**Vision**

**Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?**

Strongly disagree

**Why?**

It is driven by profit and has no consideration for the environment.

**What is your vision for the minerals and petroleum sector in New Zealand?**

Halt all exploitation of new minerals and petroleum until existing stocks are reused and recycled.

**How can New Zealand sustainably derive value from its petroleum and minerals resources?**

Reuse and Recycle

**Objectives for the minerals and petroleum sector**

**Objective for a sector that: “Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy”.**

Strongly disagree

**Why?**

There is over 40 years of science stating the reckless abandon with which we exploit NZ.

**Objective for a sector that: “Is productive and innovative”.**

Strongly disagree

**Why?**

Productive and innovative methods of sustainability have been ignored.

**Objective for a sector that: “Is effectively regulated”.**

Strongly disagree

**Why?**

Mine tailings are toxic and destroy ecosystems, petroleum companies manipulate petrol prices.

**Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?**

Profits don't stay in NZ and don't go towards sustaining ecosystems.

**Guiding principles**

**Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.**

Strongly disagree

**Why?**

It is untrue

**Principle: Māori cultural interests are understood and respected.**

Strongly disagree

**Why?**

Understood but ignored

**Principle: Support the transition to a carbon neutral economy by 2050.**

Disagree

**Why?**

Why not sooner? Money can be made from other enterprises.

**Principle: The impact on people, communities and regions are managed in a just and inclusive way.**

Strongly disagree

**Why?**

There is little to no consultation

**Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.**

Strongly agree

**Why?**

There are valuable resources being thrown away.

**Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.**

Agree

**Why?**

They do not align currently

**Do you agree or disagree with each of the following principles for the Crown?**

**Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.**

Strongly disagree

**Why?**

Do you need to ask why?

**Principle: The Crown receives a fair financial return for its minerals and petroleum.**

Strongly disagree

**Why?**

These industries are subsidised and most profits go overseas.

**Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.**

Strongly disagree

**Why?**

Please look at the definition of equity

**Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.**

Agree

**Why?**

Because the Crown is on wrong side of history.

**Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.**

Strongly disagree

**Why?**

The Crown does not look at valid scientific evidence

**Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.**

Strongly disagree

**Why?**

This sounds like non-fiction

**Do you agree or disagree with each of the following principles for Industry?**

**Principle: Pursue continuous improvements in health and safety.**

Strongly agree

**Why?**

This is obvious

**Principle: Strive to implement industry best practice in operations.**

Disagree

**Why?**

Be better than industry best practice

**Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.**

Strongly agree

**Why?**

They can already do better

**Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.**

Strongly agree

**Why?**

This should be in place before any agreement is reached.

**Are there any other principles you would like us to consider in the strategy?**

The company will take responsibility for all aspects of the product in perpetuity.

**Action areas intro**

**Action Area: Modernising the Crown Minerals Act**

Strongly agree

**Why?**

The current one is terrible

**What future actions would you like us to consider under this Action Area?**

Save NZ for future generations

**Action Area: Securing affordable resources to meet our minerals and energy needs**

Disagree

**Why?**

Reuse and recycle

**What future actions would you like us to consider under this Action Area?**

All resources must be reused and recycled by the company that exploits them.

**Action Area: Improving Treaty partnership**

Strongly agree

**Why?**

Why has this taken so long?

**What future actions would you like us to consider under this Action Area?**

Consult with all hapu

**Action Area: Improving stakeholder and community engagement**

Strongly agree

**Why?**

Talk to the community and stakeholders

**What future actions would you like us to consider under this Action Area?**

Posted information to all affected

**Action Area: Improving industry compliance**

Strongly agree

**Why?**

Hold them accountable

**What future actions would you like us to consider under this Action Area?**

Hold the industry responsible for all areas of a products life cycle

**Action Area: Research and investment in better mining and resource use**

Strongly agree

**Why?**

Make this more sustainable

**What future actions would you like us to consider under this Action Area?**

Take an environment first approach

**Are there any other action areas you would like us to consider as part of advancing this Strategy?**

Reuse and Recycle all exploited minerals and petroleum

**Other**

**Are there any other comments you would like to make about the “Minerals and Petroleum Strategy for Aotearoa New Zealand: 2019-2029”?**
