

Learning to Fly: Sustainable benefit from international innovation

Just Transition Summit

10 May 2019

Anna Kominik - Country Director

Highly-automated with human oversight

Independent lift fans and cruise motor

Redundant battery architecture

Triple-redundant flight computer

90% fewer moving parts than helicopter

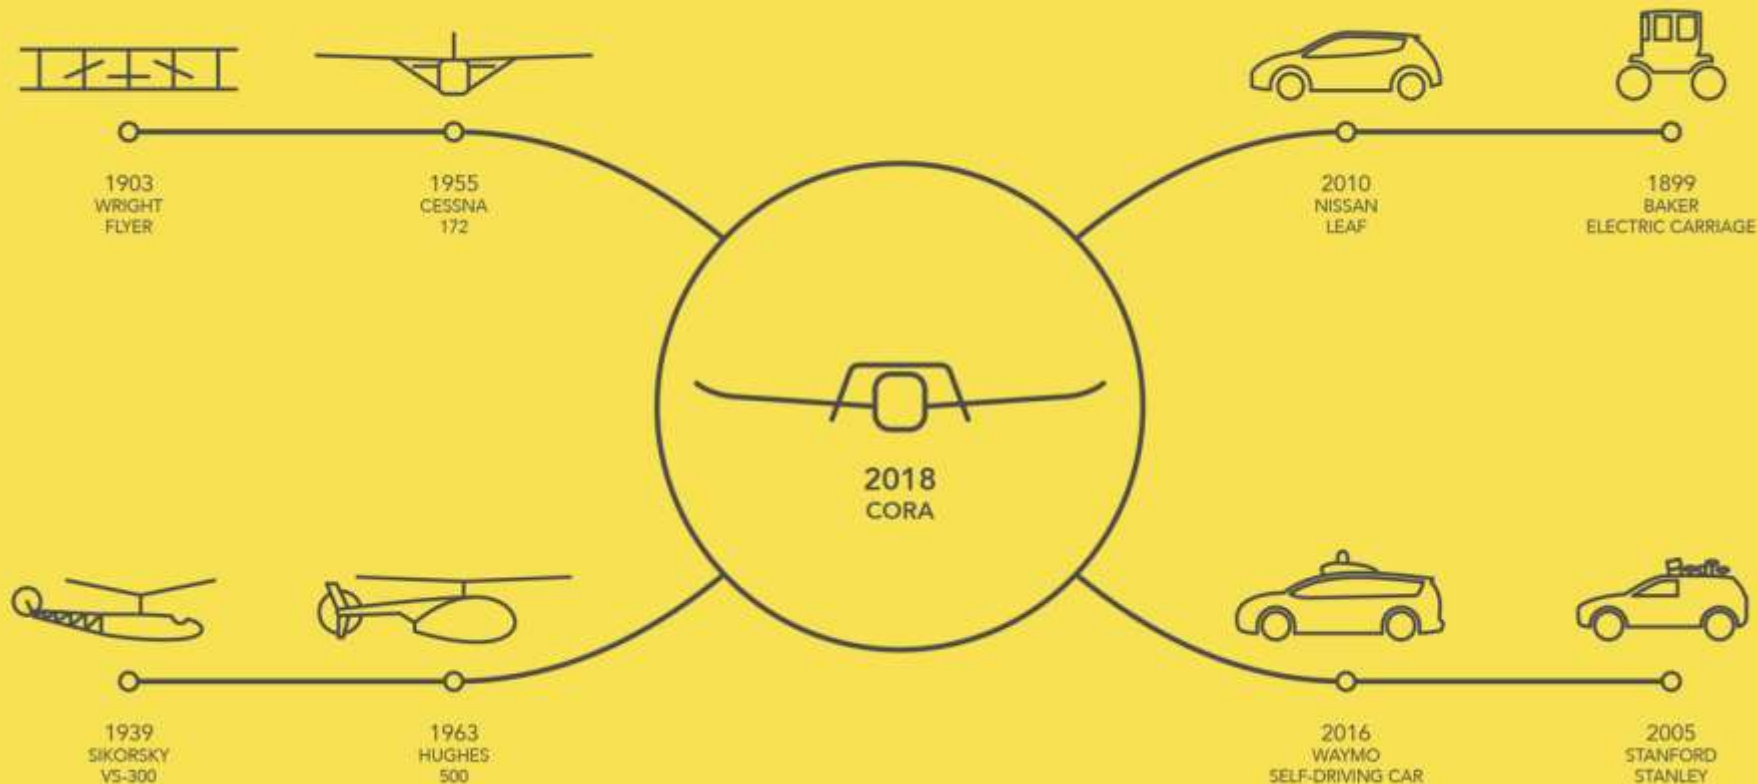

Ballistic parachute

cora

Cora - Part of the next evolution of transport

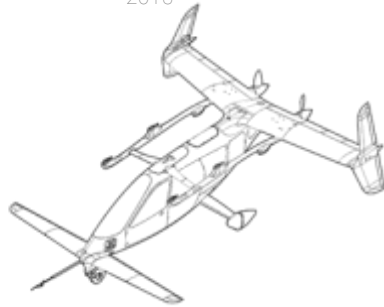

A Journey of Innovation

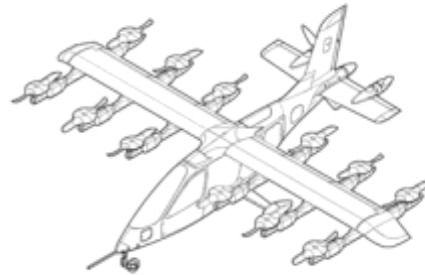

2011

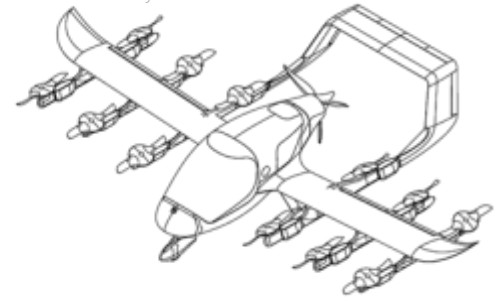

2015

2016

Today

An innovation ecosystem

System Certification

- New Technology
 - Electric Propulsion
 - Fly by Wire
 - Energy Storage
 - Automated Functions

Infrastructure

- Vertiport design
- Energy infrastructure
- Site Placement
- Multimodal Systems
- Local Approvals

Airspace Integration

- Detect & Avoid
- Communication
- Navigation
