Questions

Change 1: Get you to register as a user

Q: What do you think about requiring users to register to use the services? Do you have any concerns about this?

Registering is good way to provide user statistics for funding of telecommunication services that Deaf/HoH people use.

Change 2: Make the video interpreting service more available

Q: What do you think about our proposals for making the video interpreting service more available? Do you have any concerns about them?

I would love to see 24/7 NZVIS services. I live in town with only 2 NZSL interpreters and 200+ Deaf people.

There have been times I wish NZSL interpreters were available during weekends and after hours for Hospital Emergencies.

Change 3: Move to digital text-based services

Q: What do you think about moving to digital text-based relay services? Do you have any concerns about this?

I fully support moving to the digital platform.

Change 4: Phase out CapTel equipment

Q: What do you think about stopping the use of CapTel equipment? Do you have any concerns about this?

I don't use CapTel.

Change 4: Phase out CapTel equipment

Q: What do you think would be a reasonable length of time to allow existing CapTel users to change over to new digital relay services?

I don't use CapTel.

Change 5: Stop using Teletypewriter (TTY) equipment

Q: What do you think about stopping TTY services? Do you have any concerns about this, including the timing for doing this?

It's time to phase out TTY equipment and move to a digital platform.

Change 6: Stop speech-to-speech services

Q: What do you think about stopping speech-to-speech services? Do you have any concerns about this?

I don't use Speech to Speech. But my medical condition at some point will make using NZSL very painful and I may have to take up using the Speech to Speech services.

Final thoughts

Q: Do you have any final thoughts, comments or feedback?

24/7 NZVIS please <3
