Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Strongly disagree

Why?

Prefer "An innovative minerals and petroleum sector committed to eliminating environmentally harmful practices."

What is your vision for the minerals and petroleum sector in New Zealand?

Immediate stop of exploration and extraction methods that threaten our natural environment or denizens . Switch from fossil fuels to renewable energy sources for domestic use and international supply. Exit unsustainable markets and focus on growth in safe and sustainable resource supply.

How can New Zealand sustainably derive value from its petroleum and minerals resources?

Save petroleum and mineral resources until sustainable and safe methods of exploration and extraction suitable for New Zealand's geographical features have been developed and tested.

Objectives for the minerals and petroleum sector

Objective for a sector that: "Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy"

Agree

Why?

If the transition to carbon neutral is before or by the year 2050 and add (c) do no environmental harm

Objective for a sector that: “Is productive and innovative”.

Disagree

Why?

Prefer "Is sustainably productive and innovative."

Objective for a sector that: “Is effectively regulated”.

Strongly agree

Why?

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?

Analysis of costs and benefits to society and the environment beyond production and supply. Why are these resources in demand and how will they be used? What are the wider ethical impacts of supply?

Guiding principles

Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.

Strongly agree

Why?

The environment, ecosystems, and biodiversity are of greater value to New Zealand's future and society than once off petrol or mineral compensation.

Principle: Māori cultural interests are understood and respected.

Strongly agree

Why?

These minerals and resources were initially stolen or fraudulently obtained from Maori and the treaty of Waitangi guarantees unqualified exercise of chieftainship (and therefore kaitiaki) over taonga.

Principle: Support the transition to a carbon neutral economy by 2050.

Strongly agree

Why?

Principle: The impact on people, communities and regions are managed in a just and inclusive way.

Strongly agree

Why?

Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.

Strongly agree

Why?

Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.

Strongly agree

Why?

Do you agree or disagree with each of the following principles for the Crown?

Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.

Strongly agree

Why?

Principle: The Crown receives a fair financial return for its minerals and petroleum.

Strongly agree

Why?

Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.

Strongly agree

Why?

Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.

Disagree

Why?

Unless the existing permits could harm New Zealand's interests, people or environment.

Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.

Agree

Why?

Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.

Strongly agree

Why?

Do you agree or disagree with each of the following principles for Industry?

Principle: Pursue continuous improvements in health and safety.

Strongly agree

Why?

Principle: Strive to implement industry best practice in operations.

Strongly agree

Why?

Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.

Strongly agree

Why?

Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.

Agree

Why?

Are there any other principles you would like us to consider in the strategy?
