Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Neither agree nor disagree

Why?

An ambiguous statement which could be twisted to mean whatever the sector wants it to mean.

What is your vision for the minerals and petroleum sector in New Zealand?

A managed exit.

How can New Zealand sustainably derive value from its petroleum and minerals resources?

Minimise environmental impacts, work on technologies to extract more value and reduce waste in the extraction process, while overall developing replacement fuels and technologies.

Objectives for the minerals and petroleum sector

Objective for a sector that: “Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy”.

Neither agree nor disagree

Why?

While the objective sounds good, it is open to interpretation especially the phrase ‘responsibly delivers value.’

Objective for a sector that: “Is productive and innovative”.

Disagree

Why?

Sounds like a licence for more extraction.

Objective for a sector that: “Is effectively regulated”.

Strongly agree

Why?

Strong regulation needed for a sector that by its nature takes place in often pristine and uninhabited areas where the potential for destruction is large and not visible to the general public.

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?

Guiding principles

Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.

Strongly agree

Why?
