhibit and what it relates to so is the best starting point. I have attached a copy of each of these for your reference also.

In regard to statements I understand that you have spoken with s 9(2)(a) lawyer s 9(2)(a) from Chapman Tripp and that you will be receiving statements through him.

21 mins 🌐

Yesterday New Talisman Gold mines started work on the Portal Pad on the precious Mt Karangahake! We have worked so hard to keep these guys out and keep this beautiful slice of conservation land open for public use. Now the bastards have slipped in the back door, locked us out and started the industrialization of this area under the guise of 'prospecting'. First time I've heard of a digger being necessary for prospecting! Come join us this Sunday to reclaim the space.

Thanks s 9(2)(a)

Re the scientific drilling, we're aware of that and understand that GNS has been consulting with a number of groups on the east coast, but not involved as such.

I spoke to s 9(2)(a) yesterday, he's aiming for a debrief session around 20 July, not confirmed yet. We'll facilitate the session at MBIE and circulate an agenda asap – will be looking for input from the s 9(2)(b)(ii) yourselves for that.

Rgds, Josh.

Community meetings to reveal more of work on potential earthquake and tsunami threats on East Coast.

A GROUP of top scientists will today start hosting a series of community meetings to reveal more about the work they have in store to help better understand the potential earthquake and tsunami threats posed to East Coast residents by New Zealand's largest fault line.

Scientists from GNS Science, Niwa and Massey University will run a series of community meetings in Muriwai, Gisborne, Tolaga Bay and Ruatoria to provide details about upcoming research projects into the Hikurangi subduction zone, which is at one point just 40km off the Gisborne coast.

### Meetings

- Muriwai Marae, 5.30-7.30pm, Tuesday, June 20
- Gisborne Waikanae Surf Life Saving Club, 5.30-7.30pm, Wednesday, June 21
- Tolaga Bay Fire Station, noon to 2pm, Thursday, June 22
- Kariaka Pa, Ruatoria, 5-7pm, Thursday, June 22.

GNS Science geophysicist Laura Wallace said the meetings would give residents an overview of all the science that would be happening over the next couple of years, focused on the Hikurangi subduction zone.

"Obviously we will be talking about the International Ocean Discovery programme drilling, because that is a big part of the activity and seismic surveys."

Dr Wallace said there would be question and answer sessions at each meeting, so people could ask questions about different aspects of the programmes.

"We really want to use it as an opportunity to raise people's awareness about what is happening on the subduction plate boundary off the east coast and what we are trying to do to better understand it."

### Unrelated to fracking

The meeting would help to reinforce the message that the planned work was unrelated to fracking and had "absolutely nothing" to do with oil exploration.

"We have to completely avoid any potential for petroleum or gas that could pose a danger to the ship. We won't be getting anywhere near stuff like that."

The first stage of drilling would begin in November, with instruments due to be put in place permanently in March next year.

"That's when we will install observatories within the bore holes to observe changes in the earth's crust."

Once observatories were installed, equipment would be able to monitor any changes during slow-slip events, which act like earthquakes but only happen over an extended period of time. They would provide data in the lead-up to an earthquake.

"Those will be in place for potentially a decade or more."

### Implications for East Coast

Recent findings from a similar observatory, installed as part of the IODP project off the coast of Japan, presented important implications for the East Coast, Dr Wallace said.

"What they found in Japan, which was totally unexpected, was the instruments inside the bore holes saw evidence of episodic slow-slip events."

Though the Japanese events were smaller than the ones off the Gisborne coast, it opened up the possibility that the Gisborne project would see much smaller slow-slip events and other types of plate behaviours than had been possible previously.

"It really might open a whole new view of what is happening in the plate boundary offshore from Gisborne. So it's really exciting. We will really get a whole new view of what is happening out there."

The Hikurangi subduction zone, where the Pacific plate subducts or dives under the Australian plate along the east coast of the North Island, is just one of a number of locations worldwide notable for slow-slip events.

The Hikurangi meetings are supported by GNS Science, Niwa, Massey University, He Oranga Trust, Tamanuhiri Tutu Poroporo Trust, Gisborne District Council and East Coast LAB.

The \$6.5 million Hikurangi Subduction Earthquakes and Slip Behaviour research programme is funded by the Ministry of Business, Innovation and Employment (MBIE), and will help New Zealand scientists take part in several international projects studying the Hikurangi subduction zone over the next five years.

Subject: All of Government Procurement: Protective Security Consultancy Services Sub Panel: RFP [UNCLASSIFIED]

Good day to you all,

Hopefully you will already be aware of this opportunity but the MBIE Consultancy Centre of Excellence (CoE) is creating a Protective Security Services Sub Panel within the Risk Management and Operations subcategory to deliver Protective Security Consultancy Services. The RFP has gone live and closes on 21 July 2017. Please follow this link to the RFP document: <https://www.gets.govt.nz/MBIE/ExternalTenderDetails.htm?id=18768824>

We cannot provide any information relating to the tender but can refer you to GETS for all information. Any questions must be directed via GETS.

## Protective Security Services Sub Panel

The Protective Security Requirements (PSR) outlines the Government's expectations for managing personnel, physical and information security. The PSR will better help agencies manage business risks and assure continuity of service delivery. The PSR clearly sets out what agencies must and should consider to ensure they are managing security effectively.

The CoE is creating a Sub Panel on behalf of the lead security agencies to further qualify Panel Providers from within the Risk Management and Operations subcategory to deliver Protective Security Consultancy Services. We are seeking Providers who are able to demonstrate a thorough understanding of the PSR within the state sector operating environment and the current risk context of New Zealand government, and its individual agencies. Providers on the Panel may be able to provide one or more of the following services:

- Threat assessments
- Risk assessments
- Security planning
- Security governance
- Security assurance
- Security design
- Security awareness

Existing and new Providers to the Risk Management and Operations subcategory interested in being a part of the Protective Security Services Sub Panel will need to respond to additional RFP questions as outlined in Appendix 6 of the RFP.

Regards

PSR Team

**To:** Kate West  
**Cc:** s 9(2)(a)  
**Subject:** Catch up in Wellington

Kate,

I trust you're well. It was great to catch up at TRENZ and to meet s 9(2)(a)

Following up from our conversations I think there is benefit in s 9(2)(a) and I travelling to Wellington for an informal catch up and discussion with yourselves (and any others you think are appropriate).

If we can make the dates work; I would also like to introduce you to s 9(2)(a) and s 9(2)(a) (from Thompson & Clark). s 9(2)(a) and s 9(2)(a) have led our research over the past few years and I think there would be benefit in you meeting directly. I understand their company Thompson & Clark have undertaken a number of (non tourism) projects for MBIE over the years.

Please let us know any indicative dates which may work for you. s 9(2)(a) and I could travel to Wellington:

- Tuesday 6th - Thursday 8th June (preferable).
- Potentially 3rd to 6th July
- I am not sure about our August movements yet.

Lastly; did you have a chance to make contact with s 9(2)(a) from ePay NZ Limited? We had some really interesting discussions with him; he had visibility into the market which was new to me!

Kind Regards,

s 9(2)(a)
